# NATIONAL SAVINGS BANK.

165 Genesee Street, Utica, N. Y.

# SIX PER CENT INTEREST PER ANNUM,

Is paid on the amount due each denesiter, from ONE DOLLAR to FIVE THOUSAND DOLLARS.

### EFREE FROM GOVERNMENT TAX.

This BANK is designed for all classes in the community. It commends itself equally to all. People of all classes, agos and vocations denosit with it, such as Clergymen, Lawyers, Doctors, Merchants, Merchants, Merchants, Farmers, Clerks, School Children, Teachers, Cartmen, Servants, Laborers, &c. It is really the

### PEOPLE'S SAVINGS BANK.

Money can be deposited and drawn out at any and all times, as the needs of the depositor may require, in sums varying from 10 cents to \$5,000. A fand in this Bark would be a good reliance in case of sickness or old age, and better than even the good will of friends. The inducements it offers to depositors are more favorable than any similar institution in this vicinity. It is the only \$5,4VIXGS BANK in the County that pays its depositors interest for a less time than six months.

# REYNOLDS

MANUFACTURED EXCLUSIVELY BY US, UNDERREYNOLDS? PATENTS for Tempering Steel without the aid of any liquids, received the only aw 22d at the Great National Implement Trial, held at Auburn, in 1866. They possess the icllowing superior qualities:

They are made with a fine Cutlery Temper at the edges.
 They hold only a Spring Temper at the center and at the heel.

3. They are warranted perfectly uniform, every knife being exactly alike in temper.
4. We warrant they can be ground from 8 to 10 times without losing their cutting edge.

5. Finally, we will warrant them to cut from 40 to 50 acres of grain or grass without

being once ground.

We are the sole Manufacturers of these Knives in the United States,

# REYNOLDS, BARBER & GO.,

Steel Tempering Works, Auburn, N. Y.

### INTRODUCTION.

In presenting the initial number of the "Gazetteer and Directory of Oneida County" to the public, the publisher desires to return his sincere thanks to all who have so kindly assisted in obtaining the valuable information which it contains, and without whose aid it would have been impossible to collect, in the brief space of time in which it is essential that all such works should be completed. Especially are our thanks due to the several editors of the Utica Morning Herald, Utica Daily Observer, Saturday Evening Telegraph, Temperance Patriot, Clinton Courier, Rome Sentinel, Roman Citizen, Black River Herald, Camden Journal and Waterville Times, for the uniform kindness which has been evinced in calling public attention to the author's efforts; and to them and the following persons, viz: Rev. S. G. Brown, President Hamilton College; M. C. Blackstone, Charles T. Pooler, J. H. Tracy and Silas Snyder, School Commissioners; Sidney A. Bunce, Clerk of Board of Supervisors; A. E. Pettee, P. M., Cassville; K. Seaton, P. M., Sauquoit, and L. S. Davis, of Florence, for essential aid in furnishing material for the work. Many others have kindly volunteered their aid, to all of whom we return sincere thanks.

The historical items, as contained in the Gazetteer, it is believed will, in the main, be found truthful and interesting.

The following works were consulted in its preparation: French's and Gordon's "State Gazetteers;" Mather and Brockett's "Georgraphical History of the State of New York;" "Documentary History of New York;" "Jones' Oneida;" "Historical Collections of New York;" "Proceedings of the Board of Supervisors for 1868;" "Census Reports," and Stone's "Life of Brant."

That errors may have occurred in so great a number of names and dates as are here given, is probable, and that names have been omitted that should have been inserted is quite certain. We can only say that we have exercised more than ordinary diligence and care in this difficult and complicated feature of book-making. To such as feel aggrieved in consequence of error or omission, we beg pardon, and ask the indulgence of the reader in marking such as had been observed in the subsequent reading of the proofs, and which are noted in the Errata, commencing on page 415.

It is also suggested that our patrons observe and become familiar with the explanations at the commencement of the Directory.

The Map of the County was engraved with great care by Messrs. "Weed, Parsons & Co.," of Albany, and, it is believed, will prove a valuable acquisition to the work.

The Advertisers represent some of the leading business men and firms of the County, and also many enterprising and reliable dealers in other parts of the State. We most cheerfully commend them all to the patronage of those under whose observation these pages may come.

With thanks to friends generally, we leave our work to secure the favor which earnest endeavor ever wins from a discriminating business public.

HAMILTON CHILD.

National Savings Bank, 165 Genesee street. Utica. N. Y. Among the new institutions of this county, none mas grown more steadily into popular favor than the Banking institution whose name, heads this article. Its business has grown with a rapidity upparalleled in similar institutions. It is only about two and a half years since it commenced business, and its deposits have reached the enormous sum of over one million dollars. It is managed by a board of Directors composed of the best business men in the country. Its officers are men of experience, and have no superiors as careful, successful, financial managers. It is one of the ablest managed, institutions in the State, and is doing great good. See advertisement on page 1.

C. H. Walworth's 55 Bryant & Stratton" Business College, Utica .- We take plaasure in calling the attention of the reader, especially the young, to this worthy institution. Among the many applicants, of a similar character, for public favor, few have acquired or as justly deserved so enviable a reputation as this. Owing to the large experience of the Principal, both as a teacher and a business man, the able corps of teachers with whom he has surrounded himself and the superior facilities which are here offered for conducting a school of this kind, this institution holds out inducements which those who contemplate availing themselves of a course of this kind will do well to consider. Being one of the chain of colleges established in all the principal cities of the country, it secures to those who take a scholarship there all the advantages that others of the chain can bestow. This feature is one of incalculable importance, which makes its scholarship far more desirable and advantageous. As a penman, Mr. Walworth is admirably qualified to impart instruction in this important art, in which he has acquired such wonderful proficiency. To young ladies and gentlemen who desire to fit themselves for more lucrative and responsible positions than those they now occupy, or could otherwise fill, we cheerfully and urgently commend a course of instruc-tion at this College. The public cease to ask "is a business education beneficial?" and the only anxiety now is, which of the many claimants is best calculated to satisfy the public demand. Of this the reader must judge for himself or herself. We believe, however, from the methods pursued here, that this, being pleasantly and centrally located, is admirably adapted to meet this demand, and invite your attention for full particulars to Prof. Walworth's circular, opposite pages 100 and 101.

W. C. North, Photographer, Utica, N. Y., advertises on colored page 436. His facilities for performing all work in the picture line cannot be surpassed by any establishment in Central New York. Every style of picture known to the art can be procured here at as low a rate as at any establishment of equal merit in this region. His rooms are over Manning's Dry Goods Store, Frunklin Square. Call and see his specimens.

Hayden Brothers, proprietors of the Retail Woolen Mills, at Port Byron, have long been celebrated as being manufacturers of desirable and reliable goods. The establishment was started in 1824 as a small custom mill. Since then the greatly increased business has called for extensive additions and improvements, which have been made; and to day their cloth is known and worn in every county in the State and every State in the Union. They use only the best qualities of wool, entirely free from waste or shoddy, and employ only experienced and careful workmen who strive to maintain the reputation their goods to maintain the reputation and their retail customers. A year ago they opened a store at No. 29 Warren street, Syracuse, where they keep full lines of all goods of their manufacture. Farmers, mechanics and business men generally, can make good bargains by calling at the store, where Mr. J. W. Gates, the manager, will be pleased to give them good goods at advantageous terms. See card, page 18.

N. H. Galusha, Manufacturer and dealer in Stoves and all kinds of hollow ware, Miscellaneous Castings, &c., at No. 20 Court St., Rochester, is carrying on a business equaled by few in the State. He employs the most skillful workmen and the best qualities of iron in the manufacture of his goods. Prominent among the articles manufactured at this foundry may be mentioned the celebrated first class coal or wood cooking stove, "General Grant." We have used one of them in our house during the two years part, and feel it a privilege to The pattern of testify to their excellence. the stove is plain, neat and simple, and it has all the late improvements in the way of water reservoir, heater for drving fruit or keeping food warm, &c. We think the stove quite perfect in all its parts. Mr. Galusha also manufactures the new Coal Base Burning Parlor Stove, "Aetna," said to be one of the best in market. We refer the attention of stove dealers who desire a tip top stove to sell, or of those who desire a good one for their own use, to card on colored leaf opposite page 84.

A. H. & E. P. Quigley, of Trumansburgh, deal in all kinds of Flagging. Their quarries on Cayuga Lake, are extensive, and their trade extends to a great distance. Orders will receive prompt attention at their hands. We refer all parties who are anxious to secure the best quality of Flagging, to their card on page 18.

Chauncey Palmer & Son, manufacturers of Architectural, Ornamental and Machinery castings, at the Phoenix Iron Works, publish a card on page 16. Some of the most beautiful patterns of Iron Railings and other ornamental work can be found here. All orders promptly executed and of any desirable pattern.

J. E. James, Photographer, in the Devereux Block, Genesee St., Utica, advertises on page 8. Mr. James has had extensive experience and knows just how to make a good likeness, the important point in Photography. Call and see him.

#### MOTHERS: READ THIS.

Are your children restless, irritable, wakeful, feverish? Are they cutting teeth? Are the gums red and painful? Have they diarrhoa? Have they fits or spasms? If so,

#### USE THE ORIENTAL SYRUP.

It is the only Syrup or Cordial, or CHILD MEDICINE in market free from Opium, Morphine, or Parazoric. These you can't give; or, at least, you ought not to. They destroy the functions of the BRAIN; the child grows pale; its eyes grow wild; its flesh becomes soft; it loses its minit; it becomes an Idiot. Mothers, these are facts! To be convinced, try it. The Oriental Syrup contains NONE of these poisons. It is perfectly harmless. It is section—publish. The child sleeps sweetly, and awakes refreshed and lively. The teeth penetrate the gums without pain. It is good for aged and nervous people. TRY IT.

DR. G. T. TAFT & CO., Proprietors, Seneca Falls, N. Y.

#### THE BALM OF GILEAD!

SIR ASHLEY COOPER, in one of his lectures to his class, says:—I have used the Balm of Gibead in my practice, in one form or other, for more than forty years; and for Old Sores or Ulcers, Eruptions, Rheumatism, Burns, chilblains, Scalds, Piles, Chates, &c., it sat assesses every other known remedy.

#### Rosenberger's Balm of Gilead Ointment

Is composed of Oils and Palsams from trees and shrubs, and for all the diseases referred to by Dr. Coeper, we warrant it almost a specific. For Gall, Grease and Wounds of Horses, the specific warrant it; therefore do not hesitate to try it for every kind of Wound, Bruise or Sore.

DR. G. T. TAFT & CO., Proprietors, Seneca Falls, N. Y.

#### THE STATES,

THEIR SETTLEMENT, ADMITTANCE TO THE UNION, POPULATION, SUFFRAGE LAWS, ETC.

ALABAMA was settled near Mobile, in 1702, by the French; was formed into a Territory by act of Congress, approved March 3, 1817, from the eastern portion of the Territory of Mississippi; framed a Constitution August 2, 1819, and was admitted into the Union December 14 of the same year. Area 50,722 square miles, or 32,462,080 acres.—Population in 1860, 964,201, of whom 435,080 were slaves. It is the chief cotton growing State of the Union. White male citizens who have resided one year in the State and three months in the county, are entitled to vote. An election for a Convention was held December 24, 1850, and a majority of over 50,000 votes cast for secession; the Convention met January 7, 1861, and on the 11th passed the ordinance of secession, by a vote of 61 to 39, which was followed on the 21st by the resignation of its members of Congress.

ARKANSAS was settled at Arkansas Post in 1685, by the French, and was part of the Louisiana purchase ceded by France to the United States, April 30, 1803. It was formed into a Territory by act of Congress, March 2, 1819, from the southern part of the Territory of Missouri; its western boundary was settled May 26, 1824, and its southern, May 19, Having adopted a Constitution, a memorial was presented in Congress, March 1, 1836, and an act for its admission into the Union passed June 15 of the same year. Area 52,198 square miles, or 33,406,-720 acres. In 1860 its population was 435,450, of whom 111,115 were slaves. It is an agricultural State, its staples being corn and cotton.-Citizenship and residence in the State for six months, qualify voters in the county and district where they reside. January 16, 1861, its Legislature ordered a State Convention, which assembled, and on May 6, voted to secede, 69 to 1. January 4, 1864, a Convention assembled in Little Rock, which adopted a new Constitution, the principle feature of which consisted in a clause abolishing slavery. The Convention adjourned January 22. This body also inaugurated a Provisional Government. The Constitution was submitted to the people, and 12,177 votes cast for it, to 226 against it. The State was re-organized under the plan contained in the Amnesty Proclamation of President Lincoln, in pursuance of which an election was held March 14, 1864. The vote required under the Proclamation was 5,405. About 16,000 votes were east.

CALIFORNIA was settled at Diego in 1768, by Spaniards, and was part of the territory ceded to the United States by Mexico, by the treaty concluded at Guadaloupe Hidalgo, February 22, 1848. After several ineffectual attempts to organize it as a Territory or admit it as a State, a law was passed by Cengress for the latter purpose, which was approved September 9, 1850. Area 188,981 square miles, or 120,947,784 acres. Population in 1860, 305,439. It is the most productive gold mining region on the continent, and also abounds in many other minerals.—White male citizens of the United States, and those of Mexico who may choose to comply with the provisions of the treaty of Queretaro, of May 39, 1848, who have resided in the State six months and in the county or district thirty days, are entitled to vote.

CONNECTICUT was settled at Windsor, in 1623, by English Puritans from Massachusetts, and continued under the jurisdiction of that Province until April 23, 1662, when a separate charter was granted, which continued in force until a Constitution was formed, September 15, 1818. It was one of the original thirteen States, and ratified the United States Constitution, January 9, 1788. Area 4,674 square miles, or 2,991,360 acres. Population in 1860, 460,147. It is one of the most densely populated and principal manufacturing States in the Union. Residence for six months, or military duty for a year, or payment of State tax, or a free-hold of the yearly value of seven dollars, gives the right to vote.

DELAWARE was settled at Wilmington, early in 1638; by Swedes and Finns; was granted to William Penn, in 1682, and continued under the government of Pennsylvania until the adoption of a Constitution, September 20, 1776; a new one was formed June 12, 1792. It was one of the original thirteen States, and ratified the United States Constitution, December 7, 1787. Area 2,120 square miles, or 1,356,800 acres.—Population, in 1860, 112,216, of whom 1,798 were slaves. It is a grain and fruit growing State, with some extensive manufactories. Residence in the State one year, and ten days in the election district, with payment of a State or county tax assessed ten days prior to an election, gives the right to vote, except that citizens between twenty-one and twenty-two years of age need not have paid the tax.

FLORIDA was settled at St. Augustine, in 1565, by Spaniards: was formed from part of the territory ceded by Spain to the United States by treaty of February 22, 1819; an act to authorize the President to establish a temporary government was passed March 3, 1819; articles of surrender of East Florida were framed July 10, and of West Florida, July 17, 1821, and it was then taken possession of by General Jackson as Governor. An act for the establishment of a Territorial Government was passed March 30, 1822, and by act of March 3, 1823, East and West Florida were constituted one Territory. Acts to establish its boundary line between Georgia and Alabama were passed May 4, 1826, and March 2, 1831. After several ineffectual attempts to organize it into two Territories, or into a State and Territory, an act for its admission into the Union was passed March 2, 1845. Area 59,208 square miles, or 37,900,520 acres. Population, in 1860, 140,425, of whom 61,745 were slaves. It is an agricultural State, tropical in its clima's and products. Every free white male citizen, who has resided in the State two years and in the county six months, and has been enrolled in the militia (unless exempt by law,) is qualified to vote; but no soldier, seaman

or marine can vote unless qualified before enlistment. Its Legislature called a Convention, December 1, 1860, which met January 3, 1861, and passed a secession ordinance on the 10th by a vote of 62 to 7.

GEORGIA was settled at Savannah, in 1733, by the English under General Oglethorpe. It was chartered June 9, 1732; formed a Constitution February 5, 1777; a second in 1785 and a third May 30, 1798.— It was one of the original thirteen States, and ratified the United States Constitution January 2, 1788. Area 58,000 square miles, or 37,120,000 acres. Population, in 1860, 1,057,286, of whom 462,198 were slaves. It is a large cotton and rice growing State. Citizens of the State, six months resident of the county where voting, who have paid taxes the year preceding the election, are entitled to vote. November 18, 1860, its Legislature ordered an election for a State Convention, which assembled and passed a secession ordinance January 19, 1861, by a vote of 208 to 89, and on the 23d of the same month its members of Congress resigned.

ILLINOIS was settled at Kaskaskia, in 1683, by the French, and formed part of the northwestern territory ceded by Virginia to the United States. An act for dividing the Indiana Territory and organizing the Territory of Illinois, was passed by Congress, February 3, 1890; and an act to enable it to form a State Constitution, Government, &c., was passed April 18, 1818; a Constitution was framed August 26, and it was admitted into the Union December 23 of the same year. Area 54,405 square miles, or 64,819,200 acres. Population, in 1860,1,711,951. It is the chief "prairie" State, and the largest grain growing and second largest cattle raising State in the Union. All white male inhabitants, who have resided in the State one year and election district sixty days, can vote in the district where actually residing.

INDIANA was settled at Vincennes, in 1690, by the French, and formed part of the northwestern territory ceded by Virginia to the United States. It was organized into a Territory May 7, 1800, from which the Territory of Michigan was set off in 1805, and Illinois in 1809. An act was passed to empower it to form a State Constitution, Government, &c., April 19, 1816, and it was admitted into the Union December 11 of the same year. Area 33,809 square miles, or 21,637,760 acres. Population, in 1860, 1,350,428. It is an agricultural State, chiefly devoted to grain growing and cattle raising. A residence of one year in the State entitles males of 21 years of age to vote in the county of their residence.

IOWA was first settled at Burlington by emigrants from the Northern and Eastern States. It was part of the region purchased from France; was set off from the Territory of Wisconsin and organized as a separate Territory June 12, 1838; an act for its admission as a State was passed and approved March 3, 1845, to which the assent of its inhabitants was to be given to be announced by Proclamation of the President, and on December 28, 1846, another act for its admission was passed. Area 50,914 square miles or 32,584,960 acres. Population, in 1860, 674,913. It is an agricultural State, resembling Illinois, and contains important lead mines. White male citizens of the United States, having resided in the State six months and county twenty days, are entitled to vote.

KANSAS was formed out of the original Louisiana purchase, and organized into a Territory by act of Congress, May 30, 1854, and after several ineffectual attempts was finally admitted into the Union in January, 1861. Area 78,418 square miles, or 50,187,520 acres. Population, in 1860, 107,206. It is an agricultural State, with a soil of rich and deep black loam, except the central portion, which is partly a desert. The western portion is a fine grazing country, well wooded. Residence in the State six months, and in the township or ward thirty days, confers the right of suffrage on white male citizens. It also abounds in minerals.

KENTUCKY was settled in 1775, by Virginians; formed into a Territory by act of the Virginia Legislature, December 18, 1789, and admitted into the Union June 1, 1792, by virtue of an act of Congress passed February 4, 1791. Area 37,680 square miles, or 24,115,200 acres.— Population in 1860, 1,155,684, of whom 225,483 were slaves. It is an agricultural State, raising more flax and hemp than any other. Loyalty, a residence of two years in the State and one in the county are the requirements to vote. "Any citizen of this State who shall enter the service of the so-called Confederate States, in either a civil or military capacity; or into the service of the so-called Provisional Government of Kentucky, in either a civil or military capacity; or having heretofore entered such service of either the Confederate States or Provisional Government, shall continue in such service after this act takes effect, (March 11, 1862.) or shall take up or continue in arms against the military forces of the United States or State of Kentucky, or shall give voluntary aid and assistance to those in arms against said forces, shall be deemed to have expatriated himself, and shall no longer be a citizen, except by permission of the Legislature by a general or special statute."

LOUISIANA was settled at Iberville, in 1699, by the French, and comprised a part of the territory ceded by France to the United States, by treaty of April 30, 1803, which purchase was erected into two Territories by act of Congress March 26, 1804, one called the Territory of Orleans, the other the District of Louisiana, afterwards changed to that of Missouri. Congress, March 2, 1806, authorized the inhabitants of Orleans Territory to form a State Constitution and Government when their population should amount to 60,000; a Constitution was adopted January 22, 1812, and the State admitted into the Union April 8 of the same year, under the name of Louisiana. Area 41,255 square miles, or 26,408,200 acres. Population in 1860, 708,002, of whom 331,726 were slaves. It is the chief sugar producing State of the Union. Two years' residence in the State and one in the parish are the qualifications of voters. December 10, 1860, the Legislature ordered a State Convention to be held, which assembled and passed an ordinance of secession January 26, 1861, by a vote of 113 to 17. The people voted on the question, and on March 28 the following was announced as the result: For, 20,448; against, 17,296; a majority of 3,152. The Convention ratified the 'Confederate' Constitution March 11, 1861, by avote of 107 to 7, and refused to submit it to the people by 94 to 10. On the 11th day of January, 1864, Maj. Gen. Banks issued a Proclamation for an election of State officers and delegates to a Constitutional Convention, for the purpose of affecting a reconstruction of the State Government under the plan suggested in the Amnesty Proclamation of President Lincoln. The election was held on the 22d day of February, 1864. The officers thus elected were installed March 4. The total vote east was 10,725. The vote requisite under the Proclamation was 5,051. The Convention amended the Constitution so as to abolish slavery. The new Constitution was adopted by the people by a vote of 6,836 for, to 1,566 against.

MAINE was settled at York, in 1623, by the English, and was formerly under the jurisdiction of Massachusetts. October 29, 1819, the inhabitants of the District of Maine framed a Constitution; applied for admission December 8, 1819. Congress passed an act March 3, 1820, and it was admitted as a State March 15, of the same year. Area 31,706 square miles, or 20,330,240 acres. Population, in 1860, 628,279. It is largely engaged in the lumber trade and ship building. Citizens of the United States, except paupers and persons under guardianship, who have resided in the State for three months next preceding the election, are entitled to vote.

MARILAND was settled at St. Mary, in 1634, by Irish Roman Catholics, having been chartered June 20, 1632. It was one of the original thirteen States: formed a Constitution August 14, 1776, and ratified the Constitution of the United States April 28, 1788. Area 11,124 square miles, or 7,119,260 acres. Population in 1860, 687,049, of whom 87,189 were slaves. It is mainly an agricultural State, producing grain and to-bacco. A residence of one year in the State, and six months in the country, gives the right to vote to every white male citizen who takes the oath of allegiance prescribed in the Constitution. January 28, 1864, a bill passed the Legislature submitting to the people the question of a Convention to revise the Constitution of the State. The popular vote on the question was as follows: For Convention, 32,203; against, 18,337. The Convention assembled and adopted a Constitution abolishing slavery, which was submitted to and adopted by the people; and in accordance with its provisions, on the 29th of October, 1864, the Governor issued his Proclamation declaring the slaves in that State free from the 1st day of November.

MASSACHUSETTS was settled at Plymouth, November 3, 1620, by English Puritans, and Charters were granted March 4, 1629, January 13, 1630, August 20, 1726, and October 7, 1731. It was one of the original 13 States: adopted a Constitution March 2, 1780, which was amended November 3, 1820, and ratified the Constitution of the United States February 6,1783. Area 7,800 square miles, or 4,902,000 acres. Population in 1860, 1,231,066. It is a largely commercial, the chief manufacturing and most densely populated State in the Union. A residence of one year in the State, and payment of State or county tax, gives the right to vote to male citizens of 21 years and upward, except paupers and persons under guardianship.

MICHIGA.V was settled at Detroit in 1670, by the French, and was part of the territory ceded to the United States by Virginia. It was set off from the territory of Indiana, and erected into a separate Territory January 11, 1805; an act to attach to it all the territory of the United States west of the Mississippi river, and north of the State of Missouri, was passed June 28, 1834. Wisconsin was organized from it April 30, 1836. In June of the same year an act was passed to provide for the admission of the State of Michigan into the Union, and a Constitution having been adopted, it was admitted January 26, 1837. Area 56,243 square mites, or 35,295,552 acres. Population in 1860, 749,113. It is a grain growing and cattle rearing State, with rich and extensive mines of copper and iron in the Northern Peninsula. A residence in the State of six months preceding the election, entitles white male citizens to vote.

MINNESOTA was settled about 1846, chiefly by emigrants from the Northern and Western States. It was organized as a Territory by act of Congress approved March 3, 1849, and admitted into the Union February 26, 1857. Area 95,274 square miles, or 60,975,536 acres. Population in 1860, 172,123 whites, and about 25,000 Indians, many of the tribes being of a warlike character. It is an agricultural State, chiefly devoted to Northern grains. The right to vote is extended to male persons of 21 years of age, of the following classes, if they have resided in the United States one year, the State four months, and the election district ten days: White citizens of the United States, and those of foreign birth who have declared their intention to become citizens; persons of mixed white and Indian blood who have adopted the customs of civilization, and those of pure Indian blood who have been pronounced capable by any district court of the State.

MISSISSIPPI was settled at Natchez, in 1716, by the French, and, was formed out of part of the territory ceded to the United States by South Carolina in 1787, and Georgia in 1802. It was organized as a Territory by act of Congress, April 7, 1789, and enlarged on the north March 27, 1804, and on the south May 14, 1812. After several unsuccessful attempts to enter the Union, Congress finally passed an act March 1, 1817, enabling the people of the western part of the Territory to form a State Constitution and Government, which being complied with August 15, it was admitted December 10 of the same year. Area 47,156 square miles, or 30,179,840 acres. Population in 1860, 791,365, of whom 436,631 were slaves. It is the second cotton growing State of the Union. Citizens who have resided one year in the State, and four months in the county, and having performed military duty or paid taxes, are entitled to vote. A Convention met January 7, 1861, and on the 9th passed an ordinance of secession by a vote of 84 to 15.

MISSOURI was settled at Genevieve in 1763, by the French, and was part of the territory ceded by France by treaty of April 30, 1803. It was created under the name of the District of Louisiana, by an act approved March 26, 1804, and placed under the direction of the officers of the Indiana Territory, and was organized into a separate Territory June 4, 1812, its name being changed to that of Missouri; and was divided March 2, 1819, the Territory of Arkansas being then created. An act authorizing it to form a State Constitution and Government was passed March 6, 1820, and it was admitted into the Union December 14, 1821. Area 67,380 square miles, or 43,123,200 acres. Population in 1860, 1,182,012, of whom 114,931 were slaves. An act of gradual emancipation was passed July 1, 1863, by a vote of 51 to 30. On the 6th of January, 1865, a Constitutional Convention assembled in St. Louis, and on the 8th of April adopted a new Constitution, declaring the State free, prohibiting compensation for slaves, and adopting many other radical changes. On the 6th of June the Constitution was adopted by the people by a vote of 43,670 to 41,808, and pursuant to a Proclamation issued on the 1st of July, the Constitution went into effect July 4, 1865. It is an agricultural and mining State. Citizens of the United States who have resided in the State one year, and county three months, are entitled to yote. By an act passed by the Legislature of 1863, voting by ballot was adopted, and the riva roce system abelished.

WEBRASKA was settled by emigrants from the Northern and Western States, and was formed out of a part of the territory ceded by France, April 30, 1803. Attempts to organize it were made in 1844 and 1848, but it was not accomplished until May 30, 1854. Area 75,955 square miles, or 44,796,160 acres. Population 28,841, besides a few roving tribes of Indians. A Convention adopted a State Constitution February 9, 1866, which was submitted to the people on the 22d of June, and adopted by a vote of 3,938 for, to 3,838 against, and State officers were elected. A bill was passed by Congress, July 27th, admitting the State, but the President withheld his signature. In February, 1867, Congress passed an act imposing certain conditions to admission, which were promptly accepted, and the territory became a State. It is an agricultural region, its prairies affording boundless pasture lands.

NEVADA was organized as a Territory March 2, 1861. Its name signifies snowy, and is derived from the Spanish word nieve (snow.) It comprises 81,539 square miles, or 52,184,960 acres, lying mostly within the Great Basin of the Pacific coast. Congress, at its session in 1864, passed an act which was approved March 21, to enable the people of the Territory to form a Constitution and State Government, in pursuance of which a Government was organized and the Territory admitted as a State by Proclamation of the President, October 31, 1864. At the time of its organization the Territory possessed a population of 6.857 white settlers. The development of her mineral resources was rapid and almost without parallel, and attracted a constant stream of immigration to the Territory. As the population has not been subject to the fluctuations from which other Territories have suffered, the growth of Nevada has been rapid and steady. At the general convention election of 1863, 10,934 votes were cast. During 1864 great accessions to the population were made. It is probably the richest State in the Union in respect to mineral resources. No region in the world is richer in argentiferous leads. It also contains an immense basin of salt, five miles square. Quartz mills are a very important feature in mining operations. The State is barren for agricultural purposes, and is remarkably healthy.

NEW HAMPSHIRE was settled at Dover, in 1623, by English Puritans, and continued under the jurisdiction of Massachusetts until September 18, 1679, when a separate charter was granted. It was one of the original thirteen States, and ratified the United States Constitution June 21, 1788; its State Constitution was framed January 5, 1776, and amended in 1784 and 1792. Area 9,280 square miles, or 5,939,200 acres. Population in 1860, 326,073. It is a grazing and manufacturing State. All male citizens, except paupers, are allowed to vote.

NEW JERSEY was settled at Bergen, in 1624, by the Dutch and Danes; was conquered by the Dutch in 1655, and submitted to the English in 1664, being held thereafter under the same grants as New York, until it was surrendered to the Crown in 1702. It was one of the original thirteen States, adopted a State Constitution July 2, 1776, and ratified the United States Constitution December 18, 1787. Area 8,320 square miles, or 5,324,800 acres. Population in 1860, 672,035. It is a grain and fruit growing region, its orchard and market products being relatively greater than those of any other State. A residence of one year in the State gives the right to vote, except to paupers, &c.

NEW YORK was settled at Manhattan, in 1614, by the Dutch; was ceded to the English by grants to the Duke of York, March 20, April 26, and June 24, 1664; was retaken by the Dutch in 1673, and surrendered again by them to the English, February 9, 1674. It was one of the original thirteen States: ratified the United States Constitution July 26, 1788; framed a Constitution April 20, 1777, which was amended October 27, 1801, and November 10, 1821; a new one was adopted November 3, 1846. Area 47,000 square miles, or 30,080,000 acres. Population in 1865, 3,831,777. It is the most populous, wealthy and commercial of the States. White male citizens of the United States, who have resided in the State one year, in the county four months, and election district thirty days, are entitled to vote; and all men of color who have resided in the State three years, and own and pay taxes on a freehold assessed at \$250.

WORTH CAROLINA was settled at Albemarle, in 1650, by the English, and was chartered March 20, 1663. It was one of the original thirteen States, and ratified the United States Constitution, November 21, 1789; its State Constitution was adopted December 18, 1776, and amended in 1835. Area 50,704 square miles, or 32,450,560 acres. Population in 1860, 992,622, of whom 331.059 were slaves. It is an agricultural State, with some mines and extensive pine forests. Every freeman of 21 years of age, having resided one year in any county in the State, may vote for a member of the House of Commons, but must own fifty acres of land to vote for a Senator. A State Convention passed an ordinance of secession May 21, 1861. An election for delegates to a State Convention took place September 21, 1865. The Convention assembled October 2. On the 2d of October it passed an ordinance forever prohibiting slavery. The Legislature ratified the Constitutional amendment December 1. An election was held on the first Thursday of November, for Governor, Members of Congress and the Legislature.

OHIO was settled at Marietta, in 1788, by emigrants from Virginia and New England; was ceded by Virginia to the United States October 20, 1783; accepted by the latter March 1, 1784, and admitted into the Union April 30, 1802. Area 30.964 square miles, or 25,576,960 acres. Population in 1860, 2,339,511. It is the most populous and wealthy of the agricultural States, devoted principally to wool growing, grain and live stock. A male of 21 years of age, who has resided in the State one year, and has paid or been charged with a State or county tax, is eligible to vote.

OREGO.V, although it had previously been seen by various navigators, was first taken possession of by Capt. Robert Gray, who entered the mouth of its principal river May 7, 1792, naming it after his vessel, the Columbia, of Boston. Exploring expeditions soon followed, and fur companies sent their trappers and traders into the region. In 1811 a trading post was established at the mouth of the Columbia river by the American Fur Company, who named it Astoria. For some time a Provisional Territorial Government existed, but the boundary remained unsettled until the treaty with Great Britain in 1840, when the 49th parallel was adopted. It was formally organized as a Territory August 14, 1848; was divided March 2, 1853, on the 46th parallel, the northern portion being called Washington and the southern Oregon. November 9, 1857, a State Constitution was adopted, under which it was admitted February 14, 1859,

about one-third of it on the east being added to Washington Territory, its northern boundary following the Columbia river until its intersection with latitude 46° north. Area 103,606 square miles, or 65,667,840 acres. Population in 1860, 52,465. It is an agricultural State, possessed of a fertile soil, extensive pastures, genial climate, and is well wooded. Gold and other precious metals are found in considerable abundance.

PENNSYLVANIA was settled at Philadelphia, in 1681, by English Quakers, and was chartered February 28 of the same year. It was one of the original thirteen States, ratifying the United States Constitution December 12, 1787; adopted a State Constitution September 28, 1776, and amended it September 2, 1790. Area 46,000 square miles, or 29,440,000 acres. Population in 1860, 2,906,115. It is the second State in wealth and population, and the principal coal and iron mining region in the Union. Residence in the State one year, and ten days in the election district, with payment of a State or county tax assessed ten days prior to an election, gives the right to vote; except that citizens between 21 and 22 years of age need not have paid the tax.

RHODE ISLAND was settled at Providence in 1636, by the English from Massachusetts, under Roger Williams. It was under the jurisdiction of Massachusetts until July 8, 1662, when a separate charter was granted, which continued in force until the formation of a Constitution in September, 1842. It was one of the original thirteen States, ratifying the United States Constitution May 29, 1790. Area 1,306 square miles, or 835,840 acres. Population in 1860, 174,620. It is largely engaged in manufactures. A freehold possession of \$13; or, if in reversion, renting for \$7, together with a residence of one year in the State and six months in the town; or, if no freehold, then a residence of two years in the State and six months in the town, and payment of \$1 tax or military service instead, are the qualifications of voters.

SOUTH CAROLINA was settled at Port Royal, in 1670, by the English, and continued under the charter of Carolina, or North Carolina, until they were separated in 1729. It was one of the original thirteen States, ratifying the United States Constitution May 23, 1798; it framed a State Constitution March 26, 1776, which was amended March 19, 1778, and June 3, 1790. Area 29,385 square miles, or 18,806,400 acres. Population in 1860, 703,708, of whom 402,406 were slaves, an excess of 101,270 over the whites. It is the principal rice-growing State. Whites, who have resided in the State two years and district six months, and have a freehold of fifty acres of land, or have paid a State tax, are entitled to vote. December 17, 1860, a Convention assembled in Columbia, adjourned to Charleston, and on the 24th unanimously adopted an ordinance of secession, which was followed the next day by a Declaration of Causes claimed to be sufficient to justify the act. An election for delegates to a State Convention was held September 4, 1865. The Convention assembled September 13, and adjourned on the 28th. It repealed the ordinance of secession, abolished slavery, equalized the representation of the Senate and taxation throughout the State, giving the election of Governor and Presidential electors to the people, ordered voting in the Legislature by viva voce, endorsed the Administration unanimously, and directed a commission to submit a code to the Legislature for the protection of the colored population. The Legislature ratified the Constitutional Amendment November 13, 1865.

TENNESSEE was settled at Fort Donelson, in 1756, by emigrants from Virginia and North Carolina; was ceded to the United States by North Carolina, December, 1789, conveyed by the Senators of that State February 25, 1790, and accepted by act of Congress April 2 of the same year; it adopted a Constitution Feb. 6, 1796, and was admitted into the Union the 1st of June following. Area 45,600 square miles, or 29,184,000 acres. Population in 1860, 1,109,601, of whom 275,179 were slaves. It is a mining and agricultural State, and is largely productive of live stock. Citizens of the United States who have resided six months in the county are entitled to vote. A military league was formed between the Governor, Isham G. Harris, and the rebel States, May 7, 1861, ratified the same day by the Senate by a vote of 14 to 6, and a Declaration of Independence submitted to the people, the election to be held June 8, the result of which was declared by the Governor, June 24, to be 104,913 for, and 47,238 against. This movement not being acceptable to the people of East Tennessee, which had declared against separation by a vote of 32,923 to 14,780, they, in a Convention held at Greenville, June 18-21, repudiated it. Audrew Johnson, Provisional Governor of the State, called a State Convention to be held in Nashville the second Monday in January. Delegates were elected, the Convention met, declared slavery forever abolished, prohibited compensation to owners of slaves, and abrogated the secession ordinances. These amendments of the Constitution were submitted to the people 22d of February, 1865, with the following result: For ratification, 22,197; rejection, 63. The United States Constitutional Amendment was ratified April 5, 1865.

TEXAS was first settled at Bexar, in 1694, by Spaniards; formed a part of Mexico until 1836, when she revolted from that Republic and instituted a separate Government, under which she existed until admitted into the Union by a joint resolution approved March 1st, 1845, imposing certain conditions, which were accepted, and a Constitution formed July 4 of the same year, and another joint resolution adopted by Congress, consummating the annexation, was approved December 29, 1845. Area 237,504 square miles, or 152,002,500 acres. Population in 1860, 604,215, of whom 182,566 were slaves. It is an agricultural region, principally devoted to grain, cotton and tropical fruits. Free white male citizens of 21 years of age, who have resided in the State one year and district six months are entitled to vote. A Convention assembled at Galveston January 28, 1861, and on February 1 passed an ordinance of secession, by a vote of 166 to 7, to be submitted to the people February 23, and on March 4 they declared the State out of the Union, and Gov. Houston issued a Proclamation to that effect.

VERMONT was settled in 1724, by Englishmen from Connecticut, chiefly under grants from New Hampshire; was formed from a part of the territory of New York, by act of its Legislature March 6, 1769; framed a Constitution December 25, 1777, and was admitted into the Union March 4, 1791, by virtue of an act of Congress passed February 18 of the same year. Area 10,212 square miles, or 6,535,680 acres. Population in 1860, 315,098. It is a grazing region, producing more wool, live stock, maple sugar, butter, cheese and hay, in proportion to its population, than any other State. Any citizen of the United States who has resided in the State one year, and will take the oath of allegiance, is entitled to vote.

\*\*TRGIVIA\*\* was settled at Jamestown, in 1607, by the English, and was chartered April 10, 1606, May 23, 1609, and March 12, 1612. It was one of the original thirteen States, ratifying the United States Constitution June 25, 1788; it framed a State Constitution July 5, 1776, which was

amended January 15, 1830. The State was divided in 1863. Present area 37,352 square miles. Population in 1860, 1,314,532, of whom 481,-410 were slaves. It is a large corn producing, and the chief tobacco growing State. Every white male citizen of the age of 21 years, who has been a resident of the State for one year, and of the county, city or town where he offers to vote for six months next preceding an election, and has paid all taxes assessed to him, after the adoption of the Constitution, under the laws of the Commonwealth after the re-organization of the county, city or town where he offers to vote, is qualified to vote for members of the General Assembly and all officers elective by the people. A Convention sitting in Richmond on the 17th of April, 1861, passed an ordinance of secession, by a vote of 88 to 55, which was submitted to the people at an election held May 23, the result of which was announced June 25 to be 128,824 for, and 32,134 against. The State Government was re-organized by a Convention which met at Wheeling, May 11, 1861. Upon the division of the State in 1863, the seat of Government was removed to Alexandria. A State Constitutional Convention, March 10, 1864, adopted a section abolishing slavery.

WEST YIRGINIA.—On the passage of the ordinance of secession by the Virginia Convention, a Convention of the western and other loyal counties of the State was held at Wheeling, which assembled May 11, 1861, and on the 17th unanimously deposed the then State officers and organized a Provisional Government. On the 26th of November, 1861, a Convention representing the western counties assembled in Wheeling and framed a Constitution for West Virginia, which was submitted to the people on the 3d of May, 1862, and adopted by them by a nearly unanimous vote. The division of the State was sanctioned by the Legislature May 13, 1862, and ratified by Congress by an act approved December 31, 1862, conditioned on the adoption of an amendment to the Constitution providing for the gradual abolition of slavery, which was done on the 24th of March, 1863, by a vote of the qualified electors of the proposed State, 28,318 voting in favor of the amendment, and 572 against it. In pursuance of the act of Congress, the President issued a Proclamation, April 20, 1863, admitting the State sixty days from the date thereof, and on the 20th of June the new State Government was formally inaugurated. Area 24,000 square miles. Population in 1860, 350,599, of whom 12,754 were slaves. It is a large corn producing State, and abounds in coal and other minerals. The Alexandria Legislature adopted the United States Constitutional Amendment February 9, 1865. White male citizens, residents of the State one year and county thirty days, unless disqualified by rebellion, are entitled to vote.

WISCONSIN was settled at Green Bay, in 1669, by the French; was a part of the territory ceded by Virginia, and was set off from Michigan December 24, 1834, and was organized into a Territory April 30, 1836. Iowa was set off from it June 12, 1838, and acts were passed at various times setting its boundaries. March 3, 1847, an act for its admission into the Union was passed, to take effect on the issuing of a Proclamation by the President, and by act of May 29, 1848, it was admitted into the Union. Area 53,924 square miles, or 34,511,360 agres. Population in 1860, 755,881. It is an agricultural State, chiefly engaged in grain raising and wool growing. Both white and colored citizens of the United States, or white foreigners who have declared their intention to become citizens, are entitled to vote. Colored citizens were admitted to the franchise, by a decision of the Supreme Court, rendered the 27th day of March, 1866, holding thart, whereas an election was held in 1849, under the provisions of chapter 137, of that year, at which election 5,265 votes were cast in

favor of the extension of the right of suffrage to colored men, and 4,075 against such extension, therefore, the section of said law conferring such right had been constitutionally adopted and is the law of the land.

#### THE TERRITORIES,

THEIR BOUNDARIES, AREA, PHYSICAL FEATURES, ETC.

ALASKA, our new territory, recently purchased of Russia, comprehends all the north-west coast on the Pacific, and the adjacentislands north of the parallel of 50 degrees 40 minutes north, and the portion of the mainland west of the meridian (about 140° west) of Mount St. Elias. The area is computed at 481,276 square miles. The climate, although warmer than in the same latitude on the eastern coast, is too rigorous to admit of successful agricultural operations, and the chief value of the country and adjacent seas is derived from their fisheries and hunting grounds. The southern and central portions are mountainous; the northern portion along the Arctic ocean is quite flat, nowhere rising more than fifteen or twenty feet above the sea. The population is estimated at about 80,000, mostly Esquimeaux.

ARIZONA was organized by the Thirty-Seventh Congress, in the winter of 1863, out of the western half of New Mexico, the boundary between the two Territories being the 109th meridian (32d west from Washington,) and includes the greater portions of the valleys of Colorado and Gila, which two rivers drain its entire surface, with parts of Utah, New Mexico and Nevada, and yet convey, it is reported, a less volume of water to the sea than the Hudson at Albany. The fertile Messilla Valley was left with New Mexico. The Territory forms a block nearly square, and contains 126,141 square miles, or 80,730,240 acres. Its white population is probably considerably less than 10,000. For agricultural purposes it is probably the most worthless on the Continent, owing to the absence of rains, but it is reputed to abound in silver mines.

COLORADO was organized March 2, 1861, from parts of Kansas, Nebraska and Utah, and is situated on each side of the Rocky Mountains, between latitude 37° and 41°, and longitude 25° and 32° west from Washington. Area 104,500 square miles, or 66,850,000 acres. Population 50,000, besides numerous tribes of Indians. By an enabling act passed March 21, 1864, the people of the Territory were authorized to frame a State Constitution and organize a State Government, and a Convention accordingly met in 1865, and on the 12th of August adopted a Constitution, which was submitted to and adopted by the people September 5, and State officers elected November 14. A bill to admit the Territory as a State passed Congress, but was vetoed May 25, 1866. It is said to be a superior grazing and cattle producing region, with a healthy climate and rich soil. An extensive coal bed, and also gold, iron and other minerals abound.

DAKOTA was first settled by emyloyees of the Hudson Bay Company, but is now being peopled by emigrants from the Northern and Western States. It was set off from the western portion of Minnesota when that Territory became a State in 1857, and was organized March 2, 1861. Area 148,932 square miles, or 95,316,480 acres. Population 2.576 whites,

and 2,261 Indians, besides the roving tribes.

IDAHO was organized by the Thirty-Seventh Congress, at its second session, in the winter of 1863. Its name means 'Bead of the Mountains,' and it embraces the whole breadth of the Rocky Mountain region, and has within its bounds the head waters of nearly all the great rivers that flow down its either slope, but the greater portion lies east of the mountains. Its southern boundary is the 41st, its northern the 46th parallel of latitude. It extends from the 104th meridian on the east to the 110th on the west. Area 326,373 square miles, or 203,870,720 acres. For agricultural purposes it is comparatively worthless, but abounds in gold and other valuable mines.

MONTANA was settled by emigrants from the Northern and Western States. Organized in 1864, with the following boundaries: Commencing at a point formed by the intersection of the 27° L. W. from Washington with the 45° N. L.; thence due west on said 45th degree to a point formed by its intersection with the 34th degree W. from Washington; thence due south along said 34th degree of longitude to its intersection with the 44th degree and 30 minutes of N. L.; thence due west along said 44th degree and 30 minutes of N. L. to a point formed by its intersection with the crest of the Rocky Mountains; thence following the crest of the Rocky Mountains northward till its intersection with the Bitter Root Mountains; thence northward along the crest of said Bitter Root Mountains to its intersection with the 39th degree of longitude W. from Washington; thence along said 39th degree of longitude northward to the boundary line of the British possessions; thence eastward along said boundary to the 27th degree of longitude W. from Washington; thence southward along said 27th degree to the place of beginning. This makes it the northermost Territory next the States east of the Missouri Valley. It

taken. \*\*\textit{NEWICO}\* was formed from a part of the territory ceded to the United States by Mexico, by the treaty of Guadaloupe Hidalgo, February 2, 1848, and was organized into a Territory September 9, 1850.— Area 121,201 square miles, or 77,568,640 acres. Population 83,000, besides large tribes of warlike Indians. The principal resource of the country is its minerals.

is a good mining and agricultural region. The total population is put down at 15,822. Large accessions have been made since the census was

UPAM was settled by the Mormons, and was formed from a part of the territory ceded to the United States by Mexico, by the treaty of Guadaloupe Hidalgo, February 2, 1848, and was organized into a Territory, September 9, 1859. Area, 106,382 square miles, or 68,084,480 acres. Populaton, 40,273, of whom 29 were slaves. Brine, sulphureous and chalybeate springs abound; limestone, granite, sandstone and marble are found in large quantities; iron is abundant, and gold, silver, copper, lead and zinc have been found. Not one-fiftieth part of the soil is fit for tillage, but on that which is, abundant crops of grain and considerable cotton are raised. A Convention was held at Great Salt Lake City, January 22, 1862, and a State Constitution formed, but it has not been acted on by Congress.

WASHLVG TO. V was settled by emigrants from the Northern and Western States, and was organized into a Territory, March 2, 1853, from the northern portion of Oregon, to which was added another portion from the

eastern part when the latter Territory was admitted as a State, February 14, 1859. Area 69,994 square miles, or 48,636,899 acres. Population 11,168, besides numerous tribes of Indians.

WYOMING was organized in July 1868. It lies between the 27th and 34th meridians of longitude west from Washington, and between the 41st and 45th parallels of latitude. The Territory is rich in mineral wealth, having large quantities of iron, coal, gypsum and building stone, besides vast quantities of gold, silver and copper. Salt springs of great value are found within its limits. The western portion of the Territory embraces what is generally known as the "Sweet Water Mines." The climate is healthy, and the Territory is rapidly filling up with an enterprising and hardy population. The act of Congress organizing the Territory, provides that "There shall be no denial of the elective franchise or any other right, on account of color or race, and all persons shall be equal before the law."

## STAMP DUTIES.

SCHEDULE OF DUTIES ON AND AFTER MARCH 1, 1867.

1822038 35

| Duty | Stamp   | np Duty. | Stamp Duty.  |  |  |
|------|---|----------|--|--|--|
|      | rine surveyor, or other person  |          | exceed \$100 or the equivalent   |  |  |

States Government of claims
by soldiers, or their legal representatives, for pensions,
back pay, bounty, or for property lost in the service, exempt.

### CANCELLATION.

In all cases where an adhesire stamp is used for denoting the stamp duty upon an instrument, the person using or affixing the same must write or imprint thereupon is nink the initials of his name, and the date (the year, month, and day) on which the same is attached or used. Each stamp should be separately cancelled. When stamps are printed upon checks, &c., so that in filling up the instrument, the face of the stamp is and must necessarily be written across, no other cancellation will be required.

All cancellation must be distinct and lerible, and except in the case of proprietary stamps from private dies, no method of cancellation which differs from that above described can be recognized as legal and sufficient.

### PENALTIES.

A penalty of fifty dollars is imposed upon every person who makes, signs, or issues, or who causes to be made, signed, or issued, any paper of any kind or description whatever, or who accepts, negotiates, or pays, or causes to be accepted, negotiated, or paid, any bill of exchange, draft, or order, or promissory note, for the payment of money, without the same being duly state, ed, or having thereupon an adhesive stamp for denoting the tax chargeable thereon, cancelled in the manner required by law, with intent to evade the provisions of the revenue act.

A penalty of two hundred dollars is imposed upon every person who pays, negotiates, or offers in payment, or receives of takes in payment, any bill of exchange or order for the payment of any sum of money drawn or purporting to be drawn in a foreign country, but payable in the United States, until the proper stamp has been af-

fixed thereto.

A penalty of fifty dollars is imposed upon every person who fraudulently makes use of an adhesive stamp to denote the dutyrequired by the revenue act, without effectually cancelling and obliterating the same in the manner required by law.

Attention is particularly called to the following extract from section 155, of the act of June 30, 1864, as amended by the act of

July 13, 1866:

"If any person shall wilfully remove or cause to be removed, alter or cause to be altered, the cancelling or defacing marks on any adhesive stamp, with intent to use the same, or to cause the use of the same, after it shall have been used once, or shall knowingly or wilfully sell or buy such washed or restored stamps, or offer the same for alle, or give or expose the same to any person.

son for use, or knowingly use the same or | it admissible in evidence, or to entitle it to prepare the same with intent for the further use thereof, or if any person shall knowingly and without lawful excuse (the proof whereof shall lie on the person accused) have in his possession any washed, restored, or altered stamps, which have been removed from any vellum, parchment, paper, instrument or writing; then, and in every such case, every person so offending, and every person knowingly and wilfully aiding, abetting, or assisting in committing any such offence as aforesaid, shall, on con-\* \* \* be punished by viction thereof, a fine not exceeding one thousand dollars, or by imprisonment and confinement to hard labor not exceeding five years, or both, at the discretion of the court.

It is not lawful to record any instrument, document, or paper required by law to be stamped, or any copy thereof, unless a stamp or stamps of the proper amount have been affixed and cancelled in the manner required by law; and such instrument or copy and the record thereof are utterly null and void, and cannot be used or admitted as evidence in any court until the defect has been cured as provided in section 158.

All willful violations of the law should be reported to the United States District Attorney within and for the district where they are committed.

#### GENERAL REMARKS.

Revenue stamps may be used indiscriminately upon any of the matters or things enumerated in Schedule B, except proprietary and playing card stamps, for which a special use has been provided.

Postage stamps cannot be used in payment of the duty chargeable on instru-

ments.

The law does not designate which of the parties to an instrument shall furnish the necessary stamp, nor does the Commissioner of Internal Revenue assume to determine that it shall be supplied by one party rather than by another; but if an instrument subject to stamp duty is issued without having the necessary stamps affixed thereto, it cannot be recorded, or admitted, or used in evidence, in any court, until a legal stamp or stamps, denoting the amount of tax, shall have been affixed as prescribed by law, and the person who thus issues it is liable to a penalty, if he omits the stamps with an intent to evade the provisions of the internal revenue act.

The first act imposing a stamp tax upon certain specified instruments took effect, so far as said tax is concerned, October 1, 1862. The impression which seems to prevail to some extent, that no stamps are required upon any instruments issued in the States lately in insurrection, prior to the surrender, or prior to the establishment of collection districts there, is erroneous,

Instruments issued in those States since October 1, 1862, are subject to the same taxes as similar ones issued at the same time in the other States.

record

Certificates of loan in which there shall appear any written or printed evidence of an amount of money to be paid on demand. or at a time designated, are subject to stamp duty as "promissory notes."

When two or more persons join in the execution of an instrument, the stamp to which the instrument is liable under the law, may be affixed and cancelled by either of them ; and "when more than one signature is affixed to the same paper, one or more stamps may be affixed thereto, representing the whole amount of the stamp required for such signatures."

No stamp is required on any warrant of attorney accompanying a bond or note, when such bond or note has affixed thereto the stamp or stamps denoting the duty required; and, whenever any bond or note is secured by mortgage, but one stamp duty is required on such papers-such stamp duty being the highest rate required for such instruments, or either of them. In such case a note or memorandum of the value or lenomination of the stamp affixed should be made upon the margin or in the acknowledgement of the instrument which is not stamped.

Particular attention is called to the change in section 154, by striking out the words "or used;" the exemption thereunder is thus restricted to documents, &c., issued by the officers therein named. Also to the changes in sections 152 and 158, by issued by the officers therein named. inserting the words "and cancelled in the manner required by law."

The acceptor or acceptors of any bill of exchange, or order for the payment of any sum of money, drawn or purporting to be drawn in any foreign country, but payable in the United States, must, before paying or accepting the same, place thereupon a

stamp indicating the duty.

It is only upon conveyances of realty sold that conveyance stamps are necessary. deed of real estate made without valuable consideration need not be stamped as a conveyance; but if it contains covenants, such, for instance, as a covenant to warrant and defend the title, it should be stamped as an agreement or contract.

When a deed purporting to be a conveyance of realty sold, and stamped accordingly, is inoperative, a deed of confirmation, made simply to care the defect, requires no stamp. In such case, the second deed should contain a recital of the facts, and should show the reasons for its execution.

Partition deeds between tenants in common, need not be stamped as conveyances, inasmuch as there is no sale of realty, but merely a marking out, or a defining, of the boundaries of the part belonging to each; but where money or other valuable consideration is paid by one co-tenant to another for equality of partition, there is a sale to the extent of such consideration, and the conveyance, by the party receiving it. should be stamped accordingly.

A conveyance of lands sold for unpaid No stamp is necessary upon an instrument taxes, issued since August 1, 1866, by the executed prior to October 1, 1862, to make officers of any county, town, or other mu-

niciral corporation in the discharge of their should not be reckened as premium in destrictly official duties, is exempt from

stamp tax.

A conveyance of realty sold, subject to a mortgage, should be stamped according to the consideration, or the value of the properry uneway intered. The consideration in such case is to be found by adding the amount paid for the equity of redemption. The fact that one to the mortgage debt. The fact that one part of the consideration is paid to the mortgagor and the other part to the mortgaree does not change the liability of the

converance.

The stamp tax upon a mortgage is based upon the amount it is given to secure. The fact that the value of the property mortgaged is less than that amount, and that consequently the security is only partial, does not change the liability of the instrument. When, therefore, a second mortgage is given to secure the payment of a sum of money partially secured by a prior mortgage upon other property, or when two mortgages upon separate property are given at the same time to secure the payment of the same sum, each should be stamped as though it were the only one.

A mortgage given to secure a surety from less, or given for any purpose whatever, other than as security for the payment of a definite and certain sum of money, is taxaable only as an agreement or contract.

The stamp duty upon a lease, agreement, memorandum, or contract for the hire, use, or rent of any land, tenement, or portion thereof, is based upon the annual rent or rental value of the property leased, and the duty is the same whether the lease be for one year, for a term of years, or for the

fractional part of a year only.

Upon every assignment or transfer of a mortgage, a stamp tax is required equal to that imposed upon a mortgage for the amount remaining unpaid; this tax is required upon every such transfer in writing, whether there is a sale of the mortgage or not; but no stamp is necessary upon the endorsement of a negotiable instrument, even though the legal effect of such indorsement is to transfer a mortgage by which

the instrument is secured.

An assignment of a lease within the meaning and intent of Schedule B, is an assignment of the leasehold, or of some portion thereof, by the lessee, or by some person claiming by, from, or under him; such an assignment as subrogates the assignee to the rights, or some portion of the rights, of the lessee, or of the person standing in his place. A transfer by the lessor of his part of a lease, neither giving nor purporting to give a claim to the leasehold, or to any part thereof, but simply a right to the rents, &c., is subject to stamp tax as a contract or agreement only.

The stamp tax upon a fire insurance policy is based upon the premium.

Deposit notes taken by a mutual fire insurance company, Lot as payment of premium nor as evidence of indebtedness therefor, but to be used simply as a basis upon which to make rateable assessments to meet the losses incurred by the company,

termining the amount of stamp taxes apon

the policies.

When a policy of insurance properly stamped has been issued and lost, no stamp is necessary upon another issued by the same company to the same party, covering the same property, time, acc., and designed simply to supply the loss. The second policy should recite the loss of the first.

An instrument which operates as the renewal of a policy of insurance, is subject to

the same stamp tax as the policy.

When a policy of insurance is issued for a certain time, whether it be for one year only or for a term of years, a receipt for premium, or any other instrument which has the legal effect to continue the contract and extendits operation be good that time, requires the same amount of revenue stamps as the policy itself; but such a receipt as is usually given for the payment of the monthly, quarterly, or annual premium, is not a renewal within the meaning of the statute. The payment simply prevents the policy from expiring, by reason of non-performance of its conditions : a receipt given for such a payment requires a two-cent stamp, if the amount received exceeds twenty dollars, and a two-cent stamp only. When, however, the time of payment has passed, and a tender of the premium is not sufficient to bind the company, but a new policy or a new contract in some form, with the mutuality essential to every contract. becomes necessary between the insurer and the insured, the same amount of stamps should be used as that required upon the original policy.

A permit issued by a life insurance company changing the terms of a policy as to travel, residence, occupation, &c., should be stamped as a contract or agreement.

A bill single or a bill obligatory, i. e., an instrument in the form of a promissory note, under seal, is subject to stamp duty as written or printed evidence of an amount of money to be paid on demand or at a time designated, at the rate of five cents for each one hundred dollars or fractional part thereof.

A waiver of protest, or of demand and notice, written upon negotiable paper and signed by the indorser, is an agreement,

and requires a five-cent stamp.

A stamp duty of twenty-five cents is imposed upon the "protest of every note, bill of exchange, check or draft," and upon every marine protest. If several notes, bills of exchange, drafts, &c., are protested at the same time and all attached to one and the same certificate, stamps should be affixed to the amount of twenty-five cents for each note, bill, draft, &c., thus protest-

ed. When, as is generally the case, the caption to a deposition contains other certificates in addition to the jurat to the adidavit of the deponent, such as a certificate that the parties were or were not notified. that they did or did not appear, that they did or did not object, &c., it is subject to a stamp duty of five cents.

When an attested copy of a writ or other

process is used by a sheriff or other person in making personal service, or in attaching property, a five-cent stamp should be affix-

ed to the certificate of attestation.

A marriage certificate issued by the officiating clergyman or magistrate, to be returned to any officer of a State, county, city, town, or other municipal corporation, to constitute part of a public record, requires no stamp; but if it is to be retained by the parties, a five-cent stamp should be affixed.

The stamp tax upon a bill of sale, by which any ship or vessel, or any part thereof, is conveyed to or vested in any other person or persons, is at the same rate as that imposed upon conveyances of realty sold; a bill of sale of any other personal property should be stamped as a contract

or agreement.

An assignment of real or personal property, or of both, for the benefit of creditors, should be stamped as an agreement or con-

tract.

Written or printed assignments of agreements, bonds, notes not negotiable, and of all other instruments the assignments of which are not particularly specified in the foregoing schedule, should be stamped as agreements.

No stamp is necessary upon the registry of a judgment, even though the registry is such in its legal effect as to create a lien which operates as a mortgage upon the

property of the judgment debtor.

When a "power of attorney or proxy for voting at any election for officers of any incorporated company or society, except religious, charitable, or literary societies, or public cemeteries," is signed by several stockholders, owning separate and distinct shares, it is, in its legal effect, the separate instrument of each, and requires stamps to the amount of ten cents for each and every signature; one or more stamps may be used representing the whole amount | an original. required.

A notice from landlord to tenant to quit possession of premises requires no

stamp.

A stamp tax is imposed upon every "manifest for custom-house entry or clearance of the cargo of any ship, vessel, or steamer for a foreign port." The amount of this tax in each case depends upon the registered tonnage of the vessel.

If a vessel clears in ballast and has no cargo whatever, no stamp is necessary; but if she has any, however small the amount

-a stamp should be used.

A bond to convey real estate requires stamps to the amount of twenty-five cents.

The stamp duty upon the probate of a will, or upon letters of administration, is based upon the sworn or declared value of all the estate and effects, real, personal, and mixed, undiminished by the debts of the estate for or in respect of which such probate or letters are applied for.

When the property belonging to the estate of a person deceased, lies under different jurisdictions and it becomes necessary to take out letters in two or more places, the letters should be stamped according to the value of all the property, real, personal, and mixed, for or in respect of which the particular letters in each case

are issued.

Letters de bonis non should be stamped according to the amount of property remaining to be administered upon thereunder, regardless of the stamps upon the orig-

inal letters.

A mere copy of an instrument is not subject to stamp duty unless it is a certified one, in which case a five-cent stamp should be affixed to the certificate of the person attesting it; but when an instrument is executed and issued in duplicate, triplicate, &c., as in the case of a lease of two or more parts, each part has the same legal effect as the other, and each should be stamped as

## POSTAL RATES AND REGULATIONS.

LETTERS.—The law requires postage on all letters (including those to foreign countries when prepaid, excepting those written to the President or Vice President, or members of Congress, or (on official business) to the chiefs of the executive departments of the Government, and the heads of bureaux and chief clerks, and others invested with the franking privilege, to be prepaid by stamps or stamped envelopes, prepayment in money being prohibited.

All drop-letters must be prepaid. The

All drop-letters must be prepaid. The rate of postage on drop-letters, at offices where free delivery by carrier is established, is two cents per half ounce or fraction of a half ounce; at offices where such free delivery is nor established the rate is one

cent.

The single rate of postage on all domestic mail letters throughout the United States, is three cents per half ounce, with an additional rate of three cents for each additional half cunce or fraction of a half ounce. The ten cent (Pacific) rate is abolished.

Newspapers, etc.—Letter postage is to be charged on all handbills, circulars, or other printed matter which shall contain any manuscript writing whatever.

Daguerreotypes, when sent in the mail, are to be charged with letter postage by

weight.

Photographs on cards, paper, and other flexible material, (not in cases), can be sent at the same rate as miscellaneous printed matter, viz., two cents for each four ounces or fraction thereof.

Photograph Albums are chargeable with book postage—four cents for each four ounces or fraction thereof.

NEWSPAPER POSTAGE.—Postage on daily papers to subscribers when prepaid quarterly or yearly in advance, either at the mailing office or office of delivery, per quarter (three mouths), 35 cts.; six times per week, per quarter 30 cts.; for tri-weekly, per quarter 15 cts.; for semi-weekly, per quarter 10 cts.; for weekly, per quarter 5 cents.

Weekly newspapers (one copy only) sent by the publisher to actual subscribers within the county where printed and published, FREE. Postage per quarter (to be paid quarterly or yearly in advance) on newspapers and periodicals issued less frequently than once a week, sent to actual subscribers in any part of the United States: Semi-monthly, not over 4 oz., 6 cts; over 4 oz. and not over 20 oz., 12 cts.; over 8 oz. and not over 12 oz., 18 cts.; monthly, not over 4 oz. and not over 4 oz. and not over 4 oz. and not over 9 oz., 6 cts.; over 8 oz. and not over 12 oz., 9 cts.; quarterly, not over 4 oz. 1 cent; over 4 oz. and not over 12 oz., 2 cts.; over 8 oz. and not over 12 oz., 3 cts.

TRANSIENT MATTER.—Books not over 4 oz. in weight, to one address, 4 cts.; over 4 oz. and not over 8 oz., 8 cts.; over 8 oz. and not over 12 oz., 12 cts.; over 12 oz. and not

over 16 oz., 16 cts.

Circulars not exceeding three in number to one address, 2 cts.; over 3 and not over 6, 4 cts.; over 6 and not over 9, 6 cts.; over

9 and not exceeding 12, 8 cts.

On miscellaneous mailable matter, (embracing all pamphlets, occasional publications, transient newspapers, hand-bills and posters, book manuscripts and proof-sheets, whether corrected or not, maps, prints, engravings, sheet music, blanks, flexible patterns, samples, and sample cards, phonographic paper, letter envelopes, postal envelopes or wrappers, cards, paper, plain or ornamental, photographic representations of different types, seeds, cuttings, bulbs, roots and scions,) the postage to be pre-paid by stamps, is on one package, to one address, not over 4 oz. in weight, 2 cts.; over 4 oz. and not over 8 oz., 4 cts.; over 8 oz. and not over 16 oz., 8 cts. The weight of packages of seeds, cuttings, roots and scions, to be franked, is limited to thirty-two ounces.

[All printed matter (except single copies of newspapers, magazines, and periodicals to regular subscribers) sent via overland mail, is to be charged at LETTER POST-

AGE rates.]

Any word or communication, whether by printing, writing, marks or signs, upon the cover or wrapper of a newspaper, pamphlet, magazine, or other printed matter, other than the name or address of the person to when it is to be sent, and the date when the subscription expires, subjects the package to letter postage.

The recent postal treaty with Great Britain provides that besides letters and newspapers, "book packets," and "packets of patterns and samples," may be sent. Such packets

- 1. Must contain no writing.
- 2. Must be fully prepaid (6 cents per 4 ounces from the U.S., or 3 pence sterling from Great Britain.)
  - 3. Must be open at the ends to allow inspection.

Samples of merchandise must not be of intrinsic value.

Datiable articles—books, music, &c., sent from Great Britain to the United States, music, in addition to the postage, pay the regular duties, which are—On books and engravings, 25 per cent.; music and photographs, 20 per cent.

If letters or articles sent to Italy are not prepaid, or are insufficiently paid, they will be charged with deficient postage, and subject to fine, on arrival at their destination.

# Infallible Rules for Detecting Counterfeit or Spurious Bank Notes.

letters in title of Bank called LATHEWORK, which in genuine notes presents an even, straight, light and silky appearance, generally so fine and smooth as to appear to be all in one solid, pale body. In the counterfeit the lines are coarse and irregular, and in many of the longer lines breaks will be perceived, thus presenting a very inferior finish in comparison to genuine work.

2d .- Observe the dies, circles and ovals in the genuine; they are composed of a network of lines, which, by crossing each other at certain angles, produce an endless variety of figures; SEE THE ONE CENT STAMP The fine line alone is the ATTACHED. unit which enables you to detect spurious work. In the counterfeit, the REPRESENTED white lines are coarse, irregular, and cross each other in a confused, irregular manner, thus producing blurred and imperfect

3d.-Examine the form and features of all human figures on the note. In the gennine, the texture of the skin is represented by fine dots and lines intermixed. In the eyes, the pupil is distinctly visible, and the white clearly seen; the nose, mouth and chin, well formed, natural and expressive; the lips are slightly pouting, and the chin well thrown out; and the delicate shading of the neck perfectly harmonizes with the rest of the figure. Observe the fingers and toes; they should be clearly and accurately defined. The hair of the head should show the fine strands and present a natural appearance. The folds of the drapery of human figures should lay natural and present a fine, finished appearance. In the counterfeit the female figure does not bear the natural prominence in outlines; observe, the eyes and shading surrounding does not present the lifelike appearance it should. The fingers and toes are not properly and proportionately defined; the hair does not bear that soft and finished appearance as in the genuine.

RULE 1st.-Examine the shading of the | fine letters. Counterfeits never bear the imprint perfect. This rule should be strictly observed, as it is infallible in detecting

counterfeits.

5th.-In the genuine note the landscapes are well finished; trees and shrubs are neatly drawn; the limbs well proportioned, and the foliage presenting a fine natural appearance; clear sky is formed of fine parallel lines, and when clouds or heavy skies appear, they cross each other, and bear a soft, smooth and natural appearance. The perspective, showing a view of the surrounding country, is always clear and distinct. The small figures in the background are atways plainly seen, and their outlines and general character recognized. Ships are well defined and the canvass has a clear texture; railroad cars are very accurately delineated; in examining a train observe carefully the car most distant. In the counterfeit the landscape is usually poorly executed; the leaves of trees poorly and unnaturally defined.— The lines representing still water are scratchy rather than parallel, the sky is represented generally in like manner, and where rolling clouds are to be seen, the unnatural effect is obvious.

animals are generally poorly executed, particularly the head and limbs; the eyes

are seldom clearly defined. Ships are unnatural effect is obvious. Domestic poorly drawn, the texture of the canvass coarse and inferior in style of workmanship, thus giving an artificial appearance. Railroad cars are also poorly executed; the car farthest from the eye is usually the most imperfect. The perspective is always imperfect, the figures in the background can seldom be recognized.

6th.-Bills altered from a smaller to a higher denomination, can readily be detected by a close observer, in consequence of the striking difference between the parts which have been extracted and the rest of the note. This difference is readily perre genuine.

4th.—Examine the imprint or engraver's of the dye; we have seen bills where the names in the evenness and shape of the surrounding shading in altered dies was

too dark, but from the back or finish of the ! tected by observing first the state, second. white lines you have a sure test. Again the title or name of the bank, third the observe particularly the words "Five" or town or location. "Ten Dollars" as the case may be, denotparallel outlines and shading (if any) are coarse and imperfect. Alterations are frequently made by pasting a greater denomination of the coarse and imperfect. nation over a smaller, but by holding the bill up to the light, the fraud will be per-ceived. Another method resorted to is to cut out the figures in the dies as well as the words one dollar, or the words two or three as the case may be, and with a sharp; eraser, scrape down the ends and also the ! edges of the pieces to be inserted; when the pieces thus prepared are affixed they are hardly perceivable; but by passing the note through the hand, so as to feel the die both with the finger and thumb at the same time, the fraud will be destate and town; they may readily be de- ence between genuine and spurious work,

GENERAL REMARKS IN REFERENCE TO ing the denomination of the note; the COUNTERFEITS. - The paper on which they are printed is generally of a very inferior quality, with less body, finish and toughness than bank note paper has. The ink generally lacks the rich luster of the genuine; the red letters and figures are generally imperfect, and the ink does not present the vermillion hue as it should. printing is generally inferior, usually exhibiting specks of white in the most prominent letters. The date and filling up, and the President's and Cashier's names are generally written by the same person, although in many instances they present a different appearance. There are bills in circulation bearing either genuine dies or vignettes; but upon close examination tected by the stiffness of the outer you will be enabled to detect any spurious edges, "occasioned by the gum or method; bill, whether counterfeit or altered by the alterations it is passed or stamped at the will admit, the learner should examine stamped there, the carrying out of the stamped there, the carrying out of the stamped there. stamped there, the carrying out of the out- erful pocket magnifying glass, which can lines for its shading will readily show the be purchased for from fifty cents to one dolfraud. ## HOW TO SUCCEED IN BUSINESS.

to get rich? Now, I will not vouch that upon the dear blind lady. the following rules will enable every person who may read them to acquire wealth: but this I will answer for, that if ever a man does grow rich by honest means, and retains his wealth for any length of time, he must practice upon the principles laid : down in the following estry. The remarks are not original with me, but I of every young man, at least as affording the true secret of success in attaining wealth. A single perusal of such an essay at an impressible moment, has sometimes a very wonderful effect upon the disposition and character.

of her freaks and currices; who blindly distributes her favors without the slightest

What will my readers give to know how her shrine. Now, all this is a vile slander

Although wealth often appears the result of mere accident, or a fortunate concur-rence of favorable circumstances without any exertion of skill or foresight, yet any man of sound health and unimpaired mind may become wealthy, if he takes the proper steps.

Foremost in the list of requisites are strongly commend them to the attention | honesty and strict integrity in every transaction of life. Let a man have the reputa-tion of being fair and upright in his dealings, and he will possess the confidence of all who know him. Without these qualities every other merit will prove unavailing.
Ask concerning a man, "Is he active and on and character. Ask concerning a man, "Is he active and Fortune, they say, is a fickle dame-full capable?" Yes. "Industrious, temperate and regular in his habits?"—Oh yes.
"Is he honest? Is he trustworthy?" distributes her favors without the slightest in Is he honest? Is he trustworthy?" discrimination. So inconstant, so waver-1 Why, as to that, I am sorry to say that he ing is she represented, that her most faith-; is not to be trusted; he needs watching; fai votaties can place no reliance on her he is a little tricky, and will take an undue promises. Disappointment, they tell us, advantage, if he can. "Then I will have is the lot of those who make offerings at nothing to do with him," will be the in-

variable reply. Why, then, is honesty the | Argus beforehand, and the hundred hands best policy? Because, without it, you will of Briarius afterwards. get a bad name, and everybody will shun

you.

A character for knavery will prove an insurmountable obstacle to success in almost every undertaking. It will be found that the straight line is, in business, as in geometry, the shortest. In a word, it is almost impossible for a dishonest man to acquire wealth by a regular process of business, because he is shunned as a depredator upon society.

Needy men are apt to deviate from the rule of integrity, under the plea that necessity knows no law; they might as well add that it knows no shame. The course is suicidal, and by destroying all confidence, ever keeps them immured in poverty, although they may possess every other

quality for success in the world.

Punctuality, which is said to be the soul of business, is another important element The man in the art of money getting. known to be scrupulously exact in the ful-fillment of his engagements, gains the confidence of all, and may command all the means he can use with advantage: whereas, a man careless and regardless of his promises in money matters will have every purse closed against him. Therefore

be prompt in your payments,

Next, let us consider the advantages of a cautious circumspection in our intercourse with the world. Slowness of belief and a proper distrust are essential to success. The credulous and confiding are ever the dupes of knaves and impostors.

Ask those who have lost their property
how it happened, and you will find in most cases that it has been owing to misplaced confidence. One has lost by endorsing, another by crediting, another by false representations; all of which a little more foresight and a little more district would have prevented. In the affine of this world man a person of the world man are not such that the second such as the second such fairs of this world men are not saved by

faith, but by the want of it.

Judge of men by what they do, not by that they say. Believe in looks rather what they say. Believe in looks rather than words. Observe all their movements. Ascertain their motives and their ends. Notice what they say or do in their unguarded moments, when under the induence of excitement. The passions have been compared to tortures which force men to reveal their secrets. Before trusting a man, before putting it in his power to cause you aloss, possess yourself of every available information relative to him. Learn his history, his habits, inclinations and propensities; his reputation for honor, industry, frugality and punctuality; his prospects, resources, supports, advantages and disadvantages; his intentions and motives of action; who are his friends and enemies, and what are his good or bad qual-You may learn a man's good qualities ities. and advantages from his friends-his bad qualities and disadvantages from his encmies. Make due allowance for exaggeration in both. Finally, examine carefully before engaging in anything, and act with energy

Order and system in the management of business must not be neglected. Nothing contributes more to dispatch. Have a contributes more to dispatch. place for everything and everything in its place; a time for everything, and everything in its time. Do first what press's most, and having determined what is to be done, and how it is to be done, lose no time in doing it. Without this method all is hurry and confusion, little or nothing is accomplished, and business is attended to with neither pleasure nor profit.

A polite, affable deportment is recommended. Agreeable manners contribute powerfully to a man's success. Take two men, possessing equal advantages in every other respect, but let one be gentlemanly. kind, obliging and conciliating in his manners; the other harsh, rude and disobliging; and the one will become rich, while the

other will starve.

We are now to consider a very important principle in the business of money-genting. namely-Industry - persevering, indefatigable attention to business. Persevering diligence is the Philosopher's stone, which turns everything to gold. Constant; regular, habitual and systematic application to business, must in time, it properly directed, produce great results. It must lead to wealth, with the same certainty that poverty follows in the train of idleness and inattention. It has been truly remarked that he who follows his amusements instead of his business, will, in a short time. have no business to follow.

The art of money-saving is an important part of the art of money-getting. Without frugality no one can become rich; with it, few would be poor. Those who consume as fast as they produce, are on the road to ruin. As most of the poverty we meet with grows out of idleness and extravagance, so most large fortunes have been the result of habitual industry and frugality. The practice of economy is as necessary in the expenditure of time as of money. They say if "we take care of the pence the pounds will take care of them-selves." So, if we take care of the minutes, the days will take care of themselves.

The acquisition of wealth demands as much self-denial, and as many sacrifices of present gratification, as the practice of virtue itself. Vice and poverty proceed, in some degree, from the same sources, namely—the disposition to sacrifice the future to the present; the inability to forego a small present pleasure for great future advantages. Men fail of fortune in this world, as they fail of happiness in the world to come, simply because they are unwilling to deny themselves momentary enjoyments for the sake of permanent future happiness.

Every large city is filled with persons. who, in order to support the appearance of wealth, constantly live beyond their in-come, and make up the deficiency by contracting debts which are never paid. Have the hundred eyes of Others, there are, the mere drones of so-

ciety, who pass their days in idleness, and f subsist by pirating on the hives of the industrious. Many who run a short-lived career of splendid beggary, could they be but persuaded to adopt a system of rigid economy for a few years, might pass the remainder of their days in atlluence. But no! They must keep up appearances, they must live like other folks.

Their debts accumulate; their credit fails; they are harassed by duns, and be-sieged by constables and sheriff. In this extremity, as a last resort, they submit to a shameful dependence, or engage in criminal practices which entail hopeless wretchedness and infamy on themselves and

families.

Stick to the business in which you are regularly employed. Let speculators make thousands in a year or a day; mind your own regular trade, never turning from it to the right hand or to the left. If you are a merchant, a professional man, or a mechanic, never buy lots or stocks, unless you have surplus money which you wish to invest. Your own business you understand as well as other men; but other people's business you do not understand. Let your business be some one which is useful to the community. All such occupations possess the elements of profit in themselves.

## How to Secure the Public Lands.

### OR THE ENTRY OF THE SAME UNDER THE PRE-EMPTION AND HOMESTEAD LAWS.

The following circular gives all necessary | tract, with its area; the Register will then information as to the procedure necessary in purchasing and securing the public

DEPARTMENT OF THE INTERIOR, GEN'L LAND OFFICE, July 19, 1865.

Numerous questions having arisen as to the mode of procedure to purchase public lands, or acquire title to the same by bounty land locations, by pre-emptions or by homestead, this circular is communicated for the information of all concerned.

In order to acquire title to public lands the following steps must be taken:

1. Application must be made to the Register of the district land office in which the land desired may be situated.

A list of all the land offices in the United States is furnished by the Department, with the seats of the different offices, where it is the duty of the Register and Receiver to be in attendance, and give proper facilities and information to persons desirous of obtaining lands.

The minimum price of ordinary public lands is \$1,25 per acre. The even or reserved sections falling within railroad grants are increased to double the minimum price, being \$2.50 per acre

Lands once offered at public sale, and not afterwards kept out of market by reservation, or otherwise, so as to prevent free competition, may be entered or located.

2. By the applicant filing with the Register his written application describing the of 20th May, 1862, they can do so on com-

certify to the receiver whether the land is vacant, with its price; and when found to be so, the applicant must pay that price per acre, or may locate the same with land warrant, and thereafter the Receiver will give him a "duplicate receipt," which he is required to surrender previous to the delivery to him of the patent, which may be had either by application for it to the Register or to the General Land Office.

3. If the tract has not been offered at public sale it is not liable to ordinary private entry, but may be secured by a party legally qualified, upon his compliance with the requirements of the pre-emption laws of 4th September, 1841, and 3d March, 1843; and after such party shall have made actual settlement for such a length of time as will show he designs it for his permanent home, and is acting in good faith, building a house and residing therein, he may proceed to the district land office, establish his pre-emption claim according to law, by proving his actual residence and cultivation, and showing that he is otherwise within the purview of these acts .-Then he can enter the land at \$1,25, either in cash or with bounty land warrant, unless the premises should be \$2.50 acre lands. In that case the whole purchase-money can be paid in cash, or one-half in cash, the residue with a bounty land warrant.

4. But if parties legally qualified desire to obtain title under the Homestead Act

plying with the Department Circular, dated that the claimant has made the land his 30th October, 1862.

5. The law confines Homestead entries to surveyed lands; and although, in certain States and Territories noted in the subjoined list, pre-emptors may go on land before survey, yet they can only establish their claim after return of survey, but must file their pre-emption declaration within three months after receipt of official plat, at the local land-office where the settlement was made before survey. Where, however, it was made after survey, the claimant must file within three months after date of settlement; and where actual residence and cultivation have been long enough to show

that the claimant has made the land his permanent home, he can establish his claim and pay for the same at any time before the date of the public sale of lands within the range in which his settlement may fall.

6. All unoffered surveyed lands not acquired under pre-emption, homestead, or otherwise, under express legal sanction, must be offered at public sale under the President's Proclamation, and struck off to the highest bidder, as required by act of April 24, 1820.

J. M. EDMUNDS. Commissioner General Land Office.

## LAW MAXIMS.

- 1. A promise of a debtor to give "satisfactory security" for the payment of a portion of his debt, is a sufficient consideration for a release of the residue by his creditor.
- 2. Administrators are liable to account for interest on funds in their hands, although no profit shall have been made upon them, unless the exigencies of the estate rendered it prudent that they should hold the funds thus uninvested.
- 3. Any person who voluntarily becomes an agent for another, and in that capacity obtains information to which as a stranger he could have had no access, is bound in sub-sequent dealing with his principal, as purchaser of the property that formed the subject of his agency, to communicate such information.
- 4. When a house is rendered untenantable in consequence of improvements made on the adjoining lot, the owner of such cannot recover damages, because it is presumed that he had knowledge of the approaching danger in time to protect himself from it.
- 5. When a merchant ship is abandoned by order of the master, for the purpose of saving life, and a part of the crew subsequently meet the vessel so abandoned and bring her safe into port, they will be entitled to salvage.
- 6. A person who has been led to sell goods by means of false pretenses; cannot recover them from one who has purchased them in good faith from the fraudulent vendor.

- 7. An agreement by the holder of a note to give the principal debtor time for payment, without depriving himself of the right to sue, does not discharge the surety.
- 8. A seller of goods who accepts, at the time of sale, the note of a third party, not endorsed by the buyer, in payment, cannot in case the note is not paid, hold the buyer responsible for the value of the goods.
- 9. A day-book copied from a "blotter" in which charges are first made, will not be received in evidence as a book of original entries.
- 10. Common carriers are not liable for extraordinary results of negligence that could not have been foreseen by ordinary skill and foresight.
- 11. A bidder at a Sheriff's sale may retract his bid at any time before the property is knocked down to him, whatever may be the conditions of the sale.
- 12. Acknowledgment of debt to a stranger does not preclude the operation of the statute.
- 13. The fruits and grass on the farm or garden of an intestate descend to the heir.
- 14. Agents are solely liable to their principals,
- 15. A deposit of money in bank by a husband, in the name of his wife, survives to her.

- 16. Money paid on Sunday contracts may be recovered.
- 17. A debtor may give preference to one creditor over another, unless fraud or special legislation can be proved.
- 18. A court cannot give judgment for a larger sum than that specified in the verdict.
- 19. Imbecility on the part of either husband or wife, invalidates the marriage.
- 2). An action for malicious prosecution will lie, though nothing further was done than suing out warrants.
- 21. An agreement not to continue the practice of a profession or business in any specified town, if the party so agreeing has received a consideration for the same, is valid.
- 22. When A consigns goods to B to sell on commission, and B delivers them to C, in payment of his own antecedent debts, A can recover their value.
- 23. A finder of property is compelled to make diligent inquiry for the owner thereof, and to restore the same. If, on finding such property, he attempts to conceal such fact, he may be prosecuted for larceny.
- 24. A private person may obtain an injunction to prevent a public mischief by which he is affected in common with others.
- 25. Any person interested may obtain an injunction to restrain the State or a municipal corporation from maintaining a nuisance on its lands.
- 2). A discharge under the insolvent laws of one State will not discharge the insolvent from a contract made with a citizen of another State.
- 27. To prosecute a party with any other motive than to bring him to justice, is mulicious prosecution, and actionable as such.
- 28. Ministers of the gospel residing in any incorporated town, are not exempt from jury, military, or fire service.
- 20. When a person contracts to build a house, and is prevented by sickness from finishing it, he can recover for the part performed, if such part is beneficial to the other party.
- 3). In a suit for enticing away a man's wife, actual proof of the marriage is not necessary. Cohabitation, reputation, and the admission of marriage by the parties, are sufficient.
- 21. Permanent erections and fixtures, made by a mortgager after the execution of the mortgage upon land conveyed by it, become a part of the mortgaged premises.
- 22. When a marriage is denied, and plainful its given sufficient evidence to estabisse in the definition cannot examine the wife to disprove the marriage.

- 33. The amount of an express debt cannot be enlarged by application.
- 34. Contracts for advertisements in Sunday newspapers cannot be enforced.
- 35. A seller of goods, chattels, or other property, commits no frand, in law, when he neglects to tell the purchaser of any flaws, defects, or unsoundness in the same,
- 26. The opinions of witnesses, as to the value of a dog that has been killed, are not admissible in evidence. The value of the animal is to be decided by the jury.
- 37. If any person puts a fence on or plows the land of another, he is liable for trespass whether the owner has sustained injury or not.
- 38. If a person, who is unable from illness to sign his will, has his hand guided in making his mark, the signature is valid.
- 39. When land trespassed upon is occupied by a tenant, he alone can bring the action.
- 40. To say of a person. "If he does not come and make terms with me. I will make a bankrapt of him and ruin him." or any such threatening language, is actionable, without proof of special damage.
- 41. In an action for slander, the party making the complaint must prove the words alleged; other words of like meaning will not suffice.
- 42. In a suit of damages for scduction, proof of pregnancy, and the birth of a child, is not essential. It is sufficient if the illness of the girl, whereby she was anable to labor, was produced by shame for the seduction; and this is such a loss of service as will sustain the action.
- 43. Addressing to a wife a letter containing matter defamatory to the character of her husband is a publication, and renders the writer amenable to damages.
- 44. A parent cannot sustain an action for any wrong done to a child, unless he has incurred some direct pecuniary injury therefrom in consequence of some loss of service or expenses necessarily consequent thereupon.
- 45. A master is responsible for an injury resulting from the needigence of his servant, whilst driving his cart or carriage, provided the servant is at the time engaged in his master's business, even though the accident happens in a place to which his master's business does not call him; but if the journey of a servant be solely for a purpose of his own, and undertaken without the knowledge and consent of his master, the latter is not responsible.
- 46. An emigrant depot is not a nuisance in law.
- 47. A railroad track through the streets is not a nuisance in law.

- 48. In an action for libel against a newspaper, extracts from such newspaper may be given to show its circulation, and the extent to which the libel has been published. I The jury, in estimating the damages, are to look at the character of the libel, and whether the defendant is rich or poor. The plaintiff is entitled, in all cases, to his acfual damages, and should be compensated for the mental sufferings endured, the publie disgrace inflicted, and all actual discomfort produced.
- 49. Delivery of a husband's goods by a wife to her adulterer, he having knowledge that she has taken them without her husband's authority, is sufficient to sustain an indictment for largery against the adul-
- 50. The fact that the insurer was not informed of the existence of impending litigation, affecting the premises insured, at the time the insurance was effected, does not vitiate the policy.
- 51. The liability of an innkeeper is not confined to personal baggage, but extends to all the property of the guest that he consents to receive.
- 52. When a minor executes a contract, and pays money, or delivers property on the same, he cannot afterwards disaffirm such contract and recover the money, or property, unless he restores to the other party the consideration received from him for such money or property.
- 53. When a person has, by legal inquisition been found an habitual drunkard, he caunot, even in his sober intervals, make contracts to bind himself or his property, until the inquisition is removed.
- 54. Any person dealing with the representative of a deceased person, is presumed, in law, to be fully apprized of the extent of such representative's authority to act in bel alf of such estate.
- 55. In an action against a railroad company, by a passenger, to recover damages for injuries sustained on the road, it is not compulsory upon the plaintiff to prove acthat newligence in the defendants; but it is obligatory on the part of the latter to prove that the injury was not owing to any fault or negligence of theirs.
- 56. A guest is a competent witness, in an action between himself and an inn-keeper. to prove the character and value of lest personal baggage. Money in a trunk, not exceeding the amount reasonably requireby the traveler to defray the expenses of the journey which he has undertaken, is a part of his baggage; and in case of its less. while at any inn, the plaintiff may prove its amount by his own testimony,
- 57. The deel of a minor is not absolutely void. The court is authorized to judge, ed with process; but service of such profrom the instrument, whether it is void or coss spen his wife, even in his absence from not, according to its terms being favorable, the state, is not, in the absence of statutoor and avorable to the interests of the minor. Ty provisions, sufficient.

- 58. A married woman can neither sue nor be sued on any contract made by her during her marriage, except in an action relating to her individual property. The action must be commenced either by or against her husband. It is only when an action is brought on a contract made by her before her marriage, that she is to be joined as a co-plaintiff, or defendant, with her hushand.
- 59. Any contract made with a person judicially declared a lunatic is void.
- 60. Money paid voluntarily in any transaction, with a knowledge of the facts, cannot be recovered.
- 61. In all cases of special contract for services, except in the case of a minor, the plaintiff can recover only the amount stipulated in the contract.
- 62. A wife is a competent witness with her husband, to prove the contents of a lost trunk, or when a party.
- 63. A wife cannot be convicted of receiving stolen goods when she received them of her husband.
- 64. Insurance against fire, by lightning or otherwise, does not cover loss by lightning when there is no combustion.
- 65. Failure to prove plea of justification, in a case of slander, aggravates the offence.
- 66. It is the agreement of the parties to sell by sample that constitutes a sale by sample, not the mere exhibition of a specimen of the goods.
- 67. An agent is liable to his principals for loss caused by his misstatements, tho' unintentional.
- 68. Makers of promissory notes given in advance for premiums on policies of insurance, thereafter to be taken, are liable there-
- 69. An agreement to pay for procuring an appointment to office is void.
- 70. An attorney may plead the statute of limitations, when sued by a client for money which he has collected and failed to pay
- 71. Testimony given by a deceased witness on first trial, is not required to be repeated verbatim on the second.
- 72. A person entitling himself to a reward offered for lost property, has a lien upon the property for the reward; but only when a definite reward is offered.
- 73. Confession by a prisoner must be voluntarily made to constitute evidence against
- 74. The defendant in a suit must be serv-

- 75. The measure of damages in trespass for cutting timber, is its value as a chattel on the land where it was felled, and not the market price of the lumber manufactured.
- 76. To support an indictment for malicious mischief in killing an animal, malice towards its owner must be shown, not merely passion excited against the animal itself.
- 77. No action can be maintained against a sheriff for omitting to account for money obtained upon an execution within a reasonable time. He has fill the return day to render such account.
- 78. An interest in the profits of an enterprise, as profits, renders the party holding it a partner in the enterprise, and makes him presumptively liable to share any loss.
- 79. Males can marry at fourteen, and females at twelve years of age.
- 80. All cattle found at large upon any public road, can be driven by any person to the public pound.
- 81. Any dog chasing, barking, or otherwise threatening a passer-by in any street, lane, road, or other public thoroughfare, may be lawfully killed for the same.
- 82. A written promise for the payment of such amount as may come into the hands of the promisor, is held to be an instrument in writing for the payment of money.
- S3. The declaration of an agent is not admissible to establish the fact of agency.—
  But when other proper evidence is given, tending to establish the fact of agency, it is not error to admit the declarations of the agent, accompanying acts, though tending to show the capacity in which he acted. When evidence is competent in one respect and incompetent in another, it is the duty of the court to admit it, and control its effects by suitable instructions to the lirry.
- 84. The court has a general power to remove or suspend an attorney for such imporal conduct as rendered him unworthy of confidence in his official capacity.
- 85. Bankruptey is pleadable in bar to all actions and in all courts, and this bar may be avoided whenever it is interposed, by showing fraud in the procurement of the discharge, or a violation of any of the provisions of the bankrupt act.
- 86. An instrument in the form of a deed, but limited to take effect at the termination of the grantor's natural life, is held to be a deed, not a will.
- 87. A sale will not be set aside as fraudtlent, simply because the buyer was at the time unable to make the payment agreed upon, and knew his inability, and did not intend to pay.
- 83. No man is under an obligation to make known his circumstances when he is buying goods.

- S9. Contracting parties are bound to disclose material facts known to each, but of which either supposes the other to be ignorant, only when they stand in some special relation of trust and confidence in relation to the subject matter of the contract. But neither will be protected if he does anything, however slight, to mislead or deceive the other.
- 90. A contract negotiated by mail is formed when notice of acceptance of the offer is duly deposited in the post-office, properly addressed. This rule applies, although the party making the offer expressly requires that if it is accepted, speedy notice of acceptance shall be given him.
- 91. The date of an instrument is so far a material part of it, that an alteration of the date by the holder after execution, makes the instrument void.
- 92. A corporation may maintain an action for libel, for words published of them and relating to its trade or business, by which it has incurred special damages.
- 93. It is unprofessional for a lawyer who has abandoned his case without trying it, a term or two before trial, to claim a fee conditional upon the success of his client, although his client was successful.
- 94. Although a party obtaining damages for injuries received through the definit of another, was himself guilty of negligence, yet that will not defeat his recovery, unless his negligence contributed to cause the injury.
- 95. A person may contract to labor for another during life, in consideration of receiving his support; but his creditors have the right to inquire into the intention with which such arrangement is made, and it will be set aside if entered into to deprive them of his future carnings.
- 96. A grantor may by express terms exclude the bed of a river, or a highway, mentioned as boundary; but if without language of exclusion a line is described as 'along,' or 'upon,' or as 'running to' the highway or river, or as 'by,' or 'running to the bank of' the river; these expressions carry the grantee to the center of the highway or river.
- 97. The court will take pains to construe the words used in a deal in such a way as to effect the intention of the parties, however unskillfully the instrument may be drawn. But a court of law cannot exchange an intelligible word plainly employed in a deed for another, however evident it may be that the word used was used by mistake for another.
- 98. One who has lost his memory and understanding is entitled to legal protection, whether such loss is occasioned by his own misconduct or by an act of Providence.

- 99. When a wife leaves her husband voluntarily, it must be shown, in order to make him liable for necessaries furnished to her, that she could not stay with safety. Personal violence, either threatened or inflicted, will be sufficient cause for such separation.
- 100 Necessaries of dress furnished to a discarded wife must correspond with the pecuniary circumstances of the husband, and be such articles as the wife, if prudent, would expect, and the husband should furnish, if the parties lived harmoniously together.
- 101. A fugitive from justice from one of the United States to another, may be arrested and detained in order to his surrender by authority of the latter, without a previous demand for his surrender by the executive of the State whence he fled.
- 102. A watch will not pass under a bequest of "wearing apparel." nor of "household furniture and articles for fami-.lv use."
- 103. Money paid for the purpose of settling or compounding a prosecution for a supposed felony, cannot be recovered back by a party paying it.
- 104. An innkeeper is liable for the death of an animal in his possession, but may free himself from liability by showing that the death was not occasioned by negligence on his part.
- 105. Notice to the agent of a company is notice to the company.
- 106. An employer is not liable to one of his employees for an injury sustained by the latter in consequence of the neglect of others of his employees engaged in the same general business.
- 107. Where a purchaser at a Sheriff's sale has bid the full price of property under the erroneous belief that the sale would divest the property of all liens, it is the duty of the court to give relief by setting aside the sale.
- 108. When notice of protest is properly sent by mail, it may be sent by the mail of the day of the dishonor; if not, it must be mailed for the mail of the next day; except that if there is none, or it closes at an unseasonably early hour, then notice must be mailed in season for the next possible
- 109. A powder-house located in a populous part of a city, and containing large quantities of gunpowder, is a nuisance.
- 110 When the seller of goods accepts at son, unindorsed by the purchaser, in payment, the presumption is that the payment was intended to be absolute; and though the note should by dishonored, the purchaser will not be liable for the value of the goods.

- 111. A man charged with crime before a committing magistrate, but discharged on his own recognizance, is not privileged from arrest on civil process while returning from the magistrate's office.
- 112. When one has been induced to sell goods by means of false pretences, he cannot recover them from one who has bona fide purchased and obtained possession of them from the fraudulent vendor.
- 113. If the circumstances attendant upon a sale and delivery of personal property are such as usually and naturally accompany such a transaction, it cannot be declared a legal fraud upon creditors.

114. A stamp impressed upon an instrument by way of seal, is good as a seal, if it creates a durable impression in the texture

of the paper.

115. If a party bound to make a payment use due diligence to make a tender, but through the payee's absence from home is unable to find him or any agent authorized to take payment for him, no forfeiture will be incurred through his failure to make a tender.

## Government Land Measure.

A township, 36 sections, each a mile square.

A section, 640 acres.

A quarter section, half a mile square, 160 acres

An eighth section, half a mile long, north and south, and a quarter of a mile wide, 80

A sixteenth section, a quarter of a mile square, 40 acres.

The sections are numbered from one to thirty-six, commencing at the northeast corner, thus:

| 6  | 5  | 4  | 3  | 2  | n w n e |
|----|----|----|----|----|---------|
| 7  | 8  | 9  | 10 | 11 | 12      |
| 18 | 17 | 16 | 15 | 14 | 13      |
| 19 | 20 | 21 | 22 | 23 | 24      |
| 30 | 29 | 28 | 27 | 26 | 25      |
| 31 | 32 | 33 | 34 | 35 | 36      |

The sections are all divided in quarters, which are named by the cardinal points, as in section one. The quarters are divided in the same way. The description of the time of the sale, the note of a third per- | a 4) acre lot would read: The south half son, unindersel by the purchaser, in pay- of the west half of the southwest quarter of section; in township 24, north of range 7 west, or as the case might be; and sometimes will fall short, and sometimes overrun the number of acres it is supposed to coni tain.

## THE DECIMAL SYSTEM

OF

# WEIGHTS AND MEASURES.

As Authorized by Act of Congress--Approved July 28, 1866.

## STANDARDS.

In every system of Weights and Measures it is necessary to have what are called "Standards," as the pound, yard, gallon, &c., to be divided and multiplied into smaller and larger parts and denominations. The definition and construction of these Standards involve philosophical and scientific principles of a somewhat abstruse character, and are made and procured by the legislative department of the government. The nominal Standards in the new system are the METER, the ARE, the LITER, and the GRAM. The only real Standard, the one by which all the other standards are measured, and from which the system derives its name of "Metric," is the METER.

## THE METER

Is used for all measures of length, distance, breadth, depth, heighth, &c., and was intended to be, and is very nearly, one termillionth of the distance on the earth's surface from the equator to the pole. It is about 39% inches, or 3 feet, 3 inches and 3 eighths, and is to be substituted for the yard.

## THE ARE

Is a surface whose side is ten Meters, and is equal to 100 square Meters or about 4 square rods.

## THE LITER

Is the unit for measuring solids and capaity, and is equal to the contents of a cube already be whose edge is one-tenth of a meter. It is about equal to 1 quart, and is a standard in cubic, dry and liquid measures.

A cubic Meter (or Kiloliter) is called a *stere*, and is also used as a standard in certain cubic measures.

## THE GRAM

Is the Unit of weight, and is the weight of a cube of pure water, each edge of the cube being one one-hundredth of a Meter. It is about equal to 15½ grains. It is intended as the Standard in all weights, and with its divisions and multiples, to supersede the use of what are now called Avoirdupois, Apothecaries and Troy Weights.

Each of the foregoing Standards is divided decimally, and larger units are also formed by multiples of 10, 100, &c. The successive subordinate parts are designated by the prefixes Deci, Centi and Milli; the successive multiples by Deka, Hecto, Kilo and Myria; each having its own rumerical signification, as will be more clear-

ly seen in the tables hereinafter given.

The terms used may, at first sight, have a formidable appearance, seem difficult to pronounce, and to retain in memory, and to be, therefore, objectionable; but with a little attention and use, the apprehended difficulty will be found more apparent than real, as has been abundantly proved by experience. The importance, also, of conformity in the use of commercial terms, on the part of the United States, with the practice of the many nations in which the system, with its present noneaclature, has already been adopted, must greatly overbalance the comparatively slight objection alluded to.

## TABLES.

| OLD.  | MONEY. | New.  |
|---|--------|---|
| 4 farthing make 1 penny. 12 pence " 1 shilling. 20 shillings " 1 pound. |        | 10 mills make 1 cent. 10 cents " 1 dime. 10 dimes " 1 dollar. |

## LONG AND CLOTH MEASURE.-NEW.

| 10 | millimeters | make | . 1 | centimeter. |
|----|-------------|------|-----|-------------|
| 10 | centimeters | ••   | 1   | decimeter.  |
| 10 | decimeters  | 44   | 1   | METER.      |
| 10 | meters '    | 6.6  | 1   | dekameter.  |
| 10 | dekameters  | **   | 1   | hectometer. |
| 10 | hectometers | 6.6  | 1   | kilometer.  |
| 10 | kilometers  | +4   | 1   | myriameter. |

## SOUARE MEASURE.-New.

| 100 square millimeters mak<br>100 square centimeters<br>100 square decimeters<br>100 centares | 1 square decimeter. 1 square meter or centare. 1 Are. |
|---|---|
| 100 area  | 1 hectare.  |

The denominations less than the Are, including the Meter, are used in specifying the contents of surfaces of small extent; the terms Centare, Are and Hectare, in expressing quantities of land surveyed or measured.

The above table may, however, be continued beyond the Meter, thus:

| 100 | square meters      | make | 1 | square dekameter.  |
|-----|--------------------|------|---|--------------------|
|     | square dekameters  | **   | 1 | square hectometer. |
| 100 | square hectometers | **   | 1 | square kilometer.  |
| 100 | square kilometers  |      | 1 | square myriameter. |

## CUBIC MEASURE.-NEW.

## For Solids.

|      | cubic millimeters  | make | 1 | cubic centimeter.         |
|------|--------------------|------|---|---------------------------|
| 1000 | cubic centimeters  | **   | 1 | cubic decimeter or liter. |
| 1000 | cubic decimeters   | ••   | 1 | cubic meter or stere.     |
| 1000 | cubic meters       | 4.4  | 1 | cubic dekameter.          |
| 1000 | cubic dekameters   | 6.6  | 1 | cubic hectometer,         |
| 1000 | cubic hectometers  | **   | 1 | cubic kilometer.          |
| 1000 | cubic kilometers . | 4.0  | 1 | cubic myriameter.         |

## For Dry and Liquid Measures.

| 10 | milliliters | make | 1 | centiliter, |
|----|-------------|------|---|-------------|
| 10 | centiliters | **   | 1 | deciliter.  |
| 10 | deciliters  | 4.6  | 1 | LITER.      |
| 19 | liters      | 4.6  | 1 | dekaliter.  |
| 10 | dekaliters  | 4.4  | 1 | hectoliter. |
| 10 | hectoliters | **   | 1 | kiloliter.  |
| 10 | kiloliters  | +4   | 1 | myrialiter  |

[NEW A LITER, the standard of Measures of Capacity, usually in a cylindrical form, is equivalent to a cubic Decimeter, or the one-thousandth part of a cubic Meter, the contents of which are about one quart.]

The Kiloliter, or Stere, is a cubic Meter, and is used as a unit in measuring flrewood

and lumber.

| 10 | decisteres | make | 1 | stere.     |
|----|------------|------|---|------------|
| 10 | steres     | ••   | 1 | dekastere. |

## Discount and Premium.

When a person buys an article for \$1.00—20 per cent off, (or discount,) and sells it again for \$1,00, he makes a profit of \$25 per cent. on his investment. Thus: He pays 80 cents and sells for \$1.00—a gain of 20 cents, or 25 per cent of 80 cents. And for any transaction where the sele or purchase of gold, silver, or currency is concerned, the following rules will apply in all cases.

RULE 1st.—To find premium when discount is given: Multiply 100 by rate of discount and divide by 100, less rate of dis-

count.

Rule 2d.—To find discount when premium is given. Multiply the rate of interest by 100, and divide by 100, plus the rate of

premium.

Suppose A has \$1:40 in currency, which he wishes to exchange for gold, when gold should he receive? In this case the premium is given, consequently we must find the discount on A's currency and subtract it from the \$1:40, as per rule 2d, showing the discount to be a tritle more than 21 per cent, and that he should receive \$110.60 in gold.

5 pr ct. Dis. allows +51/4 pr ct. Pre. or profit 10 .. +11 15 " 6.6 4.5 44 66 44 +17% 20 " 66 44 44 .. 44 25 44 66 .. 44 66 25 " 331 30 " .. 44 44 \*43 66 .. 40 " 44 44 .. 66 44 6934 50 " 44 44 44 66 100

A dagger (t) denotes the profits to be a fraction more than specified. A (\*) denotes profits to be a fraction less than specified.

## Table of Weights of Grain, Seeds, &c.

ACCORDING TO THE LAWS OF NEW YORK.

| Barley weighs 48 | lb. | per | bushel. |
|------------------|-----|-----|---------|
| Beans            |     | F   | 11      |
| Buckwheat"48     | 4.6 |     | 6.6     |

<sup>\*</sup>Flax Seed by cust'm weighs 56 lb. per bush.

## Facts on Advertising.

The advertisements in an ordinary number of the London Times exceed 2,300. The annual advertising bills of one London firm are said to amount to \$200,000; and three others are mentioned who each annually expend for the purpose \$50,000. The expense for advertising the eight editions of the "Encyclopodia. Britannia" is said to have been \$15,000.

In large cities nothing is more common than to see large business establishments, which seem to have an immense advantage over all competitors, by the wealth, experience, and prestige they have acquired, drop gradually out of public view, and be succeeded by firms of a smaller capital, more energy, and more determined to have the fact that they sell such and such commodities known from one end of the land to the other. In other words, the establishments advertise; the old die of dignity .-The former are ravenous to pass out of obscurity into publicity; the latter believe that their publicity is so obvious that it cannot be obscured. The first understand that they must thrust themselves upon public attention, or be disregarded; the second, having once obtained public attention, suppose they have arrested it permanently; while, in fact, nothing is more characteristic of the world than the ease with which it forgets.

Stephen Girard, than whom no shrewder business man ever lived, used to say: I have always considered advertising liberally and long to be the great medium of success. In business, and the prelude to wealth. And I have made it an invariable rule too, to advertise in the dullest times as well as the busiest; long experience having taught me that money thus spent is well laid out; as by keeping my business continually before the public it has secured me many sales that I would otherwise have lost.

## Capacity of Cisterns or Wells.

Tabular view of the number of gallons contained in the clear, between the brick work for each ten inches of depth:

| Diameter                        |       | Gallons |
|---------------------------------|-------|---------|
| 2. feet                         | egual |         |

## Brilliant Whitewash.

Many have heard of the heililant since of whitewash on the cast end of the President's house at Washington. The following them is a recipe for it; itis gleaned from the National Intelligencer, with some additionants: Take half a beside of nice unsuch the process to keep in the steam. Strain the liquid through a fine sieve or strainer, and do it of it a peck of altic previously well dissolved in warm water; three pounds of ground free holded to a thin paste, and stirred in willing hot half a pound of powdered Spanish whiting, and a pound of clean give, which has been previously dissolved by soaking it well, and then handing it over a slow free in a small bettle within a large one filed with water. Add five realities of hot water to the mixture, stir it well, and let it stand a few days covered from the dir.

It should be 'it on right hot; for this purpose it can be kept in a kettle on a portable forma. It is said that about a plot of this mixture will cover a square yard upon the outside of a house if properly applied. Brushes more or less small may be used according to the matters of the job required. It answers as well as oil paint for wood, brick or stone, and is chearer. It retains its brillancy for many years. There is nothing of the kind that will compare with it, either for inside or outside

Coloring matter may be put in and made of any shade you like. Sponish brown stirred in will make red pink, matte or less deep according to the genantity. A delicate tingle of this is very pretty, for inclide walls. Finely pulveries decomman clay, well mixed with Spatish brown, makes a radiish stone color. Yellow-ocher sitred in makes pellow wash, but chrome go is farmer, and makes a color generally esteemed prottier. In all these cases the darkness of the shales of course is determined by the quantity of coloring used. It is deficult to make rules, because tastes are different. In would be best to try experiments on a shingle andlet it dry. We have been tell that green must not be mixed with lime. The lime destroys the color, and the color has an effect on the whitewash, which makes it crack and peel. When walls have been bally smoked, and you wish to have them a clean white, it is well to a specie in line plantifully through a by finto the water you use, before it is stirred in the whole mixture. If a larger quantity than five gallons he wanted, the same propertion should be observed.

# How to get a Horse out of a

The great difficulty of getting horses from a stable where surre unding builtings are in a state of configution, is well known.—The plan of evering their eyes with a blanket will not always speccod.

A gentleman whose horses have been in great peril from such a cause, having tried

in vain to save them, hit upon the expedient of having them harnessed as though going to their usual work; when, to his a-tonishment, they were led from the stable without difficulty.

## The Chemical Barometer.

Take a long narrow bottle, such as an old-fashioned Eau-de-Cologne bottle, and put into it two and a half drashma of campion, and eleven drachms of spirits of wine; when the camphor is dissolved, which it will readily do by slight agitation, add the following mixture: Take water, line drachms; nitrate of peach (calipetro) thirty-eight grains; and muriate of amnonia c-al ammoniae) thirty-eight grains. Dissolve these salts in the warer prior to mixing with the camphorared spirit; then shake the whole well together. Cork the bottle well, and wax the top, but afterwards make a very small aperture in the cork with a red-hot needle. The bottle may then be hung up, or placed in any stationary position. By observing the different appearances which the materials assume, as the weather changes, it becomes an excellent prognessicator of a coming storm or of a sunny sky.

## Leech Barometer.

Take an eight ounce phial, and put in it three gills of water, and place in it a healthy leach, changing the water in summer once a week, and in winter once in a fortnight. and it will most accurately prognosticate the weather. If the weather is to be fine. the leach lies motionless at the bottom of the glass and coiled together in a spiral form; if rain may be expected, it will creep up to the top of its lodgings and remain there till the weather is settle to if we are to have wind, it will move through its habitation with amazing swiftness, and sold on goes to rest till it begins to blow hard; if a remarkable storm of thunder and rain is to succeed, it will lodge for some days before almost continually out of the water, and discover great uneasiness in violent throcs and convulsive-like motions; in frost us in clear summer-like weather it lies constantly at the bottom; and in snow as in rainy weather it pitches its dwelling in the very mouth of the phial. The top -hould be covered over with a piece of muslin.

To MEASURE GRAIN IN A BIN.—Find the number of cubic feet, from which deduct onesofth. The remainder is the number of bushels—allowing, however, one bushel extra to every 224. Thus in a remainder of 224 there would be 225 bushels. In a remainder of 448 there would be 420 bushels, &c.

# VALUABLE RECIPES.

[The following recipes are youched for by ! several who have tried them and proven their virtues. Many of them have been sold singly for more than the price of this book .- Pun.]

### HORSES.

RING BONE AND SPAVIN. -2 oz. each of Spanish files and Venice turpentine; 1 oz. each of agua ammonia and cubrorbium : M on, red precipitate; Voz. corrosive subli-mate; 14 lbs. lard. When thoroughly pul-verized and mixed, heat carefully so as not

out the matter on each application.

potash h oz; extract of behad onto hy dr. Put the gum in just enough water to dissolve it. Pulyerize the potash and mix with the dissolved gum, and then put in the once a week, until they disappear. extract of boiledonna, and it will be ready for use. Use with a syringe after having cleansed with soap suds, and repeat once in two days till a cure is affected.

Scouns .- Powdered termentil root, given in milk, from 3 to 5 times daily till cured.

GREASE-HEEL AND SCRATCHES.—Sweet oil 6 ozs.; borax 2 ozs.; sugar of lead 2 ozs. Wash off with dish water, and, after it is dry, apply the mixture twice a day.

Cholic in Horses.-To & pt. of warm water add 1 oz. laudanum and 3 ozs. spirits of turpentine, and repeat the dose in about % of an hour, adding % oz. powdered aloes, if not relieved.

Bors .- Three doses, 1st. 2 qts milk and of 30 minutes, sufficient lard to physic .-Never fails.

## MISCELLANEOUS.

PILE - PERFECTLY CURED. - Take flour of sulphur 1 oz., rosin 3 ozs., pulverize and mix well together. (Color with carmine or cochineal, if you like.) Dose-What will lie on a five cent piece, night and morning. washing the parts freely in cold water once or twice a day. This is a remedy of great

The cure will be materially hastened by taking a table-spoon of sulphur in a half pint of milk, daily, until the cure is affected.

Verified and mixed, next carcingly 90 as not to barn, and pour off free from solument.

For ring-bone, rub in thoroughly, after Cumulana.—Take of nitric and mariatic removing hair, once in 45 hours. For spay, lacids, blue vitrol and salts of ratter, 1 oz. in, once in 24 hours. Change and press each. Add the blue vitrol, pulverized, to either of the acids; add the saits of tartar in the same way; when done foaming, add Poll-Evil .- Gum arabic of oz; common the other acid, and in a few days it will be ready for use. For chilblains and corns apply it very lightly with a swab, and repeat in a day or two until cured. For warts.

> HOOF-AIL IN SHEEP.-Mix 2 ozs, each of butter of antimony and muriatic acid with 1 oz. of pulverized white vitriol, and apply once or twice a week to the bottom of the

COMMON RHEUMATISM .- Keresene oil 2 ozs.; neats-foot oil 1 oz.; oil of organum & or. Shake when used, and rub and heat in twice daily.

VERY FINE SOAP, OCICRLY AND CHEAP-LY MADE, -Fourteen pounds of bar soap in a half a boiler of hot water; cut up fine; add three pounds of sal-sorla made fine; one ounce of pulverized rosin; stir it often till all is dissolved; just as you take it off the fire, put in two table-spoonfals of spirits of turpentine and one of ammonia; pour it in a barrel, and fill up with cold soft water: 1 of molasses. 2d. 15 minutes after, 2 qts. let it stand three or four days before using, warm sage tea. 3d. After the expiration it is an excellent soap for washing clothes. extracting the dirt readily, and not fading colored articles.

WATER PROOF FOR LEATHER .- Take lin- ! seed oil 1 pint, yellow wax and white turpentine each 2 ozs. Burgundy pitch 1 oz., melt and color with lampblack.

To KEEP CIDER SWEET .- Put into each barrel, immediately after making, % lb. ground mustard, 2 oz, salt and 2 oz, pulverized chalk. Stirthem in a little cider, pour them into the barrel, and shake up well.

AGUE CURE. - Procure 11/2 table-spoons of fresh mandrake root juice, by pounding) and mix with the same quantity of molasses, and take in three equal doses, 2 hours a part, the whole to be taken I hour before the chill comes on. Take a swallow of some good bitters before meals, for a couple of weeks after the chills are broken, and the cure will be permanent.

CURE FOR SALT RHEUM OR SCURVY .-Take of the pokeweed, any time in summer : pound it : press out the juice : strain it into a pewter dish; set it in the sun till it i becomes a salve—then put it into an earthen mug; add to it fresh water and bees' wax sufficient to make an ointment of common consistency; simmer the whole over a fire till thoroughly mixed. When cold, rub the part affected. The patient will alfects, and the most obstinate cases will be cured in three or four months. Tested .-The juice of the ripe berries may be prepared in the same way.

SUPERIOR PAINT-FOR BRICK HOUSES,-It outlasts oil paint.

FELONS.-Stir 1 oz. of Venice turpentine with 1/2 tea-spoonful of water, till it looks like candled honey, and apply by spreading upon cloth and wrapping around the finger. If not too long delayed will cure in 6 hours.

A poke root poultice is also said to be a sure remedy.

WATER PROOF BLACKING AND HARNESS Polish.—Take two and a half ounces gum shellac and half a pint of alcohol, and set in a warm place until disselved; then add two and a hulf ounces Venice tarpentine to nentralize the alcohol; add a table spoonful of lampblack. Apply with a fine sponge, It will give a good polish over oil or grease.

Mosquiros .-- To'get rid of these tormentors, take a few hot coals on a shovel, or a chaing dish, and burn upon them some brown sugar in your bed-rooms and parlors, and you effectually banish or destroy every mosquito for the night.

CHEAP OUTSIDE PAINT .- Take two parts (in bulk) of water lime ground fine, one part (in bulk) of white lead ground in oil. Mix them thoroughly, by adding best boiled linseed oil, enough to prepare it to pass through a paint mill, after which temper with oil till it can be applied with a common paint brush. Make any color to suit. It will last most immediately experience its good ef- three times as long as lead paint, and cost not one-fourth as much. IT is SUPERIOR.

CURE FOR A COUGH .- A strong decoction of the leaves of the pine, sweetened with loaf sugar. Take a wine-glass warm on 20ing to bed, and half an hour before eating, To lime whitewash, add for a fastener, sultitree times a day. The above is sold as a phate of zinc, and shade with any color you cough syrup, and is doing wonderful cares, choose, as yellow other, Venetian red, etc., and it is sold at a great profit to the manufacturers.

## How to Judge a Horse.

A correspondent, contrary to old maxims, up lertakes to judge the character of a horse by outward appearances, and offers the fol-lowing suggestions, the result of his close observation and long experience:

If the color be light sorrell, or chestnut, his feet, lors and face white, these are marks of kindness. If he is broad and full between the eyes, he may be depended on as a horse of good sense, and capable of being trained to anything.

As respects such borses, the more kindly you treat them the better you will be treated in return. Nor will a horse of this description stand a whip, if well fed.

If you want a safe horse, avoid one that is dish-faced. He may be so far gentle as not to scare; but he will have too much go-ahead in him to be safe with everybody.

If you want a fool, but a horse of great bottom, get a deep lay, with not a white those who have to ted it is a hair about him. If his face is a little dish- weld Timothy hay, as taken ed, so much the wors. Let no man ride, -they are always tricky and ansafe.

If you want one that will never give out. never buy a large, overgrown one.

A black horse cannot stand heat, nor a white one cold.

If you want a gentle horse, get one with more or less white about the head; the more the better. Many persons suppose the parti-colored horses belonging to the circuses, shows, &c., are solv ted for their oddity. But the selections thus made are on account of their great docility and gentleness.

Measurement of Hay in the Mow or Stack, -It is often desirable, where conveniences for weighing are not at hand, to purchase and sell hay by measurement. It is evident that no fix drugg will answer in all cases, as it would require more cubic feet at the top of a mow than at the bottom. The general rule adopted by those who have to-tod it, is 7% cubic feet of solid Timothy hay, as taken from mow or hottom of stack. The rule may be varied such a horse that is not an adept in riding for upper part of mow or stack according | to presente.

EXPLANATION.—Find the Year and observe the Letter above it; then look for the Menth, and in a line with it find the Letter of the Year; above the Letter find the Day; and the figures on the left, in the same line, are the days of the same name in the month.

Leap Years have two letters; the first is used till the end of February, the second during the remainder of the year.

# ONEIDA COUNTY.

ONEIDA COUNTY. named from the Oneida Indians, who owned and inhabited this and some adjoining counties, was formed from Herkimer, March 15, 1798. Lewis and Jefferson were taken off in 1805, and a part of Oswego in 1816. In 1801 a part was annexed to Clinton County, and in 1836 a part was annexed to Madison County. In 1804 a part of Chenango was annexed. The County lies near the center of the State, is about one hundred miles from Albany and contains 1,215 square miles. The central part consists of a broad valley, nearly level, extending east and west, and from it the surface rises into a broken and hilly region. The highlands occupying the south part are arranged into ridges extending north and south, the highest summits on the south border being from six hundred to one thousand feet above the valley of the Mohawk. North of the central valley, the surface rises abruptly to the height of eight hundred to twelve hundred feet and spreads out into a nearly level plateau, broken only by the ravines of the streams. The east part of the central valley is drained by the Mohawk, flowing east, and the west part by Wood Creek which flows west. This valley affords a natural pass from the Hudson to the great lakes, and is the lowest pass through the great Appalachian Mountain System.

The Mohawk River rises upon the north border of the County and flows in a southerly direction to Rome, thence south-east to the east border of the County. Nine Mile Creek and Lansing Kil are its chief tributaries from the north, and Sauquoit and Oriskany Creeks from the south. Black River flows across the north-east corner of the County, and West Canada Creek forms a part of the eastern boundary. The head branches of the Unadilla and Chenango drain the south border, and Oneida, Wood and Fish Creeks, the western part. Oneida Lake extends for several miles along the west border

and is the only large body of water in the County. There are several small lakes and ponds in the extreme north-east corner.

The rocks of the County present a great variety of geological formations, including nearly the whole series lying between the gneiss, which covers the north-east part, and the Hamilton group, outcropping upon the southern hills. The Trenton limestone, Utica slate, Oneida conglomerate and Clinton group, have received their names from being so distinctly developed in this County. The useful minerals are not wanting in this County, but consist of the lenticular clay iron ore of the Clinton group, bog ore in the swamps near Oneida Lake and magnetic ore in the north-east part. Marl and peat have been found in some places. Water-lime and gypsum quarries have been worked to some extent. A great variety of building stone of excellent quality is found in different parts of the County and is extensively quarried. Mineral springs are found in several places and will be noticed in the towns where they are situated. In the north-east part, the soil, which is derived chiefly from the disintegration of the primitive rocks, is light and sandy, and produces scanty vegetation. This region is more sparsely settled than other parts of the County, and is capable of supporting only a small number of inhabitants. The central valley is one of the most fertile portions of the State. The soil consists of a fine quality of sandy and gravelly loam and alluvium, finely tempered with lime and gypsum. The highland region, south of the Mohawk, has a soil composed of clay and sandy and gravelly loam, and is best adapted to pasturage.

The richness and diversity of the soil in this County render it one of the best agricultural regions in the State. Agriculture is the chief occupation of the people, the principal branches of which are grain raising in the valleys, and dairying and stock raising upon the hills. Hops are largely cultivated in the towns in the south part. The manufactures are extensive in Utica and in the villages along

the Sauquoit and Oriskany Creeks.

The County is a half-shire, Rome and Utica sharing in the County buildings and business of the courts. The County Seat of Herkimer County was originally located at Whitestown, and upon the division of the County the records were retained by Oneida. The act erecting Oneida County directed the first courts to be held at the school house near Fort Schuyler (Rome), and required the Court House to be built within one mile of the fort. By an act of April 6, 1801, Thomas Jenkins and Hezekiah L. Hosmer, of Hudson; John Thompson, of Stillwater, and Dirk Lane, of Troy, were appointed to locate the Court House and Jail of Oneida County. These buildings were completed several years afterwards, and the courts were held here and at Whitesboro during many years. The Court House and Jail at Rome were burned about 1848, and re-

built within three years. The Clerk's Office was removed to Utica in 1816, and the academy at that place was used for holding courts for several years. A new Court House was built at Utica in 1851-53. The first County Officers were: Jedediah Sanger, First Judge; George Huntington and David Ostrom, Judges; Jonas Platt, Clerk; William Colbraith, Sheriff, and Arthur Breese, Surrogate. The Court Houses and Jails at both places are well built and conveniently arranged. The Clerk's Office is a fire-proof build-

ing, located at Utica.

The County Poor House is situated upon a farm of 120 acres, about two miles south-west of Rome. The building is a substantial brick structure, the main portion of which is three stories high with two wings two stories high. It was erected in 1860 and is capable of accommodating five hundred persons. There is only one structure of the kind in the State that surpasses it in accommodations. There is a chapel in connection with the institution that will accommodate about two hundred. The insane patients occupy a separate building and receive the best of care. The products of the farm in 1867 were as follows: Seventy-five tons of hay, six of corn fodder, 1,050 bushels potatoes, 285 bushels corn, ten of beans, 75 of onions, 260 of beets, 105 of carrots, 170 of turnips, 11 of peas, 6 of parsnips, 2,415 heads of cabbage, 1,935 pounds of pork killed, and 2,-530 pounds of beef. The stock upon the farm consists of three horses, one yoke of oxen, sixteen cows, four yearlings and thirty swine. During the year, \$777.79 were received for strawberries, and \$145.92 for vegetables raised in the garden of the Poor House.

The total expense of maintaining the poor at the County House for the year ending November 1st, 1868, was \$34,851.52.

From a report to the Board of Supervisors of 1868 we find that the number of dogs taxed in the County last year was 4,467; the number of sheep killed or injured by dogs, 520, and the damages allowed for such sheep, \$2,874.54 This noust be acknowledged a very moderate supply of mutton for such a number of dogs.

A number of public works center in this County and pass through it. The Eric Canal extends through Utica, Whitestown, Rome and Verona. The Chenango Canal extends south from Utica, up the valley of Oriskany Creek, through New Hartford, Kirkland, Marshall, and a corner of Augusta, connecting with the Susquehanna River at Biughamton. The Black River Canal extends north from Rome, along the valleys of the Mohawk and Lansing Kil, through Western and Boonville, connecting with Black River above Lyons Falls in Lewis County. The Oneida Lake Canal extends west from Rome to Wood Creek, and along that stream to its mouth. This Canal is now closed. The New York Central Railroad extends through Utica, Whitestown, Rome and Verona. The Black River and Utica Railroad extends from Utica north, through Marcy, Trenton, Remsen and Steuben, to Bontville. The Rome, Watertown and Ogdensburg Railroad extends from Rome, north-west, through Annsville and Camden. The Utica, Chenango and Susquehanna Valley Railroad extends south-westerly through New Hartford, Paris and Sangerfield, to Sherburne, Chenango County. This road has recently been put in operation. The Utica, Clinton & Binghamton Railroad extends through New Hartford, Kirkland and Marshall; it is now open to Oriskany Falls.

The first newspaper published in the County was

The Western Centinel, commenced at Whitesboro, in January, 1794, by Oliver P. Eaton, who was succeeded by Mr. Lewis, and afterwards by Lewis & Webb. The paper was continued about six years.

The Whitestown Gazette was commenced in June, 1796, by William McLean. In 1798 it was removed to Utica and its name

changed to

The Whitestown Gazette and Cato's Patrol. In 1803 it was pur-

chased by John II. Lathrop and soon after merged in

The Utica Patriot, commenced by Asahel Seward and Ira Merrill, Mr. Merrill continuing as editor. In 1811 it passed into the hands of William II. Maynard, and in 1816 it was united with

The Patrol, commenced in January, 1815, by Seward & Wil-

liams, and the combined paper was published as

The Patriot and Patrol, W. H. Maynard, editor, and Seward & Williams, publishers. In 1821 its name was changed to

The Utica Sentinel. In 1825 it was united with the Columbian

Gazette and published as

The Sentinel and Gazette. In 1828 S. D. Dakin became proprietor, and in 1829 he sold to Rufus Northway and D. S. Porter. In 1831 Mr. Porter withdrew. In 1834 Mr. Northway united the Elucidator with it and changed its name to

The Oneida Whig. In 1848 it was merged in the Oneida Weekly

Herald. In 1842 Mr. Northway commenced

The Utica Daily Gazette. William Allen and R. U. Sherman were the editors. Erastus Clark, Wm. H. Underhill, Ezekiel Barron, Alexander Seward, H. C. Potter, J. M. Lyon, John Arthur, N. D. Jewell and Ellis H. Roberts, were successively interested in its publication. In January, 1857, it was united with

The Utica Morning Herald and assumed the name of the

UTICA MORNING HERALD AND DAILY GAZETTE, and is still published by Ellis H. Roberts.

UTICA WEEKLY HERALD is issued from the same office, by

the same proprietor.

The Columbian Patriotic Gazette was commenced at Rome, by Thomas Walker and Ebenezer Eaton, in August, 1799. In 1800 Mr. Eaton retired, and in 1803 the paper was removed to Utica and published as

The Columbian Gazette, and in 1825 it was united with the Utica

Sentinel, by Wm. J. Bacon and S. D. Dakin.

The Elucidator was commenced in 1829, by B. B. Hotchkin, editor, and W. Williams, publisher. It was united with the Oneida Whiq in 1834.

The Oneida Morning Herald was commenced by R. W. Roberts, R. U. Sherman and George R. Colston, in November, 1847. A weekly edition was also published, called

The Oneida Weekly Herald. In 1848 Mr. Colston withdrew, and in 1857 the papers were united with the Utica Daily Gazette.

Utica Christian Magazine was commenced by the Oneida Association and Presbytery in 1813, and was published about three

The Club was published at Utica by Henry Goodfellow & Co.,

about three months in 1814.

The Civil and Religious Intelligencer was started in 1815, at Sangerfield, by Joseph Tenney. In 1825 it was changed to

The Sangerfield Intelligencer, and in 1835 it was removed to Fa-

bius, Onondaga County.

The Utica Observer was commenced by E. Dorchester in 1816. In 1818 it was removed to Rome and its name changed to

The Oneida Observer. In 1819 it was returned to Utica and its original name was resumed. A. G. Dauby, E. A. Maynard, Eli Maynard, C. C. Griffith, John P. Bush, John F. Kittle and A. M. Beardsly, were successively interested in its publication. In 1848

a daily edition was issued called

THE UTICA DAILY OBSERVER. In 1853 the papers were united with the Utica Democrat and were published by DeWitt C. Grove until January 1st, 1867, when E. Prentiss Bailey became interested in the publication under the firm name of Grove & Bailey, by whom the paper is still published. The weekly edition is called the

OBSERVER AND DEMOCRAT.

The Ctica Democrat was commenced by John G. Floyd in 1836. It was successively published by Edward Morris, Jarvis M. Hatch and Benjamin Welch. In 1853 D. C. Grove became owner and united it with the Observer.

The Utica Christian Repository (monthly), was commenced by Merrill & Hastings in 1822, Wm. Williams, publisher. About

1825 its name was changed to

The Western Recorder, a weekly religious paper, G. Tracy, pub-

lisher.

The Baptist Register was commenced by Elders Galusha and Wiley. In 1825 it was published under the auspices of the Baptist denomination; Alex. Beebe, editor, and Cephas Bennett, publisher. In 1830 it was leased to Bennett & Bright for five years; and in 1835, the lease was renewed for seven years. In 1840 Mr. Bright withdrew. It was successively published by Bennett, Backus & Hawley, Dolphus Bennett, A. M. Beebe and D. Bennett, and in 1854 it was sold and united with the New York Recorder, of New York City.

The Baptist Sunday School Journal (monthly) was commenced

in 1828 by C. Bennett.

The Universalist (monthly) was commenced at Utica by Rev. J. S. Thompson, L. R. Smith and G. B. Lislier, in 1825. It was removed to Philadelphia the next year.

The Western Sunday School Visitant and Christian Miscellany

was commenced at Utica, by G.S. Wilson, in 1826.

The Utica Intelligencer was commenced by E. S. Ely in 1826. In 1830 Joseph H. Buckingham became editor, and Joseph Colwell, publisher, and in 1831 the paper was united with

The Mechanics' Press, which was commenced in 1829 by J. M. Todd & W. Schram. The united papers were published for a

time as

The Utica Intelligencer and Mechanics' Press, by Joseph Colwell,

proprietor.

The Utica Magazine was commenced in 1827. It soon passed into the hands of Rev. Dolphus Skinner, who issued it semi-monthly as

The Econgelical Magazine. In 1830 he united it with the Gospel Advocate, of Auburn, and published it weekly as the

Evangelical Magazine and Gospel Advocate. In 1851 it was merged in the

Christian Ambassador, since published simultaneously in New York and Auburn.

The Gospel Messenger was commenced at Auburn, by Rev. John C. Rudd, in 1827, and was removed to Ctica about 1835 and published as

The Gospel Messenger and Church Record. Wm. A. Matson succeeded Mr. Rudd as editor. He was succeeded by Rev. Wm. T. Gibson, D. D., the present editor. It is now published as

THE GOSPEL MESSENGER, by Grove & Bailey.

The American Citizen was published at Utica by George S. Wilson, in 1830, Bennett & Bright, printers.

The Christian Journal was published at Utica in 1830, by E. S.

Barrows.

The Co-Operator, a semi-monthly, was published at Utica in 1832, by Quartus Graves; M. R. Bartlett, editor.

The Lever was published at Utica, by W. S. Spear, in 1832.

The Oneida Democrat was commenced at Utica in 1833, and continued about two years.

The Oneida Standard was commenced at Waterville in 1833. It was subsequently removed to Utica, and after the Democrat was discontinued it assumed the name of

The Standard and Democrat, Quartus Graves, publisher. In 1835, on account of its abolition sentiments, the office was entered by a mob and a part of the type and furniture thrown into the streets.

The Friend of Man was commenced at Utica in 1836, by the New York State Anti-Slavery Society; Wm. Goodell, editor. In 1841 Stanley P. Hough became editor, and in 1842 Wesley Bailey became proprietor, and united with it the Abolitionist, of Cazenovia, and changed the name to

The Liberty Press. It was discontinued in 1849.

The Utica Tectotaler was commenced by Wesley Bailey in 1849. In 1856 A. K. Bailey became proprietor. In 1858 it was united with the Ilion Independent, the new paper taking the name of

The Central Independent, under which title it was published by G. W. Bungay and A. K. Bailey, editors, until 1860, when it was merged in the Utica Weekly Herald.

Youth's Miscellany was published at Utica, by Bennett & Bright,

in 1834.

The Christian Visitant (monthly) was published at Utica, by A. B. Groosh, in 1835.

The Talisman was published at Utica, by Bennett & Bright, in 1835.

Mothers' Monthly Journal was published at Utica, by Kingsford, Bennett & Bright, in 1836.

The Examiner was published at Utica in 1836, and The Freeman in 1837, both by E. Dorchester.

Y CENHADWR AMERICANAIDD (a monthly) was published in Welsh at Utica, in 1832. In 1834 it was removed to Steuben, and has since been published by Rev. Robert Everett, D. D.

Anti-Slavery Lecturer was published at Utica a short time, by Wm. Goodell, in 1839.

Y CYFAILL (Welsh) was removed from New York, by Rev. W. Rowlands, in 1841. In 1844 it was returned to New York. In 1854 it was removed to Rome, and in 1857 to Utica. It was published by Thomas Jenkins until 1861. From 1861 to 1867 it was published by Rev. Wm. Rowlands, D. D. It is now published by Mrs. Wm. Rowlands and edited by M. A. Ellis.

Central New York Washingtonian was published at Utica and

Rome in 1842.

The Wesleyan Methodist was commenced at Utica, by David Plumb, in 1841. A paper known successively as the Cortland Luminary, Reformed Methodist Intelligencer and Fayetteville Luminary, was united with it and the name changed to the

Methodist Reformer. In 1842 it was removed to Cazenovia, and soon after to Utica; W. Bailey, publisher. In 1843 it was merged

in the True Wesleyan of New York City.

The Utica Daily News, the first daily paper in Utica, was commenced by Joseph M. Lyon, John Arthur, C. Edwards Lester and Jarvis M. Hatch, in January, 1842. It was continued about seven months.

The Uticanian was published a short time, by Squires & Soliss, in 1842.

THE AMERICAN JOURNAL OF INSANITY (quarterly) was commenced by Dr. A. Brigham, in 1843, and was edited for a time by Dr. T. R. Beek. It is now edited by the officers of the Asylum.

The Washingtonian was published at Utica, by J. C. Donaldson,

in 1843.

Cysell Hen Wladyn Americanaidd (Welsh) was published at Utica, by E. E. Roberts, in 1843.

Young Ladies' Miscellang was published at Utica, by Bennett,

Backus & Hawley, in 1843.

Seren Orllewinol (Welsh) was commenced at Utica in June, 1844. In 1846 it was removed to Pennsylvania.

Washingtonian News was published at Utica, by Matteson

Baker, in 1845.

The Clinton Signal was commenced by Paine & McDobald in 1846. In 1848 its name was changed to

The Radiator, and in 1540 the original name was resumed. In 1850 it was published as the

Oneida Chief, by Ira D. Brown. In 1855 it passed into the hands of Francis E. Merritt, and in 1857 into the hands of John H. Osborn, who changed its name to the

CLINTON COURIER. It was subsequently published by M. D. Raymond until September 1868. It is now published by Raymond Brothers.

The Central News was published at Utica, by M. Baker, in 1846. Haul Gomer, (Welsh), a semi-monthly, was commenced in 1847 and issued one year.

The Central City Cadet was started at Utica in 1849, by James & Howard. In 1850 it was changed to

The Cadet's Banner, and was discontinued soon after.

The Equalizer, a campaign paper, was published at Utica in 1850. The Opal, a monthly, was commenced in 1851. It was edited and printed by patients in the Insane Asylum. It is now discontinued.

The American Free Missionary was removed from McGrawville to Utica in 1850 or 1851.

The American Baptist was commenced by the Free Mission Society, in 1850; Wm. Walker, editor. In 1856 it was removed to New York City.

The Diamond, a monthly, boys' paper, was published at Utica two months, in 1850, by A. K. Bailey, E. Wetmore and C. W. Butler.

The Northern Farmer, monthly, was commenced at Utica in January, 1852, and continued until 1860. It was edited by T. B. Miner.

THE RURAL AMERICAN was commenced at Utica in January, 1856, as a semi-monthly. In January, 1859, it was published weekly and continued to 1861. The publication was then suspended until 1863, when it was revived as a semi-monthly and continued until October, 1868, when it was changed to a monthly. T. B. Miner is its editor and proprietor.

Mechanics' National Reporter was published at Utica a short time in 1851.

The Utica Evening Telegraph was commenced by Thomas R. McQuade, J. F. McQuade, editor, in May, 1852. In February, 1858, the office was burned. The publication was resumed in May and continued until May, 1867.

The Scientific Daguerreian, monthly, was commenced at Utica, by D. D. T. Davis and Guerdon Evans, in January, 1853.

Y Gwyliedydd (Welsh) was published at Utica, by a company, in 1854; Morgan Ellis, editor. In 1856 it was removed to New York City and united with

Y DRYCH, which was removed to Utica in 1860, and published by J. W. Jones. The paper has a large and increasing circulation, and is the recognized national organ of the Welsh people of the United States. It is now published by J. Mather Jones.

Young Folks' Advocate, monthly, was commenced at Utica in July, 1858. Edited by T. B. Miner.

The Civil and Religious Intelligencer was published at Sanger-

field in 1818.

THE ONEIDA DEMOKRAT, a semi-weekly paper in the German language, was started in Utica, by Paul Keiser & Co., in 1853. It is now published by J. C. Schreiber.

The Rome Republican was commenced by Lorin Dewey in February, 1825. Chauncey Beach succeeded as publisher in May, and

in 1830 the paper was united with the

Oneida Republican, which was commenced in June, 1828, by J.

P. Van Sice, under the title of

The Republican. In 1831 E. Moon purchased and enlarged the

paper and changed the name to the

Rome Telegraph. James N. Harris, John Boyd, H. A. Foster, and others, were successively interested in its publication. In 1838 it passed into the hands of R. Waldby, who changed its name to the

Democratic Sentinel; Calvert Comstock, editor. In 1840 L.D. Dana became editor; and in 1845 H.T. Utley and S. W. Morton purchased it and changed the name to the

ROME SENTINEL. In September, 1846, Morton sold to A. G. Rowley, and in 1847 Utley sold to A. G. Rowley & Co.; E. Comstock, editor. In 1850 Rowley became sole proprietor, and in January, 1852, sold to Elon Comstock. In July, 1861, Wood & Larwill became the proprietors, and continued its publication until December, 1863, when Warren & Beers became its publishers and continued until June, 1864, when it passed into the hands of Franklin D. Beers and Augustus C. Kessinger, its present publishers.

Rome Daily Sentinel was commenced by C. & E. Comstock, in connection with the Rome Sentinel, in July, 1852. In October, 1854, D. E. Wager and D. C. Rowley purchased one-half, and in April, 1855, the remainder of the establishment. In 1860 its publication was suspended.

The Vernon Courier was commenced in July, 1835. In 1840 it

was removed to Rome, and its name changed to

THE ROMAN CITIZEN: C. B. Gay, editor, and H. N. Bill, proprietor. J. K. Kenyon, J. P. Fitch, Alfred Sandford, George Scott, G. H. Lynch, A. D. Griswold and A. C. Sandford, were successively interested in its publication. In October, 1854, A. Sandford became sole proprietor. In 1855 the office was burned. The publication of the paper was soon after resumed by Mr. Sandford. In 1866 E. E. Carr purchased an interest and it has since been published by Sandford & Carr.

The Compass was published at Verona in 1840.

The Parlor Journal and Literary News Letter of Central New York (monthly) was published at Rome, by Graham & Co., in 1843.

The Primitive Christian (semi-monthly) was published at Rome, by Rev. H. Mattison, in 1845.

The Camden Gazette was published at Camden, by Munger & Stewart, in 1842.

The Spiritual Magazine (monthly) was published at the Oneida Reserve in 1848.

The Oneida Mirror was published at Camden, by Edward Pickard, in 1849.

The Central State Journal was commenced in 1850, by L. W. Paine; S. S. Norton, editor. Its name was soon after changed to The Central New York Journal, and in January, 1853, to

The Vernon Transcript; J. R. Howlett, proprietor. In October, 1855, Niles Jewell became a partner; and in 1856 the paper was discontinued.

The Boonville Ledger was commenced by James H. Norton, in March, 1852. It was subsequently published by Ela Kent. In March, 1855, L. C. Childs & Co. purchased it, and changed the name to the

BLACK RIVER HERALD, and continued its publication until March 8, 1862, when it was purchased by H. P. Willard, its present publisher.

The Waterville Advertiser was commenced by R. W. Hathaway in 1851.

The Empire State Health Journal was commenced at Rome, in 1851.

The Waterville Journal was commenced in January, 1855, by A. P. Fuller & Co.; C. B. Wilkinson, editor. It was discontinued in March, 1856.

Y Arweinydd (semi-monthly Welsh) was commenced at Rome in January, 1858, by R. R. Meredith, editor, and Thomas T. Evans, assistant editor. It was discontinued in 1860.

SATURDAY EVENING TELEGRAPH was started at Utica in February, 1868, by David F. Ritchie, its present publisher.

MANUFACTURER'S AND LUMBERMEN'S JOURNAL, an advertising sheet, was started in April, 1867, by the Wood & Mann Steam Engine Company. It is still issued monthly.

THE TEMPERANCE PATRIOT was started in October, 1867, and is still published by W. M. Ireland, editor and proprietor. It is a weekly paper, the organ of the Independent Order of Good Templars, has a circulation of 4,000 and constantly increasing.

THE WATERVILLE TIMES was started in 1857, by McKibbin & Wilkinson, who conducted the paper until 1860, when the office was sold to J. H. Yale, who continued its publication until

November 8th, 1866, when the paper passed into the hands of R. S. Ballard, the present proprietor. It is an independent journal with a circulation of 500 copies.

The Northern Light was started by Johnson & Merritt, who were succeeded by O'Ferrell, who continued its publication until

his death in 1853 or 1854.

The Camden Freeman was started in 1860, by Orlando Squires, who continued the paper until February, 1861, when he sold out to E. Henderson, who changed the name to

The Monitor, under which title he continued it until 1864, with the exception of a few months in 1863. In 1864 it passed into the hands of J. H. Munger, who issued it under the name of the

CAMDEN JOURNAL and still continues its publication.

Camden News was started in January, 1866, by Rev. W. S. Franklin, a Presbyterian clergyman, and C. C. Giles, from Canada. The paper was continued with some interruptions until May 1, 1867, when, from lack of patronage, the subscription list was transferred to the Journal and the press removed to Coxsackie, on the Hudson River.

Christian Weekly Monitor and Sabbath Morning Report was started in June, 1814, at Waterville, by Joseph Tenney. In 1816 it was united with the

THE GENERAL ADVERTISER was started in May, 1866, by John Tillinghast, the present publisher. It is an advertising sheet and issued monthly at Utica.

Civil and Religious Intelligencer, and was continued until 1833. At a very early period of the English occupation of New York, the colonists became acquainted with the wonderful natural channel of navigation that extended through this County, and which, with a short and easy portage, connected the Mohawk with Wood Creek, the great lakes and the fertile regions of the west. In the early part of the last century, plans were proposed for improving this route and for fortifying the most important points upon it. The portage at Rome from the Mohawk to Wood Creek became a point of great importance and was occupied about the year 1725; and a fortification known as Fort Bull was erected upon Wood Creek soon after. On the 27th of March, 1756, this fort was surprised by a party of French and Indians under M. De Lery, who, by an exhausting march of fifteen days, had penetrated through an interior route from La Presentation, on the St. Lawrence. The garrison were unprepared for an attack, and though they made a spirited resistance, were overcome and most of them put to death. Intelligence of the attack was carried to Fort Williams, on the Mohawk, four miles distant, but the force sent to relieve Fort Bull arrived too late to render assistance. The enemy destroyed the

stores and provisions, and retired towards Black River with prisoners and plunder. On the 11th of August, 1756, Oswego was besieged by three thousand regulars, Canadians and Indians, and on the 14th surrendered, after the commander, Col. Mercer, had been killed. Col. Webb, then commanding on the Mohawk, being alarmed at the success of the French, destroyed Forts Williams and Craven, and hastily retreated down the valley to Albany, leaving the frontier to the mercy of the savages. The worst consequences were anticipated from the abandonment of this region, and subsequent events prove that the apprehensions were not unfounded.

The importance of fortifying anew the carrying place between the Mohawk and Wood Creek was soon perceived, and, in the summer of 1758, Fort Stanwix was erected on the site of the present village of Rome. It was named in honor of the English General who erected it, and cost sixty thousand pounds sterling. It was heavily armed, but the war ended without furnishing any occasion for its use. Upon the return of peace it was allowed to fall into ruins. In June, 1776, Col. Dayton was sent to rebuild this fort, and an attempt was made to change the name to Fort Schuyler; this has caused some confusion in the maps and histories of the time. In April, 1777, Col. Peter Gausevoort was ordered to this place with the third regiment of the New York line. Col. Marinus Willett was the second in command, and, while still unfinished, the fort was besieged by Tories and Indians under St. Leger. movement formed part of Burgoyne's plan for reducing the colonists to obedience. St. Leger was to destroy this fort and pass down the Mohawk, and meet his General at Albany, who was to make a clean sweep of everything from Lake Champlain. Leger's force consisted of 1,600 regulars, Tories and Indians. Indians were commanded by Brant. Col. Gansevoort's force was about 700 or 750, according to some accounts. When the siege commenced, the garrison was without a flag. This necessary appendage to the fort could not be dispensed with. Shirts were taken to form the white stripes, and bits of scarlet cloth were joined together as an apology for the red, and the blue was composed of a camlet cloak, furnished by Capt. Swartwout, of Poughkeepsie, an officer of the garrison. This cloak was taken from the British at Peekskill, in 1776, by Col. Willet. Capt. Swartwout was a member of the regiment at the time, and this cloak probably fell to him as his share of the spoils of war. To relieve this post, Gen. Herkimer was sent with a detachment of troops raised in "Tryon County." This army fell into an ambuscade at Oriskany, where a memorable battle was fought. While most of the savages were absent from their camp, a well conducted sortie from Fort Schuyler, by a party under Col. Willett, attacked the camp of the

enemy and took a large quantity of baggage and stores, five British standards and the papers of most of the officers. The discontent which this incident occasioned among the Indians was increased to insubordination by the mysterious reports brought in by the emissaries of the Americans, and on the 22d of August the seige was raised and the enemy retreated by way of Oswego to Montreal. Some of these troops subsequently joined Burgoyne and shared his fortunes. Through the influence of Rev. S. Kirkland and others, the Oneida Indians remained neutral or joined the American cause, and were rewarded by liberal concessions at subsequent treaties.

The first settlements were made in this County previous to the Revolutionary War, but during that long contest every vestige of improvement was swept away. With the advent of peace came the hardy pioneers from New England, and soon the howling wilderness became a fruitful field, nearly every town being settled before the commencement of the present century. The completion of the improvements of the Western Inland Navigation Company, in 1796, added greatly to the facilities of travel and the transportation of freight. The Seneca Turnpike and other thoroughfares were avenues along which settlements rapidly multiplied; mills were erected along the streams and prosperity attended the labors of the citizens. The completion of the Eric Canal and the lateral canals which open into it; the railroads which cross the County in various directions, have all added an impulse to its wealth and prosperity, until it has become one of the first counties in the State in all that goes to make up a prosperous and influential community. The New York and Oswego Midland Railroad, already in process of construction, is located through the west part, and will open a shorter and more direct route to the great metropolis of the nation. The population in 1790 was 1,891, and in 1865 it was 102,713.

The military statistics of this County are too incomplete to enable us to give a very satisfactory record of the part the County took in the suppression of the Great Rebellion. Five regiments were raised in this County, chiefly. The 14th and 26th regiments went forth to fight for the Union and the Constitution in May, 18c1, and though largely recruited they returned in 1863, the former with 340 to be mustered out, and the latter with 350. In 1862 the 97th, 117th and 146th were organized, and, after three years of service, returned with ranks greatly reduced, but with the satisfaction of knowing that the military organizations of the Rebellion were broken up, and the Stars and Stripes were floating in every State in the Union. While men volunteered from the farm, the workshop and the counting room, the patriotic citizens who remained at home contributed liberally for the support of the families of the volunteers and for the various funds raised for sanitary purposes,

which aided so essentially in mitigating the sufferings of the wounded and diseased while in the hospitals. Many of the best and bravest of Oneida's sons sealed with their blood their devotion to their country, and it remains for the survivors to see that the liberties established by the bayonet shall not be lost through neglect of the ballot.

#### GAZETTEER OF TOWNS.

ANNSVILLE, named in honor of the wife of J. W. Bloomfield, the first settler, was formed from Lee, Florence, Camden and Vienna, April 12, 1823. It lies upon the north border of the County, west of the center. Its general surface is somewhat broken by ridges or swells running east and west, and gradually increasing in height towards the north. There are indications that at some period a part of this town was covered by three small lakes, the beds of which are now among the most fertile portions of the town. The east branch of Fish Creek forms a part of the eastern boundary and flows through the south-east part; the west branch of the same stream forms a part of the south boundary. Furnace and Fail Creeks are the principal tributaries of the east branch. On the latter, near its mouth, are three falls, of fourteen, twenty and sixty feet respectively. The streams are all very rapid, affording a more extensive water-power than any other town in the County. There is a great variety of soil, clayey in the south with small sections of sand and gravel, while in other parts it is mostly sandy, gravelly and stony.

Glenmore, (p. v.) near the center of the town, contains a tavern, a store, a grist mill, two saw mills, a school and about a dozen houses.

Taberg, (p. v.) named from an iron-mining town in Sweden, is situated on the east branch of Fish Creek, in the south part of the town, and contains three churches, viz., Baptist, Methodist and Presbyterian; three hotels, six stores, two grist mills, a large saw mill, including the manufacture of lath and shingles, a bag factory, several blacksmith and edge tool shops, two wagon shops and several other mechanic shops of various kinds. The population numbers about 350. In 1809 the Oneida Iron and Glass Company

commenced operations, and during the war of 1812-15, were engaged in the manufacture of shot and shell for the United States. After the close of the war the Company engaged in the manufacture of hollow ware, until 1865, when the business was discontinued. A large tannery is now located near the site of the old furnace.

Taberg Station, (p. c.) on the Rome, Watertown & Ogdensburgh Railroad, eleven miles north-east of Rome, is a hamlet.

Connellsville Station is in the south-west part of the town.

Blossvale is a post-office.

The Annsville and Lee Industrial Association have a Fair Ground of fourteen acres, including a trotting course one mile in length, near the village of Taberg. About three miles westerly from Taberg is "The Pond," a sheet of water covering about ten acres, surrounded by high banks and dry, and having no visible outlet or inlet. No fish were found in the pond when first discovered, but it is now well stocked with bull-heads and trout. The surrounding country, known as Pond Hill, is the highest land in the town.

The first settlement was made in 1793, by John W. Bloomfield, of New Jersey. He purchased a large tract of land and soon built a saw mill and a grist mill. Among other early settlers were Elias Brewster, Adam P. Campbell, Nicholas Armstrong and Squire Fairservice. Mr. Brewster was originally from Connecticut. He came to the County in 1789 or 1790, but did not settle in this town till 1806. His cabin was of the rudest kind; not being able to afford the luxury of glass for his windows, oiled paper was used as a substitute. His nearest neighbors were about two miles distant, in the town of Lee. Wild beasts prowled about the forests, and the flocks and herds of the settlers were protected at night by strong pens and watch-fires. Bears frequently made great depredations upon the growing corn of the settlers. As late as 1827 or 1828 they made their appearance in the town and did great damage.

Dr. Samuel Beach has been a resident of the town for fifty years.

The population of the town in 1865 was 2,685, and its area 36,190 acres.

AUGUSTA was formed from Whitestown, March 15, 1798. A part of Vernon was taken off in 1802, and a part of Stockbridge (Madison Co.) in 1836. This town is included in the south part of the tract leased from the Oneidas in 1794, to Peter Smith, father of Hon. Gerrit Smith, and called the "New Petersburgh Tract." Authorities respecting this tract are somewhat conflicting. It is said by some that this tract was presented to Peter Smith by the Oneidas; by others that it was leased for 999 years, which is about equivalent, and by others that the lease was for only twenty-one years. The tract was divided into four allotments, the first of

which lies wholly within this town. The lease was assumed by the State in 1795-97 and patents were granted to settlers, Smith retaining six lots in the town in part payment for his lease. The first settlers took their lands as tenants under Smith. Part of the Oneida Reservation, purchased in 1795 and sold at auction in 1797, is included in the north part of the town. The town lies upon the west border of the County, south of the center. Its surface is a rolling upland, lying upon two ranges of hills that run north and south through the town on opposite sides of Skanandoa Creek. On these hills are inexhaustible beds of limestone, which have been extensively quarried for fences and building purposes. Oriskany Creek flows through the south-east corner and Skanandoa Creek flows north through near the center of the town. The soil is generally very fertile, varying from a clayey to a sandy loam.

Augusta, (p. v.) situated near the center of the town, contains one church, a store, several mills and mechanic shops, and about

fifty houses.

Knox Corners, (p. v.) situated a little north-west of the center, contains one church, a store and about sixty houses.

Oriskany Falls, (p. v.) in the south-east corner of the town, contains two churches, a hotel, two stores, two woolen mills, a flouring

mill, a saw mill, a machine shop and about 800 inhabitants.

The first settlement was made by a man named Gunn, in 1793. Benjamin Warren built the second habitation for white people within the limits of the town. On the 17th of August of the same year, Ichabod Stafford, Joseph and Abraham Forbes, and their families, settled upon the East Hill. Some of them slept in their cart the first night they lodged in Augusta. Isaac and Benjamin Allen settled here in 1794. Among other early settlers were David Morton, John Alden, Amos Parker, Thomas Cassaty, Ozias and Lemuel Hart, James Reynolds, Abel Prior, Thomas Spafford, Ezra Saxton, Abiel Lindsey and Francis O'Toole. Mr. Parker was a soldier of the Revolution and did gallant service for his country. At one time he saved the life of LaFayette by disobeying orders. In 1824, when LaFayette was the "Nation's Guest." Parker called at his room in Utics and reminded him of the circumstance, when they both "wept, like Joseph and Benjamin, upon each other's neck." Mr. Parker was present at the surrender of Cornwallis.

Francis O'Toole was an educated Irishman, impressed into the service of England while on his way to France to complete his education. He was engaged in a number of battles, and after three years landed in Boston without money or friends. The following incident is copied from Jones's Oneida, and said to have been related to a friend by O'Toole himself: "After he had landed in Boston he went to Hartford, Conn., where he hired to Col. Thomas Seymour, with whom he lived two years. Frank had the fortune

soon to ingratiate himself into the favor of the Colonel and his lady. For the first year he passed as a wild, unlettered Irishman. Upon one occasion Mrs. Seymour kindly proffered her services to teach him to read. Frank, with the greatest possible nonchalance depicted upon his countenance, gravely told her he thought himself too old to commence an education. His benevolent employers were not undeceived as to his knowledge of letters until his second vear's service, and he was then detected as follows: Col. Sevmour had a son by the name of Richard, pursuing his studies at Yale College. Being at home during his vacation, he wished to excite some wonder among the servants in the kitchen by a display of his learning by 'spouting' a sentence in Latin. His pedantry threw poor Frank off his guard, and Richard was retorted upon severely in the same language. This was overheard by Mrs. S. in an adjoining room, who soon made her appearance and told her son she thought he would be very much improved by a further acquaintance in the kitchen. The news soon spread that Col. Seymour's wild Irishman was liberally educated, and he who had been only greated with the epithets of Pat and Paddy was now addressed as Mr. O'Toole." He located in this town in 1794, and remained till his death, in 1842.

In the spring of 1797 five families from Litchfield County, Conn., settled on the road leading south from the center of the town. At the organization of the town in 1798, Gen. Augustus Van Horn promised Col. Thomas Cassaty a new military hat if he would have the town named in honor of him (Gen. V. H.); the name was so near that of the General's that he gave Col. C. the hat.

The first town meeting was held at the house of Timothy Pond, Jr.; Thomas Cassatv was chosen Supervisor, and Joseph Durkee, Town Clerk. Mr. Durkee held the office twenty-four consecutive years. Col. Cassaty was a Justice of the Peace, and administered the oath of office as Supervisor to himself, and certified that the oath was taken before himself. He built the first saw mill, in 1795, at Oriskany Falls, and the next year a grist mill was built. A grist mill was built at Fishville, in 1808, by Charles Fish and Benjamin Gregg, and in 1809 one was erected at the center by Josiah Bartholomew and Eleazar Metcalf. The first birth was that of Peter Smith Gunn; the first marriage that of Daniel Hart and Catharine Putnam, and the first death that of Eleazer Putnam, in 1795. The first merchant was a Mr. Adams, who kept his goods in the house of Ichabod Stafford, in 1798. The first religious services were held in the house of Mr. Fairbanks, in 1794. In 1797 a Congregational Church was formed with nine members, whose names were Isaiah Gilbert, Experience Gilbert, Benjamin Durkee, Susanna Durkee, Thomas Stafford, Lucy Stafford, Ezra Saxton, Abiel Linsley and Anna Linsley. After the formation of

the society, they held services on the Sabbath in school houses, barns, private dwellings, and sometimes in the open air.

The population in 1865 was 2,061, and its area 16,903 acres.

There are twelve school districts, employing thirteen teachers. The whole number of children of school age is 783; the number attending school, 647; the average attendance, 265; and the amount expended for school purposes during the year ending September 30th, 1868, was \$3,099.94.

A V.A, named from a city in Burmah, was formed from Boonville, May 12, 1846. It is the central town on the north border of the County. Its surface is an uneven upland, from 700 to 1000 feet above the Rome level. It is drained by Fish Creek, the east and west branches of the Mohawk, Point Rock and Blue Brooks.—Several small sulphur springs have been found in the town. The soil is a gravelly loam, much better adapted to grazing than to tillage. "The Lake," in the southwest part of the town, is a beautiful sheet of water covering about twenty-five acres, without any visible inlet or outlet. It abounds in fish, chiefly bullheads.

Ava Corners. (Ava p. o.,) situated a little west of the center, contains a hotel, a store, several mechanic shops, a school house and

about a dozen houses.

The first settlement was made by Ebenezer Harger in 1798, upon the east branch of the Mohawk, about three-fourths of a mile east of Ava Corners. Zephaniah and Abner Wood settled soon after Mr. Harger. Philo Harger, Benj. Jones, Lemuel Wood and Justus Beardsley, moved into the town soon after. The first saw mill was built in 1801, by Philo Harger and Benj. Jones, on the east branch of the Mohawk. At this time the few settlers were nine miles from any other inhabitants. For the first few years these pioneer settlers endured great hardships and privations. The old "French Road," leading from Fort Stanwix to Carthage, passed through this town, some portions of which can still be traced. Several tributaries of Black River take their rise in the swamps in the north-east part of the town.

Mr. Luke Harger, son of Ebenezer Harger, the first settler, came into the town with his father and still resides there, having been a resident for seventy years. Solomon Bates settled here in 1800; he was from New Lebanon, N. Y. The first birth was that of Chauncey Harger, in March, 1800. Eli Mitchell has been a resident of the town sixty-one years, and of the County sixty-five

years.

The population in 1865 was 1,121, and its area 23,053 acres.

BOONVILLE, named from Gerrit Boon, agent of the "Holland Land Company." who made the first settlement, was formed from Leyden (Lewis Co.), March 28, 1805. Ava was

taken off in 1846. It lies on the north border of the County, east of the center. Its surface is a hilly, broken upland, from 800 to 1,000 feet above the canal at Rome. Black River flows through the north-east part, and Lansing Kil rises near the center and flows south to the Mohawk. Its soil is a clayey loam, in many places covered with howlders, and often inclining to sand, much better adapted to grazing than to tillage. Near the village are large deposits of drift. In the south part of the town is a section which has received the name of Egypt and is well adapted to grain. There is a gas spring about a mile and a half west of the village, and a sulphur spring about the same distance south. The latter has acquired some local celebrity. The Black River Canal Feeder extends from the river at Williamsville, nine miles, to Boonville village, at which is the summit level; it extends thence along the level two miles, in a south-westerly course, to the ravine of Lansing Kil Creek; following this ravine a number of miles it reaches the valley of the Mohawk at Western.

Boonville, (p. v.) in the north-west part, on the Black River & Utica Railroad, was incorporated in 1855, and contains four churches, viz., Episcopal, Baptist, Methodist and Presbyterian: an academy, a bank, a printing office, four hotels, a flouring mill, a tannery, a chair factory, a wash-board factory, several stores and mechanic shops, and about 1,800 inhabitants.

Hawkinsville, (p. v.) situated on Black River, north-east of the center, contains two churches, viz., German Lutheran and Catholic, a tannery, a carding mill, a grist mill, a chair factory, and about 300 inhabitants.

Alder Creek, (p. v.) in the south-east part, contains two churches, viz., Presbyterian and Baptist, two hotels, a tannery and about twenty houses.

Forest Port, (p. v.) in the south-east part, on the line of Remsen,

is partly in this town.

The first settlement was commenced in 1795, by Andrew Edmunds, agent of the Holland Land Company. During the season a saw mill was erected and other preparations made for the commencement of a settlement. The next year a grist mill was erected. In the spring of 1796 large accessions were made to the settlement, among them were Luke Fisher and son, Phineas, Silas and Martin Southwell, Asahel and Ezekiel Porter, Aaron Willard, Jacob Springer, Jeptha King, Hezekiah Jones and son, a Mr. Stockwell, and three young men by the name of King. Lemuel Hough and Daniel Pitcher were also early settlers. Many of the settlers were in the employment of the Land Company. The Company erected a store in the spring of 1796, and in the fall a building for a tavern.

The first birth was that of a daughter of Jacob Springer, and the first marriage that of Henry Evans and Elizabeth Edmunds. The first church (Congregational) was formed in 1805, and Rev. Daniel Smith was the first minister. There were nine members, five males and four females. The first town meeting was held at the house of Joseph Denning, and Jacob Rogers was the first Supervisor.

The population in 1865 was 4,228, and its area 43,378 acres.

BRIDGEWATER was formed from Sangerfield, March 24, 1797. It lies in the south-east corner of the County. The surface is uneven, consisting of the valley of the west branch of the Unadilla, which runs through it from north to south, and the adjacent hills. This valley is known as "Bridgewater Flats" and is about one mile wide at the north border of the town, but decreases to about half that distance at the south. These Flats are celebrated for their fertility and are highly cultivated. The hills rise on the east and west borders, from 300 to 500 feet above the valley, their declivities being often very steep. The soil in the east is a gravelly loam, and in the west clavey. In the north-east part is a quarry of excellent limestone, for building purposes. The quarry extends over some 300 or 400 acres, and lies about thirty feet higher than the flats opposite. The excavation which forms the valley of the west branch of the Unadilla, has been filled to a great depth with drift, and no rock is found within a great depth from the surface. Cedar swamps extend along many of the streams.

Bridgewater (p. v.) is situated in the south part of the town, and

contains two churches and about 300 inhabitants.

North Bridgewater, (p. v.) in the north part, contains about twenty houses.

Babcock's Hill (p. o.) is a hamlet in the north-east part.

There are several mills in various parts of the town. At the center of the town is a saw mill and a grist mill, on the west branch of the Unadilla. There is also a horse-rake factory in connection with the saw mill.

The first settlement was commenced in 1788, by Joseph Farwell, at a place known as "Farwell's Hill." In March, 1789, Mr. Farwell, in company with Ephraim and Nathan Waldo, removed their families from Mansfield, Conn., to Farwell Hill. They came via Albany and the Mohawk Valley to Whitesboro, thence to Paris Hill. From Paris Hill they were obliged to make their own road, following a lite of marked trees. Their team consisted of two yoke of oxen and a horse, and their vehicle an ox sled. On their arrival, March 4, the snow was about one and a half feet deep, but soon increased to four feet. Their team, with their two cows, subsisted on browse until the spring opened. Their house consisted of four crotches set in the ground, with a roof of split slabs and

hemlock boughs, and siding of blankets. These families lived in this shanty till midsummer. About three years after this Mr. Farwell built the first frame house in the town. Ezra Parker settled in the north part of the town in 1789, erected a log house and kept the first tavern. A Mr. Lyman, Jesse, Joel and Abner Ives, were among other early settlers. For the first two years the settlers were obliged to go to Whitestown to mill, a distance of twenty miles. Mr. Farwell built the first saw mill, in 1790, and Mr. Thomas the first grist mill, in 1792, on land now occupied by it. George L. Foot. In 1792 Ephraim Waldo built the first store and blacksmith's shop in the town. Soon after the settlement of the town, a son of Ephraim Waldo, eight years of age, discovered a young bear asleep in the woods by the side of a log. Eager to secure so valuable a prize, he retreated a short distance to a small elm tree, from which he peeled a piece of bark with which he made a noose, and, creeping softly up, slipped it over the head of the young sleeper and started for home. He had taken the precaution to draw his noose so tight that the cub could make no noise, and though soon followed by the mother of the cub, reached home in safety, the old bear being shot by Jesse Waldo as she approached their residence.

The population in 1865 was 1,252, and its area 14,702 acres. There are eight school districts, employing eight teachers. The whole number of children of school age is 425; the number attending school, 312; the average attendance, 142, and the amount expended for school purposes, \$1,937.69.

CAMDEN was formed from Mexico (Oswego Co.), March 15, 1779. Florence was taken off in 1805, Vienna in 1807, and a part of Annsville in 1823. It lies upon the west border of the County, near the north-west corner. Its surface is rolling, gradually rising towards the north, where it is broken by hills whose summits rise several hundred feet above Oneida Lake. The west branch of Fish Creek flows towards the south-east, diagonally through the town. Mad River, from the north, unites with it near Camden village; and Little River, a tributary of Fish Creek, forms part of the south boundary. There is quite a variety of soil, as well as of surface, in Camden. On the border of Mad River it is a sandy loam and very fertile, while in some other parts of the town it is gravelly and stony, but well adapted to grazing.

Camden, (p. v.) situated between Mad River and a branch of Fish Creek, contains five churches, viz., Methodist, Congregationalist, Presbyterian, Episcopal and Catholic, a union school, six hotels, about a dozen stores of all kinds, two foundries, two flouring and custom mills, two sash and blind factories, one woolen mill, two saw mills, a tannery, four blacksmith shops, two carriage shops.

a chair factory, a distillery, a harness shop, a corset factory and about 1,800 inhabitants.

West Camden, (p. v.) in the north-west part, on Fish Creek, contains a church, a hotel, a tannery, a saw mill and about twenty houses. It is a station on the Rome, Watertown and Ogdensburg Railroad.

Henry Williams was the first permanent settler of this town. Jesse Curtis had previously erected a saw mill, but his family did not arrive until afterwards. Other early settlers were Levi Matthews, Daniel Parke, Seth Dunbar, Joel Dunbar, Aaron Matthews, Thomas Comstock, Jesse Curtis, Elihu Curtis, Samuel Royce, Noah Tuttle, Andrew Tuttle, Benjamin Barnes, Sen. and Jr., Phillip Barnes, Israel Stoddard and Mr. Carrier.

The first birth was that of a daughter of Henry Williams; the first marriage that of Elihu Curtis and Anna Northrup, and the first deaths were those of Mrs. Bacon and child, drowned while crossing the river in a canoe. Elihu Curtis kept the first inn, in 1799, and Timothy W. Wood the first store, about the same time. The first religious society (Congregational) was formed February 19, 1798, by Rev. Eliphalet Steele, pastor of the Congregational Church at Paris Hill. It consisted of eight members, four males and four females. The following are the names of the members of the church at the time of its organization: Benjamin Barnes and his wife Jemima. Noah Tuttle and his wife Thankful, Philip Barnes and wife Laura, Ruth Barnes and Benjamin Barnes, Jr. At an early period the society received a donation of land from the heirs of John Murray, the avails of which bring an annual income of The first frame house was erected in 1797 or 1798, by Jesse Curtis, grandfather of A. Curtis, the banker of Camden village. It was located on the corner of Main and Mexico streets. where F. Snow's store now stands. There were not men enough to raise it, and Miss Margaret Dunbar assisted in the operation. The first male child born in the town was Noah P. Tuttle, now living in Ohio. The first mills were erected by Jesse Curtis in 1797, on the site of the present Camden Mills. Previous to this their milling was done at Paris.

The first foundry was erected in Camden in 1832 by H. McIntyre. In 1840 George Wood bought him out and made important additions. Mr. McIntyre then started the foundry where the firm of Tripp & Fifields are now located.

Several destructive fires have occurred in the village of Camden. On the 28th of June, 1856, a fire on the east side of Main street exended from the store of Cook, Brother & Co., north, to the Park. It has since been rebuilt with brick and is an ornament to the place.

June 22, 1859, a fire, on the same side of the street, extended from McCabe's store, north, to T. D. Penfield's, destroying both the

Episcopal and the Congregational churches.

Among the curious relics of other days is a piece of rock in the possession of V. V. Becker, containing a small iron ball imbedded in it. The rock was taken from the quarries about a mile northeast of Camden village, the ball weighs about an ounce and is coated with rust about an eighth of an inch thick.

On the north-west corner lot, on the barks of Fish Creek, are two springs upon opposite sides of the stream; one is a strong sulphur spring and the other is clear pure water. At high water both springs are overflowed. The flats along the stream are an alluvial deposit, but just at the point whence the springs issue the land is

hard and stony.

Tradition says that during the French war a field piece was loaded with specie and sunk at the junction of Fish and Wood Creeks. Search has been made by the lovers of "filthy lucre," and though some have affirmed that they have found the cannon by reaching it with a pole, the precious contents have not been brought to light. It is probably destined, like many other precious treasures, to remain beyond the reach of mortal hand.

April 25th, 1868, this town was the scene of one of the most atrocious and cold-blooded murders recorded in the annals of criminal trials. The victim was Abbey Elizabeth Sanders, a girl aged eight years and six months, the murderer was William Henry Carswell, a young man residing in the neighborhood. The deed was committed in the day time and only a short distance from her father's house. Carswell was tried at Rome in November following, convicted and sentenced to be hauged.

The population of Camden in 1865 was 3,533, and its area 31,-

382 acres.

The number of school districts is thirteen, employing eighteen teachers. The number of scholars is 1,284; the average attendance, 427; and the amount expended for schools the past year, \$4,526.88.

DEERFIELD was formed from Schuyler (Herkimer Co.), March 15, 1798. Marcy was taken off in 1832. It is situated near the center of the east border of the County. Its surface is mostly a high plateau, from 600 to 1,000 feet above the Mohawk, forming the north continuation of the Hassenelever Mountains of Herkimer County. A broad intervale, partly overflowed in high water, extends along the Mohawk, opposite Utica; and on the north-east the surface descends abruptly to West Canada Creek. The Mohawk flows along the south-west border of the town. The soil upon the flats is a deep, rich alluvial loam, and on the hills a slaty and gravelly loam.

Deerfield Corners (Deerfield p. o.) is in the south part and contains two churches, a hotel, several mechanic shops and about one hundred houses. A thickly settled suburb of Utica extends towards the village. Several hotels, saloons and other business places are located on this street.

North Gage, (p. o.) in the north part, is a hamlet and contains

one church.

The first settlement in this town was made in 1773, by George J. Weaver, Captain Mark Damoth and Christian Reall. They built log houses and remained until 1776, when being informed by a friendly Indian of an intended raid upon their settlement by Tories and Indians, they secreted their furriture in the woods and fled to "Little Stone Arabia," a small fort in the present town of Schuyler. Mr. Damoth received a Captain's commission in a company of rangers, and at an attack upon Herkimer received a wound in the arm from which he never entirely recovered. Mr. Weaver was taken prisoner, carried to Quebec where he was kept in close confinement for nine months, "seeing neither sun, moon or stars during all that time." From Quebec he was taken to England, and after two years was exchanged and returned to his native valley. In the summer of 1784, after all the casualties of war, these three first settlers returned to their farms, to cultivate the land they had cleared years before. About the same time, Peter, Nicholas and George Weaver, George Damoth, Nicholas and Philip Harter, settled in the town. The early settlement of Deerfield was confined to the Mohawk Valley and the adjacent hillsides. Warren Forbes and John Blue were the first settlers at North Gage. George Sheaf, Jacob Coffin, Malcom Johnson and Alexander Walker, settled in the north part of the town about the same time. year 1790, Mr. Solomon Wells settled in the south-west part of the town, on land now owned by his son William Wells.

The first school house erected at North Gage, in 1807, was of logs; Aaron Read was the first teacher. The first bridge across the Mohawk, between Utica and Deerfield, was erected in 1792. As the settlers were few and widely dispersed, it was raised on Sunday to insure more help. The first religious society (Baptist) was organized in 1798; Rev. Oded Eddy was the first pastor. Doctor Francis Guiteau was the first Supervisor of the town, and

Isanc Brayton was the first Town Clerk.

Ex-Governor Horatio Seymour resides in this town. Having twice filled the Executive Chair of the Empire State, he retired from the cares and labors of public life to enjoy the more congenial pursuits of agriculture. In July, 1868, at the National Democratic Convention, he was "caught up by the whelming tide" of party favor, and, contrary to his repeatedly expressed wishes, was made the candidate of his party for the office of President of the United

States. On the fifth of November the American people made choice of General Ulysses S. Grant for that office, and Mr. Seymour again retired to his delightful residence to enjoy in his rural retreat that true happiness to which, as an office-holder, he would be a stranger.

The population of the town in 1865 was 2,071, and its area 22,-

523 acres.

There are eleven school districts, employing eleven teachers. The whole number of pupils is 745; the average attendance, 208; and the amount expended for school purposes for the year ending September 30th, 1868, was \$2,693.89.

FLORENCE was formed from Camden, February 16, 1805. A part of Annsville was taken off in 1823. It is the north-west corner town in the County. The surface is rolling and from 250 to 300 feet above the Rome level of the canal. Mad River flows southeast through the town. The soil is stony and underlaid by the Hudson River shales. A portion of the town is still covered with forests. The soil is better adapted to grazing than to grain. There is a quarry of good building stone on Little River, about half a mile below Florence village.

Florence, (p. v.) situated a little north of the center, contains three churches, viz., Presbyterian, Methodist and Episcopal, a hotel, four stores, a grist mill, two saw and shingle mills, two tanneries and about 400 inhabitants.

East Florence, (p. v.) in the south-east part, contains a church, two stores, a grist mill, two saw and shingle mills, two wagon shops, a school house and about 150 inhabitants.

Empeyville, in the east part, contains a church and about twenty

houses.

Florence Hill is a hamlet, a little south-west of the center of the town.

The first settlements were commenced in 1801, by Amos Woodworth, John Spinning and a Mr. Turner, each of whom received fifty acres of land from William Henderson, the proprietor of the fourth township of Scriba's Patent, as a bonus for commencing a settlement. Charles Crawford, from Massachusetts, settled on lot 147, and Norman Waugh on lot 149. Elijah Blake, the first surveyor, settled on lot 133. Abel Smith, from Connecticut, on lot 119, Nathan Thompson, from Massachusetts, on lot 115, and Oliver Foster, from Connecticut, on lot 114. Other early settlers were Benoni and Ebenezer Barlow, Ambrose Curtis, Ephraim Wright, Joseph Olcott, Benjamin Young, Hiram Fellows, John Cropper and Anthony Empey.

The first town meeting was held at the house of John Spinning; Asa Jenkins was chosen Supervisor, and David Young, Town

Clerk. The first marriage was that of Benjamin Wilcox and Betsey Waugh, in 1803. The first birth was that of a child of Charles Crawford. The first saw mill was erected in 1803, by Hiram Fellows, and the first grist mill, by John Cropper, in 1807. The first religious society (Congregational) was organized December 16, 1816, consisting of ten members. William Dooling owns the first settled farm in the town.

The population in 1865 was 2,467, and its area 32.612 acres.

There are seventeen school districts, employing the same number of teachers. The whole number of scholars is 848; the average attendance, 273; and the amount expended for school purposes during the last year was \$3,224.42.

FLOYD, named in honor of Gen. Wm. Floyd, one of the signers of the Declaration of Independence, was formed from Steuben, March 4, 1796. It lies in the interior of the County, east of the center. Its surface is rolling, rising gradually towards the north border, where it attains an elevation of 200 to 300 feet above the valley of the Mohawk. Nine Mile Creek flows through the south-east part. This creek was called by the Indians Te-ya-nunsak, meaning "a beech tree standing." The soil is good and well adapted to grain and grass.

Floyd Corners, (Floyd p. o.) in the southern part of the town, contains a church, a school, a hotel, two stores, a pump manufac-

tory and about twenty houses.

The first settlement was made about the year 1790, by Capt. Benjamin Pike. Soon after, Stephen Moulton, Jr., William and Nathaniel Allen, and James Chase arrived. Other early settlers were Elisha Lake, Mr. Howard, Hope Smith, David Bryan, Samuel Denison, James Bartlett, Jarvis Pike, Capt. Nathan Townsend, Thomas Bacon and Mr. Putnam; most of them were from Connecticut. Stephen Moulton, Sen., and four other sons moved into the town within a few years after its first settlement. They were from Stafford, Conn., and among the staunchest Whigs during the Revolution, and sacrificed much in the cause of the country. Salmon Moulton was taken prisoner on Long Island and confined in the "Sugar House," where he suffered all the horrors of that notorious prison, only equaled by the sufferings of our brave boys at "Libby," Salisbury and other rebel prisons.

At the first town meeting Stephen Moulton, Sen., was chosen Supervisor, and Moses Coffeen, Town Clerk. The first death in the town was that of Mr. Foster, the second that of Nathan Thompson, who was killed by the fall of a tree. Captain Benjamin Pike kept the first inn, and was succeeded by Moses Coffeen. The first mill in Floyd was erected on Nine Mile Creek at a place called the

"Punch Bowl."

Rev. John Taylor, a Missionary, sent out by the Hampshire County Massachusetts Missionary Society, in 1802, made a tour through the country from Albany to the Black River country. From his Journal we copy the following respecting Floyd: "August 2nd. Started for Floyd, rode 11 miles to a Capt. Rice's. Preached in the evening. I know not what remarks to make upon the inhabitants of this town; a half a dozen excepted, they seem to be the fag-end of man in disorder and confusion of all kinds. Baptists have some regularity, but the Methodists are producing the scenes which are transpiring in Kentucky. Women here, Methodists, pray in their families instead of ye men, and with such strength of lungs as to be distinctly heard by their neighbors. I had almost as many nations, sects and religions present to hear me preach as Peter had on the day of Pentecost. In this town there is an excellent character, Esq. Dier; he tells me that Clinton has given commissions to five men for Justices, in this place, one of whom is a renegade Irishman, without character and without prayer, and another has no bible in his house. In fact, this is a most miserable place, as to inhabitants. The land is good, too good for such inhabitants." Mr. Taylor saw everything through the glasses of a Massachusetts Congregationalist.

The population in 1865 was 1,227, and its area 20,549 acres.

The town contains nine school districts, employing the same number of teachers. The whole number of pupils is 353, the average attendance, 111, and the amount expended for school purpose during the year ending September 30th, 1868, was \$1,554.16.

KIRKLAND, named in honor of Rev. Samuel Kirkland, who came here as a missionary to the Oneida Indians, in 1792, was formed from Paris, April 13, 1827. Marshall was taken off in 1829; a part was annexed to New Hartford in 1834, and a part of Paris was annexed in 1839. It lies in the interior of the County, south of the center. Its surface is a hilly upland, divided into two general ridges by the valley of Oriskany Creek. The hills are from two hundred to five hundred feet high, and the declivities are generally steep. Oriskany Creek flows north-east through the town near the center. The soil is a rich calcareous loam. Near Clinton village are quarries of good building stone. Iron ore is found and a large amount is shipped by the Chenango Canal to various parts of the country. Great attention is paid to fruit growing, and more is raised in this town than in any other in the County. The greatest interest in the town is derived from its extensive educational institutions, which have given it the appellation of the "Literary Emporium of Oneida County."

Clinton, (p. v.) named in honor of Governor George Clinton, was incorporated April 12, 1843. It is a station on the Utica,

Clinton and Binghamton Railroad, and contains six churches, viz., Presbyterian, Episcopal, Baptist, Methodist, Universalist and Roman Catholic; Hamilton College, Houghton Seminary, Cottage Seminary, Clinton Liberal Institute, Rural High School, a news-

paper office, two hotels and about 1,800 inhabitants.

Hamilton College is located in a beautiful park of fifteen acres, laid out in the modern English method, with trees and shrubs scattered over it, singly and in groups, and with carriage-ways and foot-paths winding through its different parts, giving the visitor a view of the entire surface. The principal college buildings, containing the dormitories of the students, are of stone, three in number and four stories high. They are designated as Dexter Hall or North College, Kirkland Hall or Middle College, Hamilton Hall or South College. They are ninety-eight feet long and forty-nine feet wide. The Chapel is of stone, three stories high, eighty-one feet long and fifty-one feet wide, and contains the Lecture Room and Library. The Observatory consists of a central building with two wings on the east and west side. The central building is twenty-seven feet square, two stories high, and surmounted by a revolving tower twenty feet in diameter. The great Equatorial in the tower, constructed by Spencer & Eaton, is one of the finest instruments in the country. Charles A. Spencer, Esq., of Canastota, who still continues the manufacture of optical instruments, has no superior as an optician. The Observatory is furnished with clock, transit instrument and other apparatus necessary for a firstclass establishment. Eight of the Asteroids discovered during the last eight years were discovered at the Hamilton College Observatory. A new building for the Library has recently been erected called the "Perry H. Smith Library Hall," in honor of the principal contributor. The building is two stories high above the basement; seventy-five feet long and fifty wide. The alcoves in the Library Room are arranged in three tiers, one above another, and, with the adjacent walls and the Librarian's rooms, will furnish a place for over 60,000 volumes. Over the entrance hall and Librarian's rooms there is an apartment for a Memorial Hall and Art Gallery, to contain tablets and portraits of the Alumni and other students of the College who have served their country; also portraits and other memorials of the founders of the College, its officers and benefactors. The College and Society Libraries at present amount to 12,000 volumes. They have recently received an accession of the valuable library of the late Edward Robinson. D. D., LL. D., which consists of 1,420 volumes and about 100 valuable maps. The law library of the late William Curtis Noves, numbering about 5.000 volumes, was also bequeathed to the College. The cost of the Library Hall was about \$30,000. Besides the buildings already mentioned, there are a Gymnasium.

a Chemical Laboratory and Hall of Collections in Natural History, which are large and valuable. The movable property of the College, including Library, Apparatus, &c., is valued at \$100,000; the real estate at \$150,000, and the productive funds at \$153,000. From the report to the Regents we learn that the income of the College for 1877 was \$14,451.94, and the expenses for the same time \$15,202.98. The Catalogue for 1868 shows eleven Professors and 171 students. The course of study embraces a collegiate and a law department. The course of instruction in law includes the thorough and careful study of the most approved text books, which are furnished by the Institution and loaned to the student without charge. At the completion of the course the student is entitled to the degree of Bachelor of Laws, and is admitted to practice as an Attorney and Counselor without further examination.

The germ of Hamilton College was Hamilton Oneida Academy, incorporated by the Regents, January 31, 1793, chiefly through the exertions of the Rev. Samuel Kirkland. The next year a commodious building was erected, the corner stone of which was laid with appropriate ceremonies by Baron Steuben; and in the latter part of the same year a school was opened under the charge of Rev. John Niles. Rev. James Murdock was associated with him a part of the time. The Academy was highly successful, and the rapid development of Central New York suggested to its friends the importance of more ample facilities for instruction and an extension of the course of study. After mature deliberation a subscription was opened to endow it as a college, and Stephen Van Rensselaer, the patroon of Albany, headed the subscription with \$1,000, and Govervor Tompkins followed with \$500. Others contributed liberally and "Hamilton College" was chartered May 26, 1812, and went into operation soon after under the Presidency of Rev. Azel Bockus. The College was highly prosperous under his administration, but his career of usefulness was brought to a close by death, December 9, 1816. Rev. Henry Davis, D. D., was elected his successor, and for five years prosperity attended his administration. At length dissensions arose between the President and the Trustees, and insubordination among the students which continued for several years, and came near ruining the Institution. So near the verge of dissolution did it come, that in 1829 and 1830 no class graduated. Better counsels at last prevailed, and the Institution gradually grew in favor until now it occupies an honorable position among the colleges of the State and of the Nation.

The Clinton Liberal Institute was founded in 1832; it is under the patronage of the Universalist denomination and has a male and a female department. The building for the former is of stone, ninety-six by fifty-two feet, and four stories above the basement, and has

accommodations for 100 students. The female department is an elegant structure, 144 by 60 feet, two stories high above the basement.

Home Cottage Seminary is a private institution, established in 1854 as a Ladies' Seminary.

Kirkland (p. v.) is a small village in the northern part, contain-

ing a church and about twenty houses.

Clark's Mills, (p. v.) in the extreme north part, contains an Episcopal Church, a cotton factory, a grist mill and about forty houses.

Franklin Iron Works, (p. v.) near the center, contains extensive iron works, a hotel, a store, and between 200 and 300 inhabitants.

The first settlement of this town was commenced in March, 1787, by eight families; Moses Foote and his three sons, Bronson, Luther and Ira, and his son-in-law, Barnabas Pond, were of the number. Levi Shearman, Solomon Hovey, Ludin Blodget, Timothy Tuttle, Samuel Hubbard, Randall Lewis, Cordial Storrs, John Bullen and Captain Cassety, were among the early settlers. The first habitations were constructed with crotches and poles, sided and roofed with bark. They were without floors, doors or windows. Mrs. Solomon Hovey was the first woman who moved into the town, and something extra had to be provided for her accommodation. Her husband felled a large hollow tree, and cutting off a piece of suitable length, split and hewed off one side, raised it upon the end, fitted several shelves into it and placed it in his shanty for pantry, cupboard and wardrobe. This settlement was made on the site of the present village of Clinton. Gen. Washington was joint owner with Gov. Clinton of quite a tract of land in this County, now embracing valuable farms. The nearest mill was at Whitestown, seven miles from Clinton, and no road, not even an Indian trail, through a part of the distance. Going to mill was a tedious business as there was only one horse in the settlement and that was soon stolen by the Indians. In June, 1787, the settlers cleared a road sufficient for the passage of an ox cart, and the next day Samuel Hubbard drove the first team to Whitestown and returned with six bushels of corn. Capt. Cassety built a grist mill the same season. In September it was so far completed as to be ready to commence business. Sam'l Hubbard, Ludin Blodget, Jesse Catlin and Salmon Butler, each shelled a peck of corn and then cast lots to see who should carry the grist to mill. The lot fell upon Mr. Hubbard, who took it upon his shoulders to the mill, where it was ground free of toll, it being the first grist ground. A saw mill was erected the next year.

The first child born in the town was Clinton Foote; the first marriage that of Roger Leveret and Elizabeth Cheseborough, and the first death that of Miss Merah Tuttle, a young lady of 17,

drowned in Oriskany Creek. Skenandoah, ar Oneida Chief, died in March, 1816, aged 110 years. On Sunday, the 8th of April, 1787, the first religious services were held in the cabin of Capt. Foote. The exercises consisted of prayer by Capt. Foote, singing, and the

reading of a sermon by Caleb Merrills.

In the summer of 1787 the settlement suffered greatly for want of food. At length a supply was procured of Isaac Paris, of Fort Plain, causing great rejoicing in the community; they agreed to pay for this with ginseng the next fall. For many years a stone pillar stood at the corner of the Village Green and College street, Clinton, with the following inscription: "Moses Foote, Esqr., in company with seven other families, commenced the settlement of this Village, March 3d, 1787." On the other side were the words, "Nine miles to Utica." This stone was subsequently taken down and accidentally broken. A new one has recently been erected to commemorate the same event, containing, in addition to the inscription upon the former stone, the names of the seven families. Some of the early settlers of this town were from Brimfield, Mass. Among them were Judah Stebbins, Cutting Earl, Samuel Ellinwood, John Carpenter, Hananniah Ellinwood and Nathan Marsh, with their families. Several of these started from Brimfield in March, 1790, with ox teams, and on the fourteenth day at evening arrived at Farwell's Tavern, the house opposite the residence of Mr. Crosby, on the Utica road. The late Mr. Reuben Ellinwood, then a lad eleven years of age, walked the whole distance and drove The snow was two feet deep and there was no a lot of swine. track except that made by the cows which were driven ahead. Though advised to remain over night the pioneers decided to go forward. So laborious was the journey that they had only reached the mill stone lodge at midnight. The women and children were suffering intensely with the cold, and the teams being nearly exhausted, it was decided to return on foot to the tavern. The next day they proceeded to their new home. Mr. Ellinwood had previously made arrangements to have his house in readiness, but for some reason it was not done. Only one-half of the roof was on and both gable ends well open, and no door, floor or chimney had been constructed, leaving the snow as deep inside as out. The snow was shoveled out and a fire made as near the wall as safety would permit; a floor of split logs and hemlock boughs took the place of bedsteads and there they passed the first night in their new home. Many others were prominent during the early settlement of this town, and by their energy and enterprise aided in making the town what it has since become.

Rev. Mr. Taylor, referred to in other places, says of Clinton in 1802: "This people is considered to be the most harmonious, regular and pious of any in the northern part of the State of New

York. In this town, or rather parish, is an academy which is in a flourishing state. A Mr. Porter, an excellent character, and a preacher, is preceptor." There were then about sixty scholars in the school, and some who had been educated there had become preachers. "Piety is very much encouraged in it." "There is in ye town a few Universalists and a small Baptist Church, but not a sufficient number to have any influence."

The population in 1865 was 4.044, and its area 19,759 acres.

The town contains fifteen school districts, employing fifteen teachers. The whole number of children of school age is 1,462; the number attending school, 766; the average attendance, 361, and the amount expended for school purposes during the year ending September 30th, 1868, was \$4,401.08.

LEE, named from Lee, Mass., whence some of the early settlers came, was formed from Western, April 3, 1811. Its size was diminished in 1823 by taking off a part of Annsville. It is situated in the interior of the County, north of the center. Its surface is rolling or moderately hilly, gradually rising from the low lands in the south to an elevation of 500 to 800 feet above the canal at Rome. The west branch of the Mohawk flows through the northeast corner of the town, and Fish Creek forms a part of the west boundary. The soil is a clayey, sandy and gravelly loam, and in some places is very stony.

Lee Center, (p. v.) situated a little south of the center of the town, contains a church, a hotel, a tannery, a grist mill, a saw mill

and about 300 inhabitants.

Delta, (p. v.) in the south-east corner of the town, contains a hotel, a store, a grist mill, a tannery, a wagon shop, a school and about 100 inhabitants.

Lee, (p. v.) in the south-western corner, contains a church, two saw mills, a blacksmith shop and about twenty-five houses.

West Branch, (p. v.) in the north-east corner, contains two hotels, a saw mill, a grist mill and about a dozen houses. Near the vil-

lage is a woolen factory, a carding machine and a tannery.

Stokes is a hamlet in the south-east part, containing a hotel, a store and several shops. A new road has been laid out, beginning at the south-east corner of lot 38, Banyard's Patent, and running west on the line of lots to the plank road running from Stokes to West Branch.

The first settlement was commenced at Delta in 1790, by two brothers, Stephen and Reuben Sheldon. At that time there was no house between them and Fort Stanwix. Other early settlers in this vicinity were David Smith, Daniel Spinning, Stephen and Nicholas Salisbury. Soon after a settlement was commenced at "Lee Center" by Nathan Bariow. William Tart, Dan and Smith

Miller, John Hall, Frederic Sprague and a Mr. Hall. James Young, Charles Ufford, Elisha Parke, a Mr. Potter and others, came as early as 1795. New Englanders described the Military Tract, consisting of Onondaga, Cayuga and Seneca counties, as "so far off and so near the ends of the earth that they supposed it never would be settled by civilized people." What is now Lee and Western, was said to be "away up the Mohawk River, away beyond Fort Stanwix, inhabited by bears, wolves and Indians."

At the first town meeting in March, 1812, James Young, Jr., was elected Supervisor, and West Waterman, Town Clerk. Fenner Sheldon was the first child born in the town, in 1791. The first marriage was that of Dan Miller and Miss Amy Taft, and the first death that of Job Kaird, in 1798. The first saw mill was built in 1791 or 1792, by David Smith, and the first grist mill by Gen. Wm. Floyd, in 1796. The first school house was erected in 1796 or 1797, by the voluntary contributions of the inhabitants, in money, materials and labor, and was situated one mile south-east from Lee Center. The first religious society (Congregational) was organized in 1797. Rev. James Southwork was the first pastor.

The territory comprised in the town of Lee consisted of the following tracts: Scriba's and Oothoudt's Patents, including Bowne's Purchase, Banyard's and Fonda's Patents, McIlwaine's, Boon's and

Mappo's Tracts.

The population in 1865 was 2,714, and its area 27,836 acres.

There are eighteen school districts in the town, employing twenty-seven teachers. The number of children of school age is 875; the average attendance, 355, and the amount expended for school purposes during the year ending September 30, 1868, was \$3,391.07.

MARCY, named in honor of Wm. L. Marcy, was formed from Deerfield, March 30, 1832. It lies on the north bank of the Mohawk, east of the center of the County. Its surface is rolling. Along the river is a wide intervale from which rises an irregular table land from 300 to 500 feet above the valley. Nine Mile Creek flows through the west corner of the town. The soil on the upland consists of a rich, sandy and gravelly loam, and on the flats an alluvial deposit which is increased annually by the spring floods.

Stittsville, (p. v.) situated in the north-west corner of the town, on Nine Mile Creek, is partly in Trenton and contains a church, several mills, the usual number of stores and mechanic shops, and

about 250 inhabitants.

Marcy (p. o.) is situated on the line of the Utica and Black River Railroad.

The first settlement was commenced in 1793 by John Wilson, upon a river farm, about half a mile east of Nine Mile Creek.

James, Thomas, Isaac and Jacob Wilson, brothers of John, settled here soon after. A Dutchman named Tull had previously settled here and built a log house, eighteen feet square, in which he and his family of twelve persons were living. James Wilson, with a family of six persons, moved in and lived with Tull for several months, when he purchased a lot about one mile north of Oriskany village, upon which he moved. Mr. Wilson cleared a few acres and planted it with corn, adding a bountiful supply of pumpkin seeds. The pigeons pulled up all the corn, leaving only a huge crop of pumpkins upon which man and beast were obliged to subsist the first year. They suffered great hardships, but in a few years Mr. Wilson became a wealthy farmer.

The first death was that of John Wilson, the first settler, in 1793. Mr. Camp kept the first inn, about 1810, and John F. Al-

len built the first mill, about 1825.

The population in 1865 was 1,517, and its area 19,158 acres.

There are twelve school districts, employing twelve teachers. The whole number of scholars is 577; the average attendance, 201, and the amount expended for school purposes during the last year was \$3,469.53.

MARSHALL was formed from Kirkland, February 21, 1829. It is situated in the south part of the County, the south-west corner bordering on Madison County. The surface is a hilly upland, the hills rising from 200 to 300 feet above the valleys. Oriskany Creek flows north-east through the west part. The soil is a fertile sandy loam.

Deansville, (p. v.) situated on the north border, is a station on the Utica, Clinton & Binghamton Railroad, and contains two

churches, an academy and about 200 inhabitants.

Hanover (Marshall p. o.) is situated near the center of the town and contains a church and about twenty houses.

Forge Hollow contains several mills and manufactories, a church

and about thirty houses.

The first white settlement was made in 1793 by David Barton, from Connecticut. He was soon followed by Warren Williams, Hezekiah Eastman, Captain Simeon Hubbard and Levi Baker. The Brothertown Indians were settled previous to the Revolution, on a reservation given them, in this town and Kirkland, by the Oneidas. They were the remnants of New England tribes and those of Long Island, numbering about 400. They adopted the English language and some of the arts of civilized life. Most of them left during the war, but on their return became quite thrifty farmers. Here they were surrounded by the whites, who offered them the Bible, the Bread of Life, with one hand, and whisky, the "Water of Damnation," with the other. They chose the latter and

gradually dwindled away, some selling out and going to Green

Bay, from which place the last of them emigrated in 1850.

The first church (Congregational) was organized June 14, 1797, and was called the "Hanover Society." In 1801 they built a church edifice which they occupied for forty years, when it was rebuilt.

The population in 1865, was 2,141, and its area 19,415 agres.

There are ten school districts, employing the same number of teachers. The whole number of scholars is 404; the average attendance, 190, and the amount expended for school purposes during the year ending September 30th, 1868, was \$2,739.35.

**NEW HARTFORD** was formed from Whitestown, April 12, 1827. A part of Kirkland was annexed in 1834. It lies upon the east border of the County, south of the center. Its surface is level or gently undulating, except in the east part where there is a low range of hills. Sauquoit Creek flows north through the town near the center. The soil is a rich loam, containing considerable calcareous matter.

New Hartford, (p. v.) situated on Sauquoit Creek, near the center of the town, contains five churches, viz., Methodist, Baptist, Episcopal, Presbyterian and Quaker, two cotton factories, a bolting factory, a stocking factory, a flouring mill, a carriage factory, two hotels and about 1.000 inhabitants.

Washington Mills, (p. v.) on the same stream, a little south of the center of the town, contains a church, a hotel, a woolen factory, a manufactory of agricultural implements, a wagon shop and about

300 inhabitants.

New York Upper Mills, (New York Mills p. o.) on the north border of the town, contains a church, a cotton factory and about 200 inhabitants.

Willow Vale, situated in the south part, contains a foundry and pattern shop, and about thirty-five houses. A large machine shop was burned about a year ago.

Chadwicks, (p. o.) in the south part of the town, contains a cotton factory and the other buildings necessary for carrying it on.

The first settlement was commenced in 1788, by Colorel (afterwards Judge) Jedediah Sanger. He purchased one thousand acres of land, about equally divided by Sanquoit Creek, and embracing the whole of the village of New Hartford. He contracted to pay fifty cents an acre, and within the first year sold one half of his purchase to Joseph Higher for one dollar an acre. In 1789 he removed his family to New Hartford, and the same year erected a saw mill, and the next year a grist mill. Other early settlers were Ashbel Beach, Amos Ives, Selemon Blodget, Salmon Butler and Joel Blair, who settled west of the village, the last three at "Mid-

dle's Settlement." Agift Hill, a Mr. Wyman, Stephen Bushnell, Oliver Collins, Joseph Jennings, Joseph Higbee, Nathan Seward, John French and three families of Kellogg's, two of Risley's two of Olmstead's, and Seymour, Butler, Hurlburt, Kilborn and Montague, were also early settlers. The village and adjacent country made rapid progress for a number of years, both in population and wealth. The immense water power of the creek was developed, and for several years previous to the completion of the middle section of the Eric Caual, more business was done at the village of New Hartford than at Utica.

The first child born in New Hartford was Dr. Uriah H. Kellogg. The first church (Presb.) was formed in 1791, by Rev. Jonathan Edwards, and the first settled minister was Rev. Daniel Bradiey. Oct. 26, 1795, Rev. Joshua Johnson was installed pastor of the church. It is said that the young people, to honor the occasion, held in the evening an "Ordination Ball." This church erected the first house of worship in the County, and in the State west of Herkimer. It was commenced in 1793, but not completed until 1796. The first County Court of this County was held in this church.

Jedediah Sanger, the founder of New Hartford, was a native of Sherburne, Middlesex County, Mass. As has already been stated, he built the first mills in New Hartford, and in 1796 erected the first grist and saw mills at the outlet of Skaneateles Lake. He was one of the principal proprietors of the "Paris Furnace," which went into operation in 1801. In 1805, he engaged in the manufacture of cotton goods. He was a member of the State Legislature eleven years, and was appointed the First Judge of Oneida County at its organization, which office he held until 1810.

The population in 1865 was 3,654 and its area 17,308 acres. There are fourteen school districts in this town, employing fifteen teachers. The whole number of scholars is 1,396; the average attendance 390, and the amount expended for school purposes during the year ending September 30th, 1868 was \$4,692.96.

PARIS was named by the inhabitants in acknowledgement of the kindness of Isaac Paris, a merchant of Fort Plain, who supplied them with corn on a liberal credit during the year of scarcity, 1789, and finally received his pay in such produce as they were able to supply. It was formed from Whitestown, April 10, 1792, Brookheld, Hamilton and a part of Cazenovia, (Madison Co...) Sherburne, (Chenango Co...) and Sangerfield, were taken off in 1795, and Kirkland in 1827. In 1839 a part of Kirkland was annexed. It lies on the east border in the south-east corner of the County. Its surface is a hilly upland, broken by the valley of Sauquoit Creek. The hills bordering this valley are from 200 to

WALWORTH'S

"Bryant & Biration" Pusiness College,

UTICA, N. Y.

TURN OVER AND READ THE CENTURY ON THE THESE SUCCESSION PACTS. AND

## The Utica Business College

Genuine Practical Business School

# Young Men of Oneida Co.

T is permanently located, and was established in this city in 1863.

by its present Principal, Mr. C. A. Walworth, who founded also, the Business Colleges of Ogdensburg and Washington, D. C., and who has had an experience of Eleven years as principal of such institutions, besides participation in the duties of Actual Mercantile business. This college is a member of

John Justiness Cilleges,

#### "Bryant & Stratton" Colleges,

and is enabled to offer all the unequalled benefits of this connection. Young Men or Parents can buy at this Institution, at the ordinary price of such tuition

#### A National Life-Scholarship,

which will entitle them to instruction in the full Business Course for an unlimited time, together with the privilega, (strange as it may seem.) of attending, without charge, any of the other colleges of this Association, located in nearly Forty of the principal American cities. The STUDIES taught embrace

Book-keeping-of ail kinds, including Banking, Commission, &c.

Penmanship-of every imaginable style, by premium penman.

Arithmetic-Commercial and Practical, suited to all ages.

Com'l Law-made plain and interesting, to all who desire it.

Business Practice—including the use of Notes, Drafts, &c., in every phase.

Grammar-Correspondence, Warehouse Marking, &c.

Spelling-Prenouncing and Defining.

Phonography-(Short-Hand Writing.)

German, &c.

#### Important to Young Men and Parents.

#### GREAT IMPROVEMENT IN PRACTICAL BUSINESS INSTRUCTION.

INVESTED AND TAUGHT IN

Malworth's "Frant & Stratton" Husiness Hollege,

THE UTICA BESINESS COLLEGE offers to the Young Monof Utica, and all the country within fifty miles of it, the only advantages provided within this section, for obtaining a systematic, therough and practical preparation for the counting room.

Its facilities are now so ample and extensive, that it can guarantee to qualify students as provided y as in actual business, while inculcating a system in everything that it is impossible to "pick up" anywhere outside of a special school.

By the Invention, illustrated above, patented by the proprietor of this College, the Book-keeping Course is made completely practical, and most efficient and attractive to every student separately, from the very beginning of his course, which are invaluable results never before accomplished anywhere. No other system of Practice makes such thorough accountants.

NATIONAL SCHOLARSHIPS for the Full Business Course, are now sold at this school, which commands BUSINESS EDUCATION, ACQUAINTANCE, INFLUENCE AND ASSISTANCE the unit more than forty Associated Colleges, in as many principal cities, thus putting a young man on the best footing that he can possibly get in this country in regard to business education and advancement.

This school performs all it promises or advertises, to the letter. It has no "Extra Charges." It promises no situations, but furnishes all that are obtainable. It aims at the greatest thoroughness. The principal has been Principal of Commercial Colleges for the last eleven years, and is a practical teacher of all the branches. The recent improvements enable him to guarantee a practical knowledge of Book-keeping, and interest improvement in every study.

Every young man in Utica, and within fifty miles of it, should become a member of this College. Every one needs the knowledge and assistance here farnished, and it will pay young men better than any other investment, to buy a National Life Scholarship. Call, or write for Circulars.

## Sibe pour Sons the best Practical Business Couention.

#### YOUNG MEN

I. I'l bear in mind, that the most enterprising young men in this country take this course, and any who may fail to secure it, will hereafter deeply regret it.

#### Take Notice,

That satisfactory, practical comprehensive, successful instruction of this kind. on only be obtained at this institution or one like it, and there is no other Busines College between Alleny and Syracuse, and at those places the colleges are numbers of the same association.

#### Success.

This College grows more successful and popular every year. It is ably and honestly conducted, and fills an urgent public demand, besides being peculiarly attractive to young persons. The course is being constantly revised, so as to keep up with every improvement. It is the only school in this county where the course is directly remunerative, enabling the possessor to step at once into a profitable business position.

Persons of all ages and of both sexes are invited. Those who cannot come in the day time, can attend the evening school. Everybody is invited to write and receive (free) a paper containing full and interesting information.

### Something New--Walworth's Utica Steel Pens.

The best per ver made is the steel pen. The rollipen is now republished by our best writers, including all professional pennian. The penniarly divorable experience of the subscriber has enabled him to invent two superior kinds of pens, which he now religious.

#### THE PROFESSIONAL PEN.

for professional penmen, teachers, wit lines, and untuites, lawyers, and all others who like a flexible quill-spring pen, "superior to Spencedum."

#### THE LADIES' PEN.

For leaflest use, each writing and fine, delicate work, "superior to Gillett's 203." Try them fairly and you will use no other.

for Two new kinds are being the is—"The 'Specia Payment Pen," a large, smooth, gilt pen for rough business use, and "The Adi pes' Pen," very fine and sensitive, for producent writers.

Ask your Stationer for Walwerth's Pens.

Proces.—Small boxes 4cc., here boxes \$1.50. By mail 50c, and \$2.00, respectively. City order delivered free. Liberal discount to dealers and those who order at least ten gross at a time. Send box for samples. Agents wanted.

#### CARD AND JOB WRITING.

All kinds of Card Writing and Ornancesting executed to order in the best style of the art. Gift Books it excited, Wanting Envisions and state of the Books in excited and Marting Cortificates Elected, Bigle rats for Colores, Maintery, Navan and Engage is "I self-montal, Invitations, etc. Them with or and designs, and recent inequal to engage and he was prices. We are prepared to fill large orders for Colleges, Societies, and Associations generally, in the most prompt and satisfactory meaner. A package of 30 Visiting Cards, of the finest material and most hishionable shape, written to order, in the best manner, and sent free by mail to any part of the Union, for \$2.

#### TO BOOK-KEEPERS, STUDENTS AND TEACHERS.

A New Invention contirring Extra adount upes.

Every person learning, teaching or practicing Books scoping should have a pair of The Bookskeeping 211sts. They are to be seen on the hunds while engaged in Bookskeeping, at it will remind the water of the assential features of the science of accounts, systematically arranged which all are most likely to forget. A sample pair sent by until for \$1.00.

C. A. WALWORTH, Inventor, Utica. N. Y.

400 feet high, and most of their declivities are steep. Sauquoit Creek flows north through the town, east of the center, affording many valuable mill sites which have been improved. It is said that one of the early settlers started at the junction of this stream with the Mohawk in search of a site for a saw mill, but did not succeed in finding sufficient fall until he arrived at Cassville. To one familiar with the manufacturing villages between this point and the Mohawk, this statement will appear very singular. The soil is a sandy, calcareous loam.

East Sauquoit, and West Sauquoit, (Sauquoit p. c.) are contiguous villages on opposite sides of the Creek, and contain two churches, viz: Methodist and Presbyterian, an academy, a hotel, a saloon, two cotton factories, two paper mills, three stores, one public hall and a Masonic and Good Templar's Hall, two blacksmith shops, two wagon shops and harness makers, and about 700 inhabitants. The Academy, under the charge of Prof. White, is in a flourishing condition, and is worthy of the patronage it receives. The Utica, Chenango and Susquehanna Valley R. R. passes through

the village on the west side of the creek.

Clayville (p. v.) is situated on Sauquoit Creek, about ten miles south of Utica, and is a station on the Utica, Chenango and Susquehanna Valley Railroad. It contains four churches, viz., Presbyterian, Methodist, Episcopal and Roman Catholic; two hotels, five dry goods and grocery stores, a drug store, two meat markets, a grist mill, a cheese box factory, and various other mills and manufactories. The Empire Woolen Company has fourteen sets of machinery, a capital of \$125,000 and uses 450,000 pounds of wool, making 150,000 yards of fancy cassimeres annually. The mill is run by water and steam power, and employs 225 hands. are two large establishments for the manufacture of agricultural implements. The Paris Furnace Company employ a capital of about \$50,000, and make about \$100,000 worth of goods annually. S. A. Millard & Co. are engaged in the manufacture of similar implements and have about the same amount of capital invested. The population of the village is about 1,200.

Holman City is situated about a mile east of Clayville, contains a cupola furnace employing about a dozen hands, and manufactories

of wagon boxes and skeins, horse hay forks, &c.

Cassville, (p. v.) situated near the south border, contains a church, several mills and manufactories, and about 300 inhabitants.

Paris Hill, in the west part of the town, contains a church and

about thirty dwellings.

The first settlement was made in March, 1789, by Captain Rice, at Paris Hill. Benjamin Barnes, Sr. and Jr., John Humaston, Stephen Barrett, Aaron Adams and Abel Simmons, settled in the same neighborhood soon after. In 1791, Kirkland Griffin, Capt.

Abner Bacon, Deacon Simeon Coe, Spencer Briggs, Baxter Gage, Josiah Hull, Nathan Robinson, Enos Pratt and a Mr. Root, settled in the vicinity of Sauquoit. Phineas Kellogg, John and Sylvester Butler, Asa Shepherd and Mrs. Plumb and two children, were other

early settlers.

The first death in the town was that of William Swan, in 1790. Abner Bacon kept the first inn, and James Orton the first store, in 1802. The first church (Congregational) was formed in 1791, by Rev. Jonathan Edwards: Rev. Eliphalet Steele was the first pastor, and continued in that relation until his death, in 1817. Mr. Steele was considered very sound and orthodox in his sentiments, and was a man of great plainness of speech, which sometimes savored of bluntness. In the early part of the present century a young minister, was arraigned by the "Oneida Association," for preaching unsound doctrine. On reading the sermon it was pronounced orthodox, though somewhat obscurely worded. Mr. Steele admonished the young man to be more careful in the use of language and ended by saying: "Aye, young man, you do not know more than half as much as I do, and I do not know more than half as much as I think I do."

Kirkland Griffin, whose name has been mentioned among the early settlers, was an active and efficient aider of the patriot cause during the Revolution. He shipped on board one of the earliest privateers, was captured and imprisoned in the "Mill Prison," England. For two years and five months he suffered the horrors of that den of filth, upon the very verge of starvation. After his release he shipped on board the Bonhomme Richard, under Paul Jones, and was in the bloody engagement with the Serapis, which resulted in a victory of the Stars and Stripes. The British Captain, on learning that the crew of the Richard comprised many of the recent inmates of the Mill Prison, said: "Now, I know why I am conquercred; without those prisoners you never could have obtained the victory;" rightly judging that victory or death would be the watch-word of those who had endured the barbarities of the Mill Prison.

The population in 1865 was 3,595, and its area 18,551 acres.

Paris contains fifteen school districts, employing sixteen teachers. The number of children of school age is 1,198; the number enrolled in the schools, 904; the average attendance, 341, and the amount expended for school purposes for the year ending September 30th, 1868, was \$2,483.01.

REMSEN, named from Henry Remsen, Patentee of Remsenburgh, was formed from Norway (Herkimer Co), March 15, 1798. A part of Steuben was annexed in 1809. It is the northeast corner town in the County. Its surface is an elevated upland,

broken by hills and ridges, elevated from 1,200 to 2,000 feet above tide. Black River and its tributaries drain the central and north parts; West Canada Creek forms a small part of the south-east boundary and Cincinnati Creek a part of the west boundary. Otter, Long and White Lakes are in the north part. The soil is a light, sandy loam, better adapted to pasturage than to tillage. A large part of the town is still covered with forests, forming a portion of the great Northern Wilderness. The Black River and Utica Railroad passes through the south-western part of the town.

Remsen, (p. v.) situated on the Black River & Utica Railroad, contains five churches, two hotels, a grist mill, a saw mill and

about 1,000 inhabitants.

Forest Port, (p. v.) situated on Black River, two and a half miles from Alder Creek Station, on the Black River & Utica Railroad, contains three churches, two hotels, several lumber manufactories and about 800 inhabitants. The Forest Port Stave and Lumber Manufacturing Company has a capital of \$50,000, and is doing a large business. There are a large number of saw mills in the town. A navigable feeder to the Black River Canal terminates here and affords an easy communication to all points by water. Several horse railroads extend from Forest Port to mills in

the vicinity, constructed for the transportation of lumber.

The first settlement was made in 1792 by Barnabas Mitchell, from Meriden, Conn. The whole region was then a howling wilderness. Mitchell and his family located about five miles north-east of the present village, and were the only settlers that year. In 1793 John Bonner, Nathaniel Rockwood, Bettis Le Clerc, Perez Farr and Jonah Dayton, removed to the present limits of Remsen. These early settlers were from the eastern States; but in 1808, David Mound, John James, Griffith I. Jones, John Owens and Hugh Hughes, from Wales, located in this town, and were soon followed by a large number of their countrymen. A large majority of the inhabitants of this town are natives of Wales or their descendants. They are a moral and religious people, as well as industrious and frugal. The settlement of the village was commenced in 1795 by James Smith, who opened a public house. The house was constructed of logs and boards, and continued for several years to be a house of entertainment.

The first birth in the town was that of Polly Mitchell, and the first death that of Capt. Peck. Broughton White kept the first store, in 1803. Mr. White was a surveyor and for several years

was a member of Baron Steuben's family.

The following is an extract from the journal of Rev. J. Taylor, a missionary, who visited the place in September, 1802: "This is a broken society. The people are very ignorant and wicked. About three months since, a stranger came into the town, who appeared to

be a pert coxcomb, about twenty-eight years of age, who calls his name Alexander. He soon obtained a school and in a fortnight set up preaching, and pretends to preach every Sabbath. Who and what he is they know not, but that he is some notorious vidain. I believe there is no doubt. Many of the people, especially the wickedest part, are very much attached to him. There is no church in town and but one professor, who belongs to the church in Steuben."

The population in 1865 was 2,650, and the area 71,321 acres. There are sixteen school districts, employing twenty-four teachers; number of children of school age, 726; average attendance, 212; amount expended for school purposes during the year ending

September 30, 1868, \$2,946.50.

ROME was formed from Steuben, March 4, 1796. It lies upon the Mohawk, a little west of the center of the County. Its surface is level and some portion of it low and marshy. The Mohawk flows south-east through the east part, and Wood Creek flows west through the north-west part. Fish Creek, forms the north-west boundary. The soil generally is a gravelly loam and highly productive. On the south line of the town is a quarry of freestone, and on the north line, along the banks of the Mohawk and Gulf Brook, are large masses of shale. In excavating the canal through the swamp, clam shells of a large size, charcoal and ashes, were found imbedded eight feet below the surface.

Rome, (p. v.) situated upon the Mohawk, south-east of the center of the town, was incorporated March 26, 1819. It is a half shire of the County, and contains the County buildings, thirteen churches, four banks, two newspaper offices, an academy, several private schools and several extensive manufactories. It is the most important station on the New York Central R. R. and Erie canal between Utica and Syracuse, and is the southern terminus of the Rome, Watertown and Ogdensburgh R. R. The Oswego & Rome R. R. connects with this at Richland, and is under the same management. The Black River Canal also terminates at this village. The public schools are all under one board of trustees and in a prosperous condition. The Union School, occupying a large building on Liberty street, is under the management of Mr. L. H. Birdseye, Principal, assisted by nine female teachers in the various departments.

The Rome Academy was incorporated April 28, 1835, re-incorporated by the Regents, March 15, 1849. It occupies a beautiful site at the corner of James and Court streets, and is valued at \$11.500. The estimated value of the library and apparatus is \$1200. The school is now in a very flourishing condition, and under its present able management is well worthy of the patronage it receives

from this and adjoining counties. There are several private schools, affording ample facilities for the education of the youth of both sexes.

The Rome Iron Works, Edward Huntington, Pres't., is a large establishment engaged in the manufacture of railroad iron, employing 160 hands and turning out about 10,000 tons of iron annually. The R. W. & O. R. R. Co., have a large shop where they manufacture locomotives, cars, &c.

The Rome Merchant Iron Mill, in process of erection, is 150 by 90 feet, with truss roof upon brick piers. Its capacity when completed will be 6000 tons annually. The capital of the company is \$100,000. J. B. Hyde, Manager, Secretary and Treasurer.

The Rome Iron and Steel Bloom Co., and a large number of smaller manufacturing establishments are located here.

The New York Fuller's Earth and Soap Manufacturing Company is a corporation formed for the purpose of mining, preparing and vending Fuller's Earth. The principal office of the company is at Rome. They own a bed of this earth, located in the town of Vienna, of about ninety-five acres and ranging in depth from fifteen to thirty feet. The capital stock of the company is \$400,000, divided into 8000 shares. The officers of the company are Palmer V. Kellogg, President; David Utley, Vice President; A. J. McIntosh, Secretary.

The village is well laid out, the streets are nicely shaded and lighted with gas, rendering it one of the pleasantest villages in Central New York. The population is about 10,000.

West Rome is a thickly settled suburb, just west of Rome.

Stanwix, (p. o.) on the canal is a hamlet.

Green's Corners is a station on the N. Y. C. R. R., in the southwest corner.

Ridge Mills and North Rome are hamlets.

The "Carrying Place," between the Mohawk and Wood Creek, was discovered and made available at a very early period. At this point the two streams approach within a mile and a half of each other and are deep enough for batteau navigation. The Dutch inhabitants called the place "Trow Plat," while the Indians called it De-o-wain-sta, meaning the place where canoes are carried across from one stream to the other. There is a tradition that two forts were erected at this place previous to the erection of Fort Stanwix, but we have no reliable account of them. "Fort Bull," upon Wood Creek, is said by some to have been erected in 1725, but the commandant, at the time of its capture by M. De Lery, bore the name of Buil, hence some have inferred that it was built but a short time previous. This Fort was surprised and taken by M. De Lery, with a party of French and Indians numbering 362, March 27, 1756. The English garrison numbered ninety. From

the account of De Lery, found in "Documentary History of the State of New York," we learn that the besiegers had been fifteen days in coming from Montreal, and for two days were entirely without provisions. "It is estimated that more than 40,000 weight of powder was burned or thrown into the creek, with a number of grenades, bombs and balls of different calibre. A great deal of salted provisions, bread, butter, chocolate, sugar and other provisions, were likewise thrown into the water. The stores were filled with cloths and other effects, which were pillaged, the remainder burnt. This day has cost the English ninety men, of whom thirty are prisoners." Other accounts say only five escaped the sword of the conquerors. Fort Williams, on the Mohawk, was destroyed

by Gen. Webb, after the reduction of Oswego, in 1756.

Fort Stanwix was built in 1758, by Brig. Gen. John Stanwix, at a cost of 60,000 pounds sterling. It was a square work, constructed on the most approved scientific principles of military engineering, having four bastions and surrounded by a ditch. It stood a few rods south of the present park in the village of Rome. After the close of the French war it was of little use, and was suffered to go to decay. In 1776 it was repaired and an attempt was made to change its name to Fort Schuyler, which has caused some confusion in subsequent history, though Col. Willett, in his narrative, speaks of it as Fort Stanwix. It was besieged by St. Leger in 1777, but without success. A force under Gen. Herkimer, sent to raise the siege, fell into an ambuscade, and the battle of Oriskany was the result. This battle was fought at great disadvantage to the Amer-Their baggage and ammunition wagons fell into the hands of the enemy on the first attack, leaving them with only the ammunition contained in their cartridge boxes. The day was warm, and with no water, they contended for six hours, causing the enemy to suffer as much as themselves. Gen. Herkimer received a wound which caused his death. Capt. Jacob Gardinier distinguished himself in this battle. After receiving several wounds he crept into a cavity at the roots of a tree and continued the fight, by the aid of a Dutch boy, who brought him the guns of the fallen soldiers. Captain was afterwards cured of thirteen wounds. While this battle was going on, Col. Willett made a sortie from the Fort, attacked the Tory camp, and immediately after, the Indian camp, capturing the entire camp equipage, clothing, blankets, stores, &c., and the baggage and papers of most of the officers. Among the plunder were five British standards. The siege was raised the 25th of August. After the close of the war the Fort was of no further use, and now not a vestige of it remains.

The precise time when the first settlers, after the Revolution, came to Rome cannot be ascertained. Jedediah Phelps came in 1784, and erected a shop at Wood Creek for carrying on the busi-

ness of brass founder and silversmith, but the next year changed his location to Fort Stanwix. During the years 1785 and 1786, five log houses were erected in the vicinity of the Fort. In January, 1787, there were three log houses at old Fort Schuvler (Utica), seven at Whitestown, three at Oriskany, five at Fort Stanwix and three at Westmoreland. These houses, or huts, then sheltered the whole white population of the State west of Utica, except a few Indian traders. Among the early settlers, previous to 1800, were John Barnard, George Huntington, Joshua Hathaway, Dr. Stephen White, Henry Huntington, Rozel Fellows, Matthew Brown, Bill Smith, Seth Ranney, Matthew Brown, Jr., David Brown, Ebenezer, Daniel W. and Thomas Wright, Thomas Selden, Solomon and John Williams, Peter Colt, William Colbraith, Abijah and Clark Putnam, Caleb Reynolds, Rufus Eaton, Thomas Gilbert, Moses Fish, Stephen Lampman, Jeremiah Steves, Annin Wiggins and John Niles. Mr. Wiggins settled in the north-east part of the town. His son, Mr. David Wiggins, now living, came with his father in 1798; he is the oldest settler now living in the town. In 1793 John Barnard kept a tavern a few rods north-east of the present site of the Court House, Mr. George Huntington arrived soon after with a small assortment of goods, and for want of better accommodations put them up in Barnard's bar-room. The building they occupied was the first two story building erected in Rome, and was built by Seth Ranney. In the course of the season Mr. Huntington put up a store on James street. About the first of August, 1799, Thomas Walker started the first printing press in Rome, and issued the Columbian Gazette, a weekly paper, for the proprietors, Eaton & Walker. The first grist mill in Rome was erected in 1795, on Wood Creek, a few rods north of the United States Arsenal. In 1796 or 1797, a batteau loaded with corn arrived from Ontario County, and after the grist was ground, returned by the same route without accident. Previous to 1800, a man by the name of Logan kept a hotel in a building on the site of the "American." In 1797, "The Western Inland Lock Navigation Company," completed a canal between the Mohawk and Wood Creek. It was two miles long and was sufficient for "Durham boats" of forty tons burthen. The canal was supplied by a feeder from the Mohawk. It had a lock of ten feet at the eastern terminus and one of eight feet at the western. About 1812 it was estimated that 300 boats, with 1,500 tons of merchandise, went through the canal annually. This canal, with the one at Little Falls, was considered a stupendous work in its day. The United States Arsenal, magazine, workshops, &c., were erected at this place in 1813. On the 4th of July, 1817, the ground was first broken for the Erie Canal. Hon. Joshua Hathaway east the first shovel-ful of dirt. The canal from Montezuma to Utiea was so far completed as to

be navigable in 1820. Bela H. Hyde was the first Collector appointed at Rome, and held the office for eighteen consecutive years. The Eric Canal, as first constructed, passed half a mile south of the village, but when it was enlarged its channel was made through the village. The construction of the New York Central Railroad and the Black River Canal, and more recently the Rome, Watertown & Ogdensburg Railroad, have contributed greatly to the importance of the village. The first church (Congregational) was formed September 5, 1800, consisting of eleven members. Rev. Moses Gillett was the first pastor.

The population in 1865 was 9,478, and the area 43,946 acres.

The town contains twenty-one school districts, employing thirty-two teachers. The whole number of scholars is 3,091; the average attendance, 787, and the amount expended for school purposes during the year ending September 30th, 1868, was \$13,639.38.

SANGERFIELD, named from Jedediah Sanger, was formed from Paris, March 5, 1795. Bridgewater was taken off in 1797. It was transferred from Chenango to Oneida County, April 4, 1804. It is the west town on the south line of the County. The surface is an upland moderately hilly, with a general elevation of from 700 to 800 feet above the Mohawk at Utica. The streams are small, the principal being the West Branch of Chenaugo Creek and the East Branch of Oriskany Creek. The former has numerous tributaries which flow westerly, upon which are several beautiful cascades, in two of which the water descends about seventy feet. Bailev's Pond is a sheet of water covering about ten acres, and lying 200 feet above the Great Swamp. The pond has been sounded with a 120 feet line without reaching bottom. The Chenango or Great Swamp, commences about half a mile south-west of Waterville, and extends in a southwesterly direction, until it reaches the south border of the town. It is about one mile in width and was formerly covered with a heavy growth of pine and cedar, which with judicious use would have supplied the wants of the citizens for many generations. The soil in the valleys is a rich alluvium, and upon the hills a gravelly loam, affording excellent pasturage. Hops are the staple product, but grain, wool and cattle are raised to considerable extent.

Waterville, (p. v.) situated on the north border of the town, contains six churches, viz., Episcopal, Presbyterian, Baptist, Methodist, Welsh Congregationalist and Roman Catholic; a bank, a newspaper office, two hotels, three dry goods stores, two drug and variety stores, two grocery and provision stores, two foundries, one hop press manufactory, a brewery, two tanneries, a lumber-yard, a large boot and shoe manufactory, and various other shops and small manufacturing establishments. Putman's Hall is one of the finest

public halls in the County. It is 47 feet by 100, and twenty feet from floor to ceiling, and will seat one thousand persons. The block in which this hall is situated is a fine substantial brick structure, three stories high, with a mansard roof. It was designed by A. J. Lathrop, of Utica, and constructed by A. B. Cady of Waterville. Population of the village about 1300.

Sangerfield Center, (Sangerfield p. o.) is situated a little north of the center of the town, and contains a church, a store, a hotel, sev-

eral mechanic shops and about 250 inhabitants.

Stockwell, in the south part, contains a church, a saw mill, a cider mill, a grist mill, a cheese box factory and about 125 inhabitants.

The first settlement was made by Zerah Phelps, of Mass., in 1791, on lot No. 42. In March 1792, Minierva Hale and wife, and Nathan Gurney and wife, came to this town from New Hartford, where they had lived one or two years. Their conveyance was ox teams and sleds. Mr. Hale settled on a lot joining that of Mr. Phelps, and Mr. Gurney settled on lot No. 40, now in the village of Waterville. In April of the same year, Benjamin White settled on lots Nos. 39 and 40; Phineas Owen, Sylvanus Dyer, Asahel Bellows, Nathaniel Ford, Henry Knowlton, Jonathan Stratton and Mr. Clark, settled about the same time. An early frost in the fall of 1792, entirely destroyed the corn crop and put an end to immigration till 1794.

The first birth in the town was that of a daughter of Mrs. Zerah Phelps, in 1792. Seneca Hale, son of Mr. and Mrs. Minierva Hale, was the first male child born in the town, Jan. 20, 1793. Col. David Norton moved into the town in 1793, from Arlington, Vermont. He subsequently became the first Justice of the Peace, the first Supervisor, the first Captain of Militia, the first Colonel and the first Post-master after the post office was removed to the Center. The first marriage in town was that of Sylvanus Dyer and Hannah Norton, the Col's. oldest daughter. The marriage occurred October 30, 1793, and every person in town was invited and was present at the wedding. The season of 1793 was very favorable, excellent crops were produced, and about forty families moved into the town. Zerah Phelps built the first framed house in town, and Ebenezer Hale the second. No bricks could be procured for ovens, and the bake-kettle of Mrs. Minierva Hale, the only one in the settlement, became in great demand, hardly having time to One woman baked in it the flour and meal of forty-two bushels of grain, most of it by the fire of burning log-heaps near the house. The first store was opened by Messrs. J. & E. Hale, who also kept the first inn. Polly Dyer taught the first school in Col. Norton's house. The first death was that of Sibyl Knowlton. The first town meeting was held April 7, 1795, at the barn of Mr. Phelps. Col. Sanger furnished a cask of rum, in accordance with

a previous promise for the name of the town. Dr. Stephen Preston was the first physician, and enjoyed an extensive practice for more than thirty years. The first religious society was organized in 1797, and the first settled pastor was Rev. James Thompson, in 1800. The number of members at the organization was 18. The first church editice was erected in 1804, on the Green at the Center.

The Baptist church at Waterville, was organized in 1798, and their first pastor was Rev. Joel Butler, who commenced his labors in 1799. Their church edifice was erected in 1800, on what was then known as the "Green," now called the "Triangle," near the center of Waterville. The Episcopal church was organized in 1840. Rev. F. C. Brown was the first pastor. The Presbyterian church was organized in 1823 with Rev. Evans Beardsley as pastor. The Welsh Congregational church was organized in 1852, with Rev. Edward Davis as pastor.

Judge Sanger built the first saw mill, in 1793, on the East Branch of Oriskany Creek, and Benjamin White built the first grist mill on the same stream. The total amount of property assessed in Sangerfield in 1796 was \$4,475, and the tax upon it, including the collector's fees of \$5.35, was \$108.56. The highest tax paid by any man was \$5.04, paid by Benjamin White. The tax-payers were

eighty-five in number.

The population of the town in 1865 was 2,357 and its area 19,463 acres.

There are twelve school districts, employing fourteen teachers. The number of children of school age is 870, the number attending school 584, the average attendance 253, and the amount expended for school purposes for the year ending September 30th, 1868, was \$3,933.24.

STEUBEN, named in honor of Baron Steuben, was formed from Whitestown, April 10, 1792. A part of Mexico, (Oswego Co.,) was annexed, and Floyd and Rome were taken off, in 1796. Levden (Lewis Co.,) and Western were taken off in 1797; Parts of Steuben's Tract in Western and Remsen were annexed in 1803; and a part was annexed to Remsen in 1809. It lies in the interior, north-east of the center of the County. The surface is a hilly, broken upland, rising from 800 to 1,200 feet above the Mohawk. The south line of the town crosses near the top of Floyd Hill, a high ridge running east and west. Big Brook runs westerly and north-westerly and empties into the Mohawk in Western, and Steuben Creek flows into Cincinnati Creek at Trenton; the latter forms a part of the eastern boundary. Steuben Hill is a high ridge rising somewhat abruptly toward the north from the central valley .-Starr's Hill is the highest point in the County, and from it can be seen Hamilton College and portions of seven counties. This point

received its name from Captain David Starr, one of the earliest settlers, who served seven years in the Continental Army. The soil is a gravelly loam, and bowlders of every size and shape dot the fields. Many of them have been removed and laid up into substantial fences. There are quarries from which good building stone is obtained.

Steuben Corners, (Steuben p. o.) in the southern part of the town,

is a hamlet.

Steuben Station, on the Black River and Utica R. R., is in the

north part, on the line of Boonville.

The first settlement was commenced in 1789, by Samuel Sizer, under the patronage of Baron Steuben. Captain Simeon Fuller settled in 1792, and Captain David Starr about the same time.—Baron Steuben received from the Legislature a tract of 16,000 acres of land, in 1786, and settled there himself, but did not live to see his intended improvements carried out.

The first birth in the town was that of Stephen Brooks, Jr., and the first marriage that of William Case and Miss Platt. A large

number of Welsh have settled here.

In view of the services rendered by Baren Steuben during our severe struggle for Independence, it seems proper to give a more extended notice of his life. His full name was Frederic William Augustus Baron de Steuben, and he was born in Germany about the year 1730 or 1733. He served with Frederic the Great in the "seven years' war," and became his Aid-de-camp and Lieutenant General of the Prussian army. In 1777, he came to America with letters of recommendation from Dr. Franklin, whom he had met in Paris, to General Washington. He offered his services to Congress without any other remuneration than his expenses, but in case the Americans gained their independence he would expect an indemnity for the sacrifice he had made. His services were accepted, and he joined the army at Valley Forge in that darkest period of the Revolution. He was greatly astonished at the destitution, and declared that no foreign army could be kept together a single month under such circumstances. Disheartening as was the prospect, and increased by the Baron's ignorance of the English language, he entered upon his duties as Inspector General. The rapid improvement of the army soon became apparent, and showed itself upon the battle field as well as in the camp. General Washington said of him: "The Baron has in every instance discharged the several trusts reposed in him with great zeal and ability, so as to give him the fullest title of my esteem as a brave, indefatigable, judicious and experienced officer." After the close of the war he settled on the tract granted him by the New York Legislature. On the 25th of November, 1794, he was struck with paralysis, and died on the 28th. He was buried in his military cloak, to which was attached the star of Knighthood, always worn during life. He

was buried by his servants and a few neighbors, in a deep forest, which being afterwards crossed by a road, caused his re-interment about a quarter of a mile north of his house. By his will he left his library and one thousand dollars to a young man of literary habits, named Mulligan, whom he had adopted, and the remainder of his property to Wm. North and Benjamin Walker, his aids. Col. Walker gave a Welsh Baptist society a lease of fifty acres of land, five of which was woodland, around the grave of the donor, with no other rent than the obligation to keep this woodland fenced so as to prevent the range of animals in it. These conditions have been carefully observed. The following anecdote is related of the Baron: While on a visit to New York, some of his friends rather jeered at his attempting to settle the mountains at the head of the Mohawk. He declared it was the best land in the world and he could prove it. Said he, "There is Capt. Simeon Woodruff, who had sailed around the world with Captain Cook, and he has bought a farm on my patent and settled on it, and if in all his voyage a better location had been found, he would not have done so." The argument was conclusive, of course.

Rev. J. Taylor, in his journal in 1802, says of Steuben: "This Patent is on the height of land between ye Mohawk and the Black River. Standing on a hill near the center of the town, we have an extensive prospect on three sides; to the south-west, about 35 miles, we see Oneida Lake, south we see ye settlements of New Hartford and Clinton. It is said that upon ye tops of ye trees, Ontario is in sight." He says a considerable part of the land is leased for an annual rent of ten dollars for 100 acres, but most of the leases are perpetual. About one-third of the people are Welsh, who are indu-trious and prudent beyond all example. "I am now at ye house of the first settler who came into the town, Esq. Siser's. Here I find the grave of the once active and enterprising Steuben. He lies in a swamp, under a hemlock, with a bier standing over the grave, and a few rough boards nailed to some trees to keep ye cattle off. Alas! what is man, that the great Steuben should be suffered to lie in such a place, and without a decent a onument." The house of the Baron, a few rods from the swamp, is described as facing the south, and consisting of two log houses, one at the end of

the other, containing in all three rooms.

The population in 1865 was 1,416, and the area 25,783 acres. There are thirteen school districts in the town, employing eighteen teachers. The whole number of children of school age is 421; average attendance, 146; amount expended for school purposes during the year ending September 30, 1868, \$2,048.54.

TRENTON was formed from Schuyler (Herkimer Co.), March 24, 1799. It lies upon the west bank of West Canada

Creek, near the center of the east border of the County. face rises from the Creek from 400 to 600 feet, and from the summits it spreads out into an upland, broken by ridges of drift. Nine Mile Creek flows through the south, and Cincinnati Creek through the north part. The soil is a sandy and clavey loam, well adapted to grazing. The celebrated Trenton Falls, upon West Canada Creek, are in this town. This place of resort for pleasure seekers was first brought to notice by Rev. John Sherman, who, in 1822, erected the first hotel for visitors at this place. The magnitude of the falls does not excite so great an interest as the peculiar wildness of the surrounding country. The creek flows through a ravine worn in the Trenton limestone to the depth of from seventy to 200 hundred feet. The sides of this ravine are nearly perpendicular, and the water descends in a series of cascades a total depth of about 200 feet in the space of half a mile. The highest fall is fortyeight feet. The Indians called the falls Ka-na-ta-dork, "brown water," and Kuy-a-hora, "slanting water." Mr. W. Perkins has recently fitted up a commodious hotel and boarding house on one of the most delightful sites in the vicinity of the falls.

Trenton (p. v.) was incorporated April 19, 1819, as "Oldenbarneveldt," and changed to Trenton, April 26, 1833. Its first name was in honor of a Dutch patriot and statesman, who died upon the scaffold in 1619, aged 82 years. It is situated north of the center of the town and contains four churches, viz., Methodist, Unitarian, Presbyterian and Welsh Congregationalist, and a population of about 300.

South Trenton, (p. v.) in the south-east part, contains four churches, viz., one Welsh Methodist, two Baptists (English and Welsh), and Union, and about thirty houses.

Trenton Falls, (p. v.) on West Canada Creek, a short distance below the falls, contains a church, Baptist, and about twenty houses.

Holland Patent, (p. v.) named in honor of Lord Holland, patentee of a large tract in this town, is situated in the south-west part of the town, on the Black River & Utica Railroad, and contains six churches, viz., Presbyteriar, Baptist, Episcopal, Unitarian, and a Welsh Baptist and Welsh Methodist, and a population of about 400.

Prospect, (p. v.) on West Canada Creek, above the falls, contains four churches, three of which are Welsh, an academy and about 300 inhabitants.

Stittsville, (p. v.) on the line of Marcy, in the south-west corner of the town, is a station on the Black River & Utica Railroad, and contains a church, a woolen factory, a tannery and about 250 inhabitants.

The "Trenton Union Agricultural Society" has a Fair Ground

of 20 acres, located on the Utica and Boonville Plank Road, about

one and a half miles south-east of Trenton village.

The first settler in this town was Gerrit Boon, agent of the Holland Land Company, in 1793. Mr. Boon was an energetic and persevering man, and well calculated for the position which he held. He came from old Fort Schuvler (Utica) to this town, marking trees on the line selected for the future road. Mr. Boon, either alone or in connection with Herman LeRoy, William Bayard, James McEvers and Paul Busti, purchased and held in trust for the owners in Holland, several large tracts of land in this section, besides the immense tract in the western part of the State. The land in this part consisted of 46,057 acres of Oouthoudt's Patent, 6,026 acres of Steuben's Patent, 1,200 acres of Machin's Patent and 23,-609 acres of Servis's Patent. The last, lying mostly in this town, was granted in 1768, to Peter Servis and twenty-four others, for the benefit of Sir William Johnson. After the death of Sir William, his son, Sir John Johnson, and other heirs, sold Servis's Patent to several gentlemen in New York, so that it was not confiscated with the property of the Johnsons in the Mohawk Valley, but near the close of the last century was conveved to Boon and others, and by them, in 1801, conveyed directly to the Holland Company. Among the early settlers of this town were Col. Adam G. Mappa, Dr. Vander Kemp, Judge John Storrs, Col. Robert Hicks, Peter Schuyler, John P. Little, Cheney and John Garrett. William Rollo, Col. Thomas Hicks, Edward Hughes and Hugh Thomas. An instance of the energy of the early settlers, as well as their disposition to assist each other, has been handed down to us. A new settler had arrived with his family, but there was no house for his accommodation and nothing in preparation for one. The morning after the arrival all hands turned out to give him a benefit. Some cut logs and took them to the mill for boards, others prepared the frame, and before night the house had been so far completed that the family moved into it.

The first birth in the town was that of Adam Parker, in 1796; the first marriage that of Jacob Joyce and Widow Peck, and the first death that of Mr. Nelson, in 1795. The first town meeting was held April 4, 1797; Adam G. Mappa was chosen Supervisor,

and John P. Little, Town Clerk.

The Holland Patent was a grant of 20,000 acres to Henry, Lord Holland, and sold by him to Seth Johnson, Horace Johnson and Andrew Craige. It was surveyed and divided into lots of about 100 acres each, July, 1797, by Moses Wright, of Rome. Soon after the survey, the proprietors, in order to establish a permanent settlement, sold one-quarter of the Patent to Bezaleel Fisk, Pascal C. I. De Angelis, Hezekiah Hulbert and Isaac Hubbard, for the location of which these four drew shares. In this way a nucleus was

formed, around which a hardy band of pioneers gathered. They endured many hardships and privations. Bears and wolves were so plenty that it was their custom to take their guns with them when they met for public worship, and on one occasion worship was adjourned to go to the forest and kill a bear. Mrs. Kelsey, the wife of an early settler, while returning from Whitestown, became lost in the woods, and took lodgings in the top of a tree which she climbed to escape the wild beasts. From the first settlement the families of Judge Vander Kemp and Col. Mappa were in the habit of meeting together for religious worship. Rev. Mr. Fish, a Presbyterian, was the first preacher who visited the town. The exact time of his arrival is not known, but he was the first pastor of the church formed in 1797. Rev. J. Taylor, in his journal in 1802, quoted elsewhere, says of Rev. Mr. Fish: "He is a sensible, judicious man, and appears to be doing great good, and has but a poor reward." He speaks also of visiting a school of fifty children who have a good teacher. "Many of the children have no catechism and their parents are unable, in some instances, to procure the necessary school books. Four families near by are destitute of Bibles and are poor."

The population in 1865 was 3.199, and the area 27,719 acres. There are fourteen school districts in the town, employing twenty-one teachers. The number of children of school age is 1,000; average attendance, 381; amount expended for school purposes during the year ending September 30, 1868, \$5,010.85.

UTICA was incorporated as a village April 3d, 1798. It was formed as a town, from Whitestown, April 7, 1817, and was incorporated as a city, February 13, 1832. It lies upon the south bank of the Mohawk, on the east border of the County. The land along the river is low, but rises in gradual slopes to the north-west. Erie Canal and the New York Central Railroad extend through it. It is the southern terminus of the Utica and Black River Railroad, and the northern terminus of the Utica. Chenango and Susquehanna Valley Railroad, and the Utica, Clinton and Binghamton Railroad. The last is operated by horse-power to New Hartford, thence by steam to Deansville and Oriskanv Falls. There are two lines of horse-railroads in the city, one to Whitesboro and the other to New Hartford, and stage lines to all points. It is situated in the midst of one of the best agricultural sections of the State, and has an extensive trade. It contains about thirty churches, eleven banks, the County buildings, and a large number of manufacturing establishments of cotton and wooden goods, steam engines, mill stones, musical instruments, telegraphic apparatus, and a great variety of other articles.

The City Holl is a fine, large brick building, on Genesee street, and contains a large public hall, Common Council room and rooms

for several city officers, public library, &c.

The Public Schools are under the management of a Board of Education, consisting of six members, two of whom are chosen each year and hold their office three years. The schools are graded and include all departments, from the primary to the academic course. The free academy, for the highest grade, is a fine brick structure on Academy street. There are fifty-seven teachers employed. The whole number of pupils attending school during the year ending September 30, 1868, was 3.836; the average attendance, 2,242, and the amount expended for teachers' wages, the same year, was \$23,891.50; contingent expenses, \$10,000. The value of school house and titles is \$221,000, and the number of volumes in the district library, 4,500.

The Utica Female Academy was founded in 1837, and for many years occupied a high position among the literary institutions of the State. The building was burned March 27, 1865, since which the school has not been in operation. The Trustees are now engaged in the erection of a fine building which will be an ornament to the city, and will possess all the modern improvements necessary to make it one of the most substantial and convenient structures in the State, for the purposes to which it is to be devoted. The building is 150 feet in length, sixty in width, and three stories high, besides the basement and attic. The basement is stone and the superstructure brick, with a roof of variegated slate. The whole

will cost, when completed, about \$75,000.

The city is supplied with water from springs in Graefenberg, by a stock company with a capital of \$200,000. The company are building a new reservoir and have laid about six or seven miles of pipe in the city during the last season.

The manufacturing of the city is extensive and various.

The Utica Steam Cotton Mills were erected in 1848; the capital at present is \$345,000. The old mill is 350 feet by seventy, and three stories high. A new mill near the old one is now in process of erection, 300 feet by seventy, and four stories high besides the attic. Sheetings and shirtings are the products.

The Utica Steam Woolen Mills and The Globe Woolen Mills are

large establishments.

The Utica Burr Mill-Stone Manufactory, of Hart & Munson, has been established for more than forty years, and turns out all kinds

of mill machinery, pumps, &c.

The Wood & Mann Steam Engine Company is another large establishment for the manufacture of portable and stationary engines, boilers, circular saw mills, &c. The works cover an area of one and a half acres. The buildings are of brick, constructed in the

most substantial manner. The capital invested is \$200,000, and the number of hands employed from 150 to 200. Messrs. E. D. Wood and James F. Mannare now sole proprietors.

The Utica Steam Gauge Company employ fifteen or twenty

hands, and manufacture an improved kind of steam gauge.

There are two dailies, one semi-weekly and seven weekly newspapers published in the city, besides two advertising sheets, which are published monthly. Two of the weeklies are in the Welsh language and the semi-weekly is published in the German language. The American Journal of Insanity, published quarterly, is edited by the officers of the Lunatic Asylum. There are also several large job printing establishments besides those from which the newspapers are issued.

The New York State Lunatic Asylum is located upon a large lot on an eminence near the west line of the city. It receives insane persons subject to County charge, where there is a reasonable prospect of relief, and such others as its accommodations will admit. In 1830, Governor Throop recommended to the Legislature the establishment of an institution for the insane poor. Committees were appointed for several successive years, who reported favorably, but nothing further was accomplished until 1836, when an act was passed for the establishment of the New York State Lunatic Asylum, and three commissioners were appointed to purchase a site at an expense not exceeding \$10,000. Three commissioners were also appointed to contract for the erection of the Asylum, and an appropriation of \$50,000 was made for that purpose. In the summer of 1837, the present site of the Asylum was purchased, including a farm of about 130 acres, for \$16,300, of which the State paid \$10,000, and the citizens of Utica \$6,300. William Clarke, of Utica, F. E. Spinner, of Herkimer, and Elam Lynds, were appointed commissioners to superintend the erection of the necessary buildings. The original plan consisted of four buildings, each 550 feet long, to be located at right angles, facing outward, to be connected at the corners by verandahs, the whole including an octagonal space of about thirteen acres. The main building was erected and the foundation of the others laid, when the original plan was somewhat modified. The appropriations made and expended previous to January, 1842, amounted to \$285,000. April 7, 1842, an act was passed putting the institution in charge of nine managers, and an appropriation of \$26,000 was made for purchasing furniture. fixtures, stock, books, &c., and inclosing the ground. The managers organized as a board in April, 1842, and in September following, appointed Dr. Amariah Beigham, Superintendent. On the 16th of January, 1843, the Asylum was opened for the reception of patients, and during the year, 276 were admitted. On the 8th of Sopt., 1849, Dr. Brigham was removed by death, and Dr. N. D.

Benedict was appointed his successor. The building was partially destroyed by a fire set by one of the inmates July 14, 1857. The walls remained standing, and the premises were refitted without interruption of operations, and with improvements far exceeding in safety and convenience those that were destroyed. The buildings are well supplied with water and gas, and have ample facilities for extinguishing fires, including steam force pump, ample reservoirs of water and pipes for filling the upper rooms with steam. The Asylum has shops and gardens for the employment of such as prefer it, and various amusements for occupying the minds of those who have a taste for them.

The following table shows the statistics of the Asylum from its

opening, January 16th, 1843, to December 1st, 1867:

| Total number of admissions             | .8.380.  |
|--|----------|
| Total number of discharges             |          |
| Total number of discharged, recovered  | 3,256.   |
| Total number of discharged, improved   | . 1.237. |
| Total number of discharged, unimproved | 2,178.   |
| Died                                   |          |
| Not insane                             | ,        |

The following are the statistics for the year ending November 30th, 1867:

| Number in the Asylum, December 1, 1866 |       |
|--|-------|
| Number received during the year        | 401.  |
| The whole number under treatment       | .042. |
| Number discharged, recovered           |       |
| Number discharged, improved            | 58.   |
| Number discharged, unimproved          | 164.  |
| Number not insane                      | 7.    |
| Died                                   | 51.   |
| Number present November 30, 1867       | 603.  |

The products of the farm and garden, during the year, amounted in value to \$16,467.78. The stock upon the farm consists of eight horses, one pony, three yoke of oxen, one bull, two yearlings, four calves, thirty-one cows and one hundred and fifteen hogs.

The present officers of the Asylum are: John P. Gray, Superintendent and Physician; A. O. Kellogg, M. D., First Assistant Physician; Judson B. Andrews, M. D., Second Assistant Physician; Walter Kempster, M. D., Third Assistant Physician; Ho-

ratio N. Drver, Steward; Emma Barker, Matron.

The site of the city of Utica is included in a grant made to William Cosby and others in 1734, and commonly called "Cosby's Manor." The Indian name of the site was Ya-nun-da-da-sis, which means "around the hill." In 1758 Fort Schuyler was erected upon the south bank of the Mohawk and named in honor of Col. Peter

Schuyler, an uncle of Gen. Philip Schuyler of the Revolution. It was a stockaded work and stood between Main and Mohawk streets, below Second street. This fort was designed to guard the fording place in the Mohawk, and to form one of the chain of posts between Fort Stanwix and Schenectady. By the taking of Ticonderoga, Crown Point, Niagara and Quebec, the "old French war" was brought to a close, and Fort Schuyler soon became useless. Settlements commenced soon after the Revolution, and in 1787, "there were three log huts or shanties, near the old Fort." Uriah Alverson came to this place in 1788, and leased a portion of lot 98 of General Schuyler. At this time Philip Morey and his sons, Solomon, Richard and Sylvanus, from Rhode Island, were living as squatters on lot 97, and Francis Foster was at the same time living on lot 96. Other early settlers were Stephen Potter, Joseph Ballou, Jason Parker, John Cunningham, Jacob Chrestman and Matthew Hubbell. This was not a very inviting place for settlers as most of the land now built upon was an almost impassable swamp, and the most that was anticipated was to make the place a landing upon the Mohawk. The business men established themselves close to the river, and those who did not live in the same buildings as their shops, had their residences along on Main and Whitesboro streets. The old Indian path from the site of Utica to Oneida Castle, here intersected the road from Albany to the Portage from the Mohawk to Wood Creek, and made it a convenient place for a trading house for the Indian trade.

John Post, the first merchant of Utica, was engaged for some years previous to 1790 with Mr. Martin of Schenectady, in trading with the Indians. Ginseng formed an important article of trade and large quantities were purchased and exported to China, as a supposed remedy for the Plague. Mr. Post was a native of Schenectady, served his country faithfully during the Revolution, was at the taking of Burgoyne, in Sullivan's expedition, at the battle of Monmouth, and at the surrender of Cornwallis. In the spring of 1790, he removed to Fort Schuyler, upon Cosby's Manor. His family, consisting of a wife and three small children, together with his furniture, provisions, building materials, and a stock of merchandise, were shipped on boats at Schenectady, and in eight days were landed at their new home. Mr. Post carried on an extensive trade with the Indians, and with the settlers of the surrounding country. He purchased of the Indians, furs, skins and ginseng, in exchange for rum, paints, cloth, powder, shot, beads and other orna-Mr. Post also kept the first tavern in the town. ers in those days were obliged to wait upon themselves and take care of their teams, and if they ventured to ask to be served in anything, the independent landlord would sometimes reply, "Who was your waiter last year?" Mr. Post erected several warehouses and

owned several boats, which ran between this place and Schenectady, transporting merchandise and families removing to the new country. Subsequently he fitted up three "stage boats" with oil-cloth covers, seats and other conveniences for the accommodation of travelers. He was also the first post-master in the place.

At an early day, Moses Bagg, opened a tavern on the site of "Bagg's Hotel," which was widely known and extensively patronized. John House kept a tavern for some time at the corner of Genesce and Main streets. Peter Smith, the father of Hon. Gerrit Smith, was an early settler; he had a small log store near the river, east of Genesee street. He was extensively engaged in the Indian trade. In 1793, he erected a building for the manufacture of potash, and afterwards erected a dwelling in which he resided for some time. In 1794, J. S. Kipp purchased a lot and built a small log house near the east end of Main street; he also established a landing upon the river nearly in front of his house, and endeavored to draw the commerce of the river to that part of the town. Mr. Kipp was one of the most prominent men of the place, was sheriff of the County for several years, and held other important posts. In 1791, Thomas and Augustus Carey purchased 200 acres of lot 95, and afterwards sold out to Boon & Lincklaen, agents for the Holland Land Company. This land was known to the early settlers as the "Hotel Lot," from the fact that the Holland Company erected upon it the first brick house in the place, a large hotel, known as the "York House." In 1794, Dr. Carrington resided in the place, and in 1800. kept a store for the sale of drugs, paints, dyestuffs and books. March 24, 1797, a law was passed authorizing the raising of \$45,-000 by lotteries, to be expended in improving the roads in this State, 82,200 of which were appropriated to the improvement of the "Genesee Road," between "old Fort Schuyler" and Geneva, and \$400 were to be paid to John Post, Nathan Smith and Isaac Bravien, for erecting a bridge over the Mohawk at old Fort Schuvler. The erection of this bridge and the construction of the Seneca turnpike put new life into Utica, and from this time its business and population rapidly increased. In 1804 an act was passed granting to Jason Parker and Levi Stephens the exclusive right to run stage wag as from Utica to Canandaigua, for seven years from the first of June, 1804. The fare was five cents a mile, and two trips were to be made each week. Only seven persons could be taken breary stage at once without the consent of those aboard, and if there were four more than a stage load, they were entitled to an The time for the trip was forty-eight hours. The first mail to the scace was conveyed by Simeon Pool, in 1793, under an arrangement with the post office department, authorizing the transportaling of the mail from Canajoharie to Whitestown, the inhabitants along the route paying the expense. This contract soon passed in-

to the hands of Mr. Parker, who carried the mail on horseback, his wife sometimes taking his place when he could be more profitably employed. From such small beginnings his business increased until it became one of the largest organizations ever formed in the place. At the time of his decease there were eight lines of daily stages running through Utica, east and west, besides twelve daily, semi-weekly and weekly lines running north and south, in most of which he was or had been interested. Besides these there were two daily lines of packets upon the canal to Schenectady, and one to Buffalo, and one to Syracuse. Mr. Parker died September 28, 1830, aged sixty-seven. Bryan Johnson, James and Archibald Kane, J. C. Devereux, Watts Shearman, John Bissell and Daniel Thomas were among the early merchants of Utica. On one occasion, when Mr. Parker arrived with the mail from Albany, it was found to contain six letters for the inhabitants of Old Fort Schuy-This was so remarkable that it was heralded from one end of the settlement to the other, some even doubting the truth of the statement until it was confirmed by the word of the postmaster. About the same time, 1794, Mr. Parker had in his employ a colored man and a colored dog also, and by these two the mail was dispatched to Fort Stanwix. The contract time for the trip was "up one day and back the next."

The construction of the Eric Canal added greatly to the business facilities of Utica, so that it speedily outstripped all its early rivals. The canal was commenced at Rome on the Fourth of July, 1817, and in October, 1819, it was completed from Utica to the Seneca River. In 1821 boats descended as far east as Little Falls. The work was completed in the fall of 1825, and the 4th of November was celebrated throughout the State with every domonstration of joy and gratification.

The first act of incorporation of the village of Utica was dated April 3, 1798, and in 1805 a new charter was granted, providing that five "discreet freeholders" should be chosen annually as Trustees. In the early legislation of the village we find the following:

June 3, 1805. "Voted that the assize of bread for the ensuing month be as follows: Wheat fourteen shillings per bushel, a loaf of superfine wheat flour, to weigh two pounds ten ounces, for one shilling, and other sizes in proportion; a loaf of common wheat flour, to weigh three pounds three ounces, for one shilling, with a fine of five dollars for selling at a higher price, for each offense."

The "assize of bread" was regulated and published monthly as long as Utica was a village. In 1808 a fire engine is first mentioned upon the records, and a committee is directed to make the necessary repairs.

January 2, 1810, the Trustees "voted that the village pump be

put in complete repair, and that a contract be made with some faithful person to keep the same in repair one year."

This pump was in the center of Genesee street, nearly on a line

with the south side of Whitesboro street.

Utica received a city charter by an act of the Legislature, passed February 13, 1832. Its growth in wealth and numbers has been onward, and its geographical position, lines of communication and natural advantages are guarantees of its future increase.

The population in 1813 was 1,700; in 1820, 2,972; in 1840, 12,782; in 1850, 17,565; in 1865, 23,686. The area of the city is 5,500 acres.

The improvements during the last year have been unprecedented, more than two millions of dollars having been expended in enlarging and improving the city. A large number of public and private buildings have been erected, and others have been greatly enlarged and improved. The hopes of the most sanguine respecting the growth of Utica, seem destined to be realized.

Among the citizens of Utica, who have contributed largely in making the city what it is, few are deserving greater credit than Hon. John Butterfield. He entered the County about fifty years ago, a poor boy, and was employed for some time as mail carrier between Albany and Utica. The latter place was a very small village at that time, and a one-horse wagon making the trip once a week was sufficient to supply all the demands of the inhabitants. He was honest, sober, industrious and faithful in the discharge of all his duties, and in addition to these qualities, was economical and enterprising. At length with the accumulations of his small earnings, he purchased the right to carry the mail on his own account, and soon the more pretentious stage took the place of the one-horse wagon. A livery stable was the next enterprise, on a small scale at first, but as business increased the number and elegance of the horses and carriages was increased, until he was able to build large and elegant stables, furnished with all the modern improvements, and horses and carriages to match. Some twelve or fifteen years ago, he engaged extensively in the Express business, which proved to be very lucrative. His funds were freely invested in every enterprise calculated to build up the city in which he lived. Business blocks, railroads and other enterprises received an impulse from his energy and his money. The splendid hotel in Utica, which bears his name, is one of the finest in the State. In 1865, he was elected mayor of the city. About a year ago he was prostrated by a stroke of apoplexy, from which he has never recovered, and probably never will. As an active business man his days are ended, but he has left an example of what energy and perseverance can accomplish.

Hon. Roscoe Conkling, United States Senator, is a resident of Utica. He was born in Albany in 1828, studied law and removed to Utica in 1846. In 1849 he was appointed District Attorney for Oneida County; in 1858 he was elected Mayor of Utica, and subsequently a representative to the Thirty-Sixth Congress. After being re-elected several times and serving or important committees, in January, 1857, he was chosen to represent the Empire State in the United States Senate, a position which he still holds.

VERNON was formed from Westmoreland and Augusta, February 17, 1802. A part of Stockbridge, (Madison Co.,) was taken off in 1836. It lies on the west border of the County, south of the center. Its surface is rolling, the mean elevation being 200 feet above the Mohawk. The principal streams are Oneida Creek, forming the west boundary, and \*Skanandoa Creek, flowing through the east part. The soil is a fine quality of gravelly and clay loam, underlaid by limestone, water-lime and gypsum. It is one of the most fertile towns in the County. A mineral spring is found about one mile north-west of Vernon Center. The territory of this town was included in the original Oneida Reservation. The principal Oneida village was called Kan-on-wall-o-hu-le. A small remnant of this once powerful tribe still live in the south-west part of the town.

Vernon, (p. v.) on Skanandoa Creek, north of the center of the town, was incorporated April 6, 1827, and contains four churches, two academies, a bank, two hotels, a knitting factory and carding mill, a flouring mill, a saw mill and about 500 inhabitants. The Fair Ground of the Agricultural Society in the vicinity contains a half-mile track.

Vernon Center, (p. v.) situated south-east of the center of the town, contains two churches, viz., Presbyterian and Methodist, a hotel, a grist mill, two saw mills, and about 100 inhabitants.

Oneida Castle, (p. v.) on the west line of the town, contains two churches, a union school, two hotels, a hat manufactory, two stores and about 600 inhabitants.

Turkey Street is a thickly populated part of the turnpike between Vernon and Oneida Castle.

The first settler in this town was Josiah Bushnell, from Berkshire County, Mass. He came here in 1794, and settled upon the north-west corner of Bleccker's South Patent. The Indian title to this territory was extinguished in 1797, and immediately a large number of emigrants from the New Eng-

<sup>\*</sup>Named from the celebrated Oneida Chief, and signifies Hemlock or Stream of Hemlocks. The aged chief once made this striking remark: "I am an aged hemlock, an hundred winters have whistled through my branches, I am dead at the top."

land States settled here, and within two years most of the land was taken up. The first settlers upon "Baschard's Location," were Rev. Publius Bogue, Deacons Hills and Bronson, Samuel Wetmore, David and Levi Bronson, Seth Holmes, Anson Stone, Asahel Gridley, Heman Smith, Eliphas Bissell, Adonijah Foot, Stephen Goodwin, Seth Hills, Eli Frisbie, James and John DeVotie, Samuel Austin, and others named Stanton, Griswold, Alvord, Thrall, Wilcox, Church, Spencer, Carter, Marshall, Tuttle, Bush, Wilcoxson and Webber. Most of these were from Litchfield County, Conn. They laid out a plot of six acres, called Vernon Center. On this green all Protestant denominations have a right to build meeting and school houses. Around this plot the land was surveyed into acre lots, upon which some of the first settlers located. On the "Reservation," in the east part of the town, were settlers named Skinner, Lawrence, Shedd, Gratton, Deland, Spaulding, Grant, Kellogg, Carter, Tryon, Morse, Simons, Doane, May, Mahan, Page, Ingraham, Crocker, Graves, Soper, and others. In the south-western part of the town the settlers were Griffin, Webster, Freeman, Grant, Stone, Hotchkiss and others, and on VanEps' Patent the early settlers were Richard and Benjamin Hubbell, Gad Warner, Benjamin, Alanson and David Pierson, Joseph Patten, and William and Elisha Root. The early settlers of this town were possessed of more wealth than those of any other town in the County, and as a consequence were able to hire some of their improvements made, and were exempt from many of the hardships and privations to which most of the early settlers of the County were exposed.

The first marriage in the town was that of Aaron Davis and Amy Bushnell; it took place previous to 1798, but the time is not precisely known. The first birth was that of Edward Marshall, and the first death that of a daughter of Josiah Bushnell, in 1795. Mr. Sessions taught the first school, in 1708; A. Van Eps kept the first store, the same year, and Asahel Gridley built the first grist mill. The first religious society, (Cong.) was formed in 1801, at Vernon

Center.

The population in 1865 was 2,931, and the area 23,649 acres.

The number of school districts is twelve, employing fourteen teachers. The number of children of school age is 865; the number attending school 605; the average attendance 276, and the amount expended for school purposes during the year ending Sept. 30th, 1868, was \$4,569.09.

**VERONA** was formed from Westmoreland, February 17, 1802. It lies on the west border of the County, near the center. Its surface is generally level, slightly rolling in the east and marshy in the west. Oneida Lake and Oneida Creek form the west boundary, and Wood Creek the north boundary. Several small streams

are tributaries of these. The soil is a deep, rich, alluvial loam. There is a mineral spring in the east part of the town, at which a hotel and water cure has been erected for the accommodation of patients and visitors. The water is nearly saturated with sulphuretted hydrogen gas, and resembles in many respects that of the Harrowgate Springs in England. The eastern part embraces many fine farms, well adapted to most kinds of grain, and the western part is rapidly improving under a judicious and enlightened system of agriculture, which is every day becoming more prevalent. Dairying is carried on to a considerable extent throughout the town.

Verona, (p. v.) situated about a mile and a half east of Verona Station, on the New York Central Railroad, and surrounded by a rich farming country, contains two churches, two hotels, three stores, a tannery, a carriage shop, several other mechanic shops and about 200 inhabitants.

Durhamville, (p. v.) named from Eber Durham, who settled there in 1826, is situated on the Erie Canal in the west part of the town, and contains four churches, viz., Baptist, Presbyterian, Methodist and German Catholic; two hotels, a saw mill, two blacksmith shops, a dry dock and boat yard, a wagon shop, a large glass factory, several stores and about 1,000 inhabitants. The glass factory of Fox Brothers is one of the most extensive and important in the State. The Midland Railroad is located through this village.

Higginsville, (p. o.) named from Christopher Higgins, and situated on the Erie Canal, a little north of the center of the town, is a hamlet.

New London, (p. v.) situated on the Erie Canal, in the north-east part, contains two churches, two hotels, two carriage shops, a seminary, a large dry goods store, several groceries and about 500 inhabitants.

Sconondoa, in the south part of the town, is a hamlet. On the farm formerly owned by Mr. Breese, and now occupied by his daughter, Mrs. Stephens, is a spring possessing the medicinal qualities of some of the Saratoga waters.

State Bridge, (p. v.) on the Erie Canal, contains about twenty houses.

Dunbarton, also on the Canal, contains a large glass factory and twenty or thirty houses.

Stacey's Basin is a hamlet on the Canal.

Verona Springs, in the south-east part of the town, is a watering place of some celebrity. Dr. Nelson Hunt and his wife are both graduates of a medical college, and are prepared to receive and entertain those who are in search of health or pleasure. The water is especially recommended for scrofula.

Verona Depot is a station on the Railroad.

The first settlement was made by George A. Smith, in 1792. He arrived at Jonathan Dean's tavern, in Westmoreland, on Christmas eve, 1791, and the next day started for his place of destination, through snow, swamps and thickets almost impenetrable, making his progress so slow that he was eight days in reaching his location upon Wood Creek, near the farm now occupied by Elias Van Schoick. Other authorities say that he first settled upon Oneida Creek, near its mouth. Asahel Jackson, from Berkshire County, Mass., settled near the mouth of Wood Creek, at the military work known as the "Royal Block House." This was erected about the year 1722, on a slight elevation, and surrounded by a ditch enclosing a space eight rods square. Mr. Jackson opened a public house and kept it until his death, about ten years, after which it was kept by his widow for about ten years. About the close of 1796, or early in 1797, La Whitten De Wardenou, a Frenchman, settled at "Oak Orchard," on Wood Creek. Among other early settlers were Russell Brooks, Martin and Noah Langdon, Samuel Avery, Joseph Eames, John Bosworth, Oliver Pomeroy, Ithamar Day, Eleazar and Fisher Ellis, Jedediah Phelps, Stephen Benedict, Jabez Loomis, Joseph Lawton, Ebenezer and Elisha Kelsev, John Wright, Ambrose Jones and Augustus Elmer. Most of the early settlers came from Massachusetts and Connecticut, and settled in various parts of the town. Several of those whose names are given settled near Verona Village. Doctor Alexander Whaley came from Norwich, Conn., in 1801, being then twenty-one years of age, and taught school at Clark's Settlement. He was the second school teacher in the town, Elizur Ellis being the first. Dr. Whaley has long been known as one of the most prominent citizens of the town, and though now in the eighty-ninth year of his age, is still in the enjoyment of his mental and physical powers to a remarkable degree. The first settler at Durhamville was Eliphalet Frazee, in 1811. He was soon followed by Diah and David Rawson, Benjamin Newcomb, Leonard Pease, Asher Williams, Roswell Barber and others. Among the early settlers at Higginsville were Christopher Higgins, Joseph Lawton, Wait Williams, Henry Thorp, Wells Kenyon, Jacob H. Stark and Walter Durkee. The first frame house in the town was built by the "Inland Navigation Company," on Wood Creek, in 1796.

The first birth was that of Eva Smith in 1795, and the first death that of a child of Wardenou in 1797. Not being able to procure a coffin, the child was buried in its cradle. The first sermon preached in the town was by Rev. Joseph Avery, of Berkshire County, Mass. The first church (Congregational) was organized in 1803, by Rev. Peter Fish and Rev. Timothy Cooley, missionaries. Robert Clark kept the first tavern in the village. Martin Langdon gave the ground for the first cemetery, located a short distance

west of the village. The first town meeting was held in a log house built by Mr. Langdon, on the farm now occupied by Albert W. Rogers. Jedediah Phelps was chosen Supervisor, and Eleazar Ellis, Town Clerk.

Mrs. Elizabeth Whaley Matteson died in this town July 27, 1850, in the one hundredth year of her age. She was a woman of great piety and retained her faculties in a good degree to the close of life. At the age of ninety-five she would sometimes walk to and from church, a distance of two miles. Mr. Benjamin Blackman, one of the early settlers, died March 23d, 1858, in the ninety-fith year of his age. He was a native of Connecticut, removed to Westmoreland in 1788, and in 1807 to Verona, where he resided until his death.

The population in 1865 was 5,964, and the area 41,645 acres. The number of school districts is twenty-nine, employing thirty-one teachers. There are 2,300 scholars, and the average attendance is 759. The amount expended for school purposes during the year ending Septembor 30th, 1868, was \$9,306.50.

VIENNA was formed from Camden, April 3, 1807. Its original name was "Orange" but was changed to "Bengal," April 6, 1808, and to Vienna, April 12, 1816. A part of Annsville was taken off in 1823. It lies upon the west border of the County, north of the center. Its surface in the western part is comparatively level, in the south it rises gradually from Oneida Lake and spreads out into a rolling plateau. The north part is hilly. Wood Creek and Oneida Lake form the south boundary. Fish Creek forms most of the east boundary and unites with Wood Creek before it enters Oneida Lake. The west branch of Fish Creek forms part of the north boundary. The soil in the north part is a light, sandy loam; in the south-east, along the Creek, it is alluvium. Good building stone is quarried in the eastern part, and bog iron ore is found in large quantities in the marshes near the Lake. A large bed of Fuller's Earth is situated in the town. A company has been formed and is now engaged in mining and preparing this earth for market, a large amount being used for manufacturing purposes.

Vienna, (p. v.) in the eastern part of the town, contains a church (Methodist), a hotel, two stores, a wagon shop, a tannery, a saw mill, a carding machine and about thirty houses.

North Bay, (p. v.) situated in the southern part, on the shore of Oneida Lake, contains two churches, viz., Baptist and Methodist, a school house, two hotels, two stores, two potteries, a grist mill, two saw mills, several mechanic shops and about 300 inhabitants. The site of the village slopes gradually towards the lake, and the

main street, extending about half a mile north-westerly from the lake, is nicely shaded, and terminates at the residence of James Roe, Esq., a beautiful cottage with grounds adorned with shrubbery, and from which there is a fine view of the lake and the surrounding country. Boat building is extensively carried on. The planing mill and lath factory of Mr. Luce is doing a good business. The Fair Ground lies a short distance west of the village, and the society is noted for the success which attends their annual Fairs. Near North Bay, on the land of Daniel Mulholland, is a Roman Catholic Church, surrounded by a flourishing grove of maples. A beautiful row of maples extends along the road for about fifty rods.

McConnellsville, (p. v.) in the north part, on the line of Annsville, contains a church, a hotel, two stores, a saw mill, a vegetable

oil distillery and about twenty-five dwellings.

Fish Creek Landing, in the south-east part, contains a store, sev-

eral mechanic shops and about twenty houses.

West Vienna, (p. v.) on the lake shore, about three miles from North Bay, contains two stores, a hotel, a saw mill, a grist mill, a cigar factory and about twenty-five dwellings. Boat building is carried on to some extent. Mr. T. G. Cole carries on boat building quite extensively, on the lake shore, about two and a half miles west of West Vienna. He employs about thirty hands.

Elpis, in the north-west part of the town, contains a church, two saw mills, a blacksmith shop and about a dozen dwellings. On the farm of Samuel Holmes, about half a mile from Elpis, is a beaver dam, and the tract known as Beaver Meadows, and evidently caused by this dam, contains a large amount of valuable peat.

Pine is a hamlet in the north-east part.

The first settlement of this town was made in 1798, by Ephraim Church, on land now owned by Alanson Bailey. Timothy Halstead, Peter Gibbons, Alex, and Jonathan Graves, Eliakim Stoddard, Allen Nichols, David Stone, Isaac Cook and Robert Humaston, settled in the town about the year 1798-9. Elijah Graves, son of Jonathan Graves, came into the town in 1800. He was then in his eighteenth year, is now the oldest settler residing in the town, and retains to a remarkable degree his mental and physical powers. The first saw mill was built in 1801, where the McConnellsville mill now stands, by Jones & Hamil, and the first grist mill, by Wm. Smith, near the same place, about 1804. Timothy Halstead was the first settler at this place. Henry N., his son, was at that time three or four years old, and with the exception of Elijah Graves, is now the oldest settler in town.

The first birth in town was Polly Blakesley, in 1803; she died in 1865. The first death was that of Alexander Graves, killed in a saw mill. Lyman Mathers taught the first school, and Wm. Smith

kept the first inn, in 1801.

The first bridge across Fish Creek was built in 1802, on the direct road to Rome, and was engineered by Mr. Hamil. Elijah Graves was one of the workmen upon the bridge and gives an interesting account of the structure. It was built upon trestles, the posts of which were twenty-two feet long and 18 inches square; the cap pieces were 18 feet long, and the same size as the posts, all of which were solid oak. They were unable to raise it with the force that could be collected and resorted to machinery and teams, with which the work was accomplished. The practice of building substartial bridges has been continued to the present time. During the last year, Mr. Lyman L. Stedman, commissioner of highways, has caused two bridges to be erected across the west branch of Fish Creek, which reflect credit upon the commissioner and the people of the town. Three other substantial bridges have been erected within the last four years, costing \$11,500. The bridges are all constructed with substantial stone butments, making Vienna the best bridged town in this region.

Dr. Chatfield has been a practicing physician in Vienna for 45

years

The population in 1865 was 3,408, and the area 37,589 acres.

There are twenty school districts, employing twenty teachers. The whole number of scholars is 1,134; the average attendance 417, and the amount expended for school purposes the last year was \$4,103.20.

WESTERN was formed from Steuben, March 10, 1797.—Lee was taken off in 1811. It lies in the interior, north of the center of the County. Its surface is a hilly upland, broken by numerous gulleys worn in the slate by the streams. Lansing Kil Creek unites with the Mohawk River near the center of the town and flows south-westerly to Rome. The soil in the valleys is alluvium and very productive. Stone quarries are extensively worked near the confluence of Stringer's Creek and the Mohawk. These quarries furnished large quantities of stone for the Black River Canal.

Westernville, (p. v.) situated in the southern part of the town, contains three churches, two hotels, three stores, a tin shop, a carriage shop, two blacksmith shops, a tannery and about 200 inhabitants.

North Western, (p. v.) situated on the Mohawk River, a little east of the center of the town, contains a Methodist church, a hotel, two stores, a grist mill, a saw mill, a tannery, a blacksmith shop and about 100 inhabitants.

Hillside, a little north of the center of the town, is a hamlet.

Big Brook, (p. o.) is a hamlet near the east line.

Delta, (p. v.) is mostly in Lee.

The settlement of the town of Western was commenced in 1789, by Asa Beckwith, and his four sons, Asa, Reuben, Wolcott and Lemuel, who were soon followed by Henry Wager. With a single exception, these settlers continued to reside until their deaths, upon Their nearest neighthe same farms upon which they first located. bors were at Fort Stanwix, (Rome,) nearly ten miles distant.— Their grain, potatoes, &c., for seed, had to be procured at the German Flats. Henry Wager and Asa Beckwith went on foot to German Flats for seed potatoes, and each brought home a bushel upon his back. These were the first potatoes planted in town. Mr. Wager harvested seventy bushels in the fall, from his one bushel of seed. The proprietors of this town refused to sell their land, but leased it in perpetuity, or for three lives, receiving annual rents. This materially retarded the prosperity of the town. In the fall of 1789, the inhabitants built a bridge across the Mohawk River at this place, the first one built between its source and its junction with the Hudson. There was not a plank or a stick of hewn timber of any kind in it.

The first church (Bap.) was formed in 1798. The first town meeting was held at the house of Ezekiel Sheldon, and John Hall was elected supervisor. He held the office two years, and was succeeded by Henry Wager, who held the office twenty-four years.

GENERAL WILLIAM FLOYD, one of the pioneers of Western, was born on Long Island, December 17, 1735. He was early chosen an officer of the militia of Suffolk Co., and rose to the rank of Major General. He was soon after elected a member of the Provincial Assembly, and in 1774 was sent as a delegate to the first Continental Congress. He was one of the signers of the Declaration of Independence. In 1784 he purchased a large tract of land in what is now the town of Western, and removed thither in 1802, or previous to that. Rev. J. Taylor's journal, published in "Documentary History of New York," says of him: "He spends the summers in this place and the winters on his seat on Long Island;" and further on says: "Lodged at Gen. Floyd's, on the night of the 12th," [August, 1802.] "He is a gentleman of immense property, and is now building an elegant seat on the banks of the Mohawk." For more than fitty years he was honored by his fellow citizens with offices of trust and responsibility, and died universally lamented August 4, 1821. Many ancedotes of Gen. Floyd have been handed down, some of which are too good to be lost. He was very kind and generous to the poor, sometimes giving more liberally than his wife, though an excellent woman, felt it her duty to do. A poer man once called upon the General for aid, and received a bushel of wheat. On returning to the house Mrs. Floyd gave him a lecture on the impropriety of giving without knowing whether the object was worthy or not. The Gen. immediately turned to one

of his men and directed him to measure another bushel of wheat and give to the man in the name of Mrs. Floyd, as he wished her to share with him the happiness of receiving the poor man's gratitude. When the General came to Western he brought with him several slaves, one of whom, named Bill, was quite a favorite. wished to go to Rome, to celebrate Independence, and was furnished with a horse and some spending money. While there he heard the Declaration of Independence read, and the announcement that "all men were created free and equal," set him to thinking. He had taken sufficient of the ardent to make him feel his importance, and on his way home began to reason that if all men were equal there was no reason why Massa Floyd should not turn out his horse on his arrival, as he had been accustomed to turn out Massa's horse. In this delightful state of mind he rode up to the gate: "Halloo, Massa Floyd." The General had retired, but arose and asked Bill what he wanted. "I want Massa Floyd to turn out the horse," replied Bill. The General, perceiving the peculiar state of Bill, replied, "Well, well, in a minute," and proceeded to turn out the horse and put the saddle and bridle in their places. After Bill had slept off the effects of his over-indulgence, he appeared before the General to apologise for his conduct, but the General replied, "Never mind Bill, never mind, that is all got along with." Afterwards he used to relate with great glee, the part he took in helping Bill finish up the celebration of the glorious Fourth. He had another very tall man, named Long Tom. He was a great fox hunter, as the skins hanging about the premises abundantly testified. Upon killing his hogs the General discovered that the best one, weighing between three and four hundred pounds, was so measly as to be worthless; he therefore told Tom he might have it for fox bait. Without revealing his plan, Tom, after dark, harnessed a team and took the pork to Brayton's store, where he sold it for the highest price. The next morning Mr. B. discovered the utter worthlessness of his purchase and at once called upon the General for an explanation. The General knew nothing of the affair, but called Tom, and asked if he gave directions to sell the hog. "No, Massa," said Tom. "How did I tell you to use it?" "Massa Floyd gave me the measiv pig to bait foxes, and I have caught the biggest fox in town with it." The effect of the negro's wit was such that the General took from his pocket the price of the hog, paid Mr. B. and let Tom enjoy his pelf, obtained by successful fox hunting.

The population in 1865 was 2,362, and the area 33,294 acres.

There are twenty-one school districts in the town, employing thirty teachers; number of children of school age 916; average attendance 340; amount expended for school purposes during the year ending Sept. 30, 1868, \$3,743.08.

WESTMORELAND was formed from Whitestown, April 10, 1792. A part of Whitestown was annexed March 15, 1798. Verona and a part of Vernon were taken off in 1802. It is an interior town, lying south of the center of the County. Its surface is a rolling upland with a mean elevation of 150 to 250 feet above the Mohawk. The streams are mostly small brooks. Iron ore has been obtained in large quantities for the Westmoreland, Lenex. Onondaga and Paris furnaces. Several quarries of fine building stone have been extensively worked. Grindstones were formerly manufactured from some of these quarries. The soil is chiefly a gravelly and clayey loam, adapted to grain raising and pasturage.

Hampton, (Westmoreland p. o.) in the eastern part, contains three churches, a hotel, six stores, three carriage manufactories, the "Malleable Iron Works," capital \$42,000, and about 500 inhabitants. Two mineral springs near this place afford additional attractions to those in search of health or pleasure.\* There is a

Fair Ground with a half-mile track near the village.

Lowell, (p. v.) in the north-west part, contains two churches, a hotel, two stores, a carriage shop, a saw mill and eider mill, and about 100 inhabitants.

Hecla Works, (p. v.) in the south-west part, contains a large establishment for the manufacture of shelf hardware, employing about thirty hands. It contains about 20 dwellings.

Lairdsville, (p. v.) in the south part, contains a church and about

20 houses.

Spencer Settlement, on the north line, and Eureka, about two miles south, are hamlets.

The first settlement was made by James Dean, upon a patent granted to him under an act of May 5, 1786. In the fall of this year Mr. Dean was married, in Connecticut, and removed to this town, the journey being performed on horseback. Silas Phelps, with his family, removed from Berkshire County. Mass., to this town the same fall. In January, 1787, Ephraim Blackmer and Nehemiah Jones, from the same place, arrived, and in the spring of the same year, Joseph Jones and Joseph Blackmer Jr., arrived, all locating upon Dean's Patent. In 1789, settlers came in rapidly. John and Nathaniel Townsend, Benjamin Blackmer, John Vaughn, Josiah Stillman, Nathan Loomis, Joshua Green. Joseph Blackmer, Sr., Amos Smith, John Morse, Daniel Seely, Elijah Smith, Samuel Starr, Alexander Barkman and Stephen Brigham, located in the town. There is a deed on record in the County Clerk's Office, executed by George Washington and George Clinton to the above named Smith and Starr, for 153 acres of land. This was near the present village of Hampton. The hardships and privations of the early settlers of this town were greater than those

#### C. C. SHAVER,

No. 9 Broad Street, Utica, N. Y.

of the settlers of most other towns of this County. The nearest grist mill was at German Flats, and the scarcity of horses rendered it necessary that the settler should bring the flour for his family on his back. The season of 1787 was unusually cold, and the early frost seriously injured the corn, but it was their main dependence for food. In 1788, Mr. Dean built a saw mill, and the next year a grist mill. The first run of stones for this mill was manufactured by Edward Higbee, from a granite rock found near Samuel Laird's dwelling. Those stones are said to have been nearly equal to the best French burr-stones.

The first marriage in the town was that of Samuel Hubbard, of Clinton, and Mary Blair, March 23, 1790. The first death was that of Oren Jones, March 19, 1788. The first merchant in the town was Abraham VanEps. The first religious society, (Cong.) was organized September 20, 1792. Rev. Joel Bradley was the

first settled pastor.

James Dean, the first settler of Westmoreland, was born at Groton, Conn., in August, 1748. He was destined as a missionary, and at the age of twelve years was sent to reside at Oquago, on the Susquehanna, with an Indian missionary, who was laboring with a branch of the Oneida tribe. Here he learned the Oneida language and was adopted by a native female as her son. His knowledge of the Indian tongue was subsequently of great service to him. Under the instruction of this missionary, he fitted for college, and was a member of the first class that graduated at Dartmouth College. His freshman year in that institution was before the completion of a building for the use of the students, and the class used for a study and recitation room, a rude shelter, formed by placing slabs against the trunk of a fallen tree. He graduated just previous to the commencement of the war of the Revolution. In 1774, the leading citizens of each colony endeavored to ascertain the feelings of all classes of people in reference to the impending contest. Mr. Dean, from his peculiar fitness for the task, was appointed by the Continental Congress to ascertain the feelings of the Indians in New York and Canada, and to ascertain what part they would probably take in the event of a war. In order to disguise the object of his mission as much as possible, he assumed the character of an Indian trader and was furnished with such goods as were carried to the Indian country for the purpose of trade. He was also furnished with letters. invoices and other papers, from a well known house engaged in the Indian trade. He visited the Six Nations in New York and the tribes connected with them in Canada. While in Canada he was arrested as a spy, but his self-possession was equal to the occasion, and by the aid of his papers he was released. In this expedition he first visited Oneida Castle. During the war he was retained in the public service with the rank of Major, as Indian agent and interpre-

ter. He was stationed at Fort Stanwix and Oneida Castle most of the time. Through the influence of Mr. Dean and Rev. Mr. Kirkland, the Oneidas remained neutral through the war. At the close of the war he settled in Westmoreland, as has already been stated, on a tract of land given him by the Indians, the title to which was subsequently confirmed to him by the State. He had great influence with the Oneidas and was greatly esteemed by them. Notwithstanding this, he came near losing his life by them on one ocasion, and was only saved by the interference of the squaw who had adopted him as her son. For a number of years Mr. Dean was one of the Judges of Oneida County, and was twice elected to the State Legislature. He died September 10, 1823, in the seventy-sixth year of his age. A manuscript account of Indian mythology, written by him, is in the State Library at Albany. The population of Westmoreland in 1865 was 2,978, and the area 25,514 acres.

There are seventeen school districts, employing sixteen teachers. The number of children of school age is 995; the number enrelled in the schools, 805; the average attendance, 397, and the amount expended for school purposes for the year ending September 30th,

1868, was \$4,114.43.

WHITESTOWN, named from Hugh White, the pioneer settler, was formed March 7, 1788. It originally included an indefinite amount of territory, now forming several counties. Steuben, Mexico, Paris and Westmoreland, were taken off in 1792; Augusta in 1798; Utica in 1817, and New Hartford in 1827. It lies upon the right bank of the Mohawk, a little south-east of the center of the County. A broad, flat intervale extends along the Mohawk, from which the surface rises in gentle slopes about 100 feet, and from the summits spreads out into a rolling upland. Oriskany Creek ("river of nettles") flows north-east, through near the center of the town, and Sauquoit through the east part. The soil is chiefly a fine quality of gravelly loam and alluvium, well adapted to grain raising.

Whitesboro, (Whitestown p. o.) in the south-east part of the town, was incorporated March 26, 1813. It contains four churches, viz., Presbyterian, Baptist, Episcopal and Free Will Baptist; the Whitestown Seminary and several small manufactories. It is a station on the Eric Canal and the New York Central Railroad.

The population is about 900.

Oriskany, (p. v.) near the mouth of Oriskany Creek, is on the canal and railroad, and contains three churches, a cotton factory, a flouring mill, a tobacco factory, a store, three hotels, an iron manu-

factory and about 1,000 inhabitants,

New York Mills (p. v.) is a manufacturing village in the south part, on Sauquoit Creek, and contains three churches, two cotton mills and about 1,000 inhabitants.

Yorkville is a manufacturing village on the same stream. Waterville (p. o.) is a hamlet in the south-western part.

Coleman's Mills, in the central, and Pleasant Valley, in the north-

eastern part, are hamlets.

The first settlement was made in May, 1784, by Judge Hugh White and his five sons, Daniel C., Joseph, Hugh, Ansel and Philo. This was the first settlement made in the County and became the nucleus of civilization in Central New York. The hardships and privations of the early settlers can hardly be realized at this day. During the first two years of Judge White's residence here, the nearest mill was at Palatine, about forty miles distant, and for a considerable portion of the way the only road was an Indian trail. utterly impassable by any wheeled carriage and scarcely permitting a horse to thread his way through it. The early settlers frequently carried their grists to the mill and returned with them upon their backs. The first gristmill was built in 1788, upon Sauquoit Creek. by Judge White, Amos Wetmore and John Beardsley. Other early settlers not already mentioned were Jonas Platt, George Doolittle, Thomas R. Gould, Reuben Wilcox, Arthur Breese, Enoch Story, Elizur Moseley, Caleb Douglass, Wm. G. Tracy, Gerrit Y. Lansing and Henry R. Storrs.

Judge White and family removed from Middletown, Conn. He came by water to Albany, crossed to Schenectady by land, where he purchased a bateau in which he made the passage up the Mohawk to the mouth of Sauguoit Creek. When he left Middletown he sent one of his sons with a yoke of oxen by land to Albany. As the family proceeded up the Mohawk in their boat, the teams kept pace by land. When they arrived at Shoemaker's, a few miles below Utica, they found many of the farms unoccupied, and the charred remains of the houses and outbuildings told a fearful tale of the rayages of Tories and savages. Judge White planted a field of corn here, and in the fall returned and harvested a bountiful crop. His first house was of peculiar construction. It was situated upon the bank which forms the eastern terminus of the village green, in Whitesboro, a few rods south of the Utica road. He dug into the bank so that the lower story was underground and the upper one in regular log house style. The roof was composed of

The first religious society was formed in 1794, and on the 20th of August of the same year, Rev. Bethuel Dodd was settled as pastor. The population in 1865 was 3,984, and the area 15,697. The town contains thirteen school districts, employing sixteen teachers. There are 1,487 scholars, with an average attendance of 403. The amount expended for school purposes during the year ending Sep-

tember 30th, 1868, was \$4,125.54.

These Sewer Pipes, made of Hydraulic Cement and Gravel, are especially adepted for Sewerage, Sink Drains and Conductors of Water in Cities and Villages, Conductors under Street-Crossings, R. R. Embankments and Plank and Public Roads. Also, for Blow Pipes, Well Sides, Steam Escapes, &c.
Important recommendations of this Pipe are Cheapness and Durability. They im-

Important recommendations of the large are the spiess and Durability. They improve with age and use, and are easily and quickly laid, forming a perfect joint.

Their perfect smoothness gives them a capacity of at least 30 per cent, over brick.

stone or wood sewers of the same size, and prevents them from collecting sediments from sink or other drains.

They are largely used for Sewerage purposes, in Brooklyn, Central Park, New York, Albany, Jersey City, Elizabeth, New Haven, Hartford, Rochester, Buffalo, Navy Yards at Brooklyn and Washington, and for Culverts under heavy Railroad embankments.

Parties wishing to purchase PIPE will please sand for Price List. All orders promptly attended to.

Office and Factory Cor. Howard Avenue and Eagle St.,

|  |                            |

### To My Customers.

Owing to the largely increased facilities for manufacturing, (WITH ENTIRE NEW MACHINERY throughout the whole Factory,) and with the most competent workmen in all departments, with steam fixtures for coloring and finishing only to be equaled by a few first-class Fancy Mills in the State, the subscriber offers advantages to those desiring their own Wood Manufactured, such as can be had at no other Custom Mill in the Country. With a large capital invested in Custom manufacturing, the subscriber is enabled to offer an assortment of Goods to his customers such as can be found at but few first-class Jobbing Houses in our cities, consisting of

### THIRTY THOUSAND YARDS OF CLOTHS AND FLANNELS.

Of all grades, styles and colors. Thanking his customers for former favors, the subscriber will endeavor to increase and keep good his reputation as a first-class DOMESTIC WOOLEN MANUFACTURER.

Knowing that it costs no more to trim and make a good quality of cloths into garments than it does a poor shoddy article, the subscriber appreciates the necessity for furnishing his customers none but the best of cloths, and is more anxious for his reputation with his customers than for mere dollars and cents. Those wishing cloths from their own wool can have it manufactured,

Come with your wool to the Factory, where Cloths can be had at first hands, and no

Freight, Commission or Storage charged.

Wool sent in Bales of 100 pounds or more, by R. R., to Canastota, N. Y., at my expense for freight, and Cloths or Flannels returned with as little delay as possible on your order. Yours truly,

GEO. B. CADY.

## EXCITEMENT AT FLOYD CORNERS!

## THE OLD STORE IN NEW HANDS!

## J. W. HANNAHS

Takes pleasure in informing the citizens of FLOYD that he has purchased the Store formerly conducted for many years by A. S. CLARK, and is ready to deal fairly and honorably with every one who may favor him with a call. The Old Store has been well filled with an entirely NEW STOCK OF GOODS, comprising everything usually kept in a country store, including

DRY COODS, CHOIGE FAMILY GROCERIES, Sugars, Syrup and Molasses, Teas, Coffees, Kerosene Oil, Tobacco and Snuff, Crockery, Nails, &c., &c.

Which he will offer very cheap for CASH. Call and satisfy yourselves.

Floyd, N. Y. J. W. HANNAHS.

Also, Dealer in Flour and Yankee Notions.

## Cancers Gured! OR NO CHARGE.

## DR. KINGSLEY,

OF ROME, N. Y.,

Has discovered a perfect cure for Cancers without the use of the knife. Thousands of destroy the specific nature of most cancers in from ten to sixty minutes. Even in those large Cancerous affections of the breast, from which so many tenules die annually, my specific is equally as effectual as in those smaller surface Cancers. Ninety-nine out of a hundred of all those persons who have died from Cancer, could easily have been cured. Cancer has been considered from time immemorial the greatest scourge of the human race; but the time will come when all shall see that it is as remediable as any other disease. At the same time remodes are given to purity the blood and fortify the system against a renewed attack. In all cases, if the Cancer is not too far advanced, a perfect

cure is warranted, or no charge

Most persons are greatly deceived in regard to the first symptoms and appearance of Cancer, considering it very painful from the commencement. This is a said mi-take, causing the death of thousands, there being but little or no pain until the Cancer is far advanced. The only symptoms for months, and in some cases even for years, is occasionally either a stinging, itching, smarting, burning, creeping or shooting sensation, and in some cases not even any of these. Nearly all of those hernels or lumps that occur in the female breast, and also those unnatural appearances in the form of crusts or warty excrescence, which appear in either sex on the face, libs, nose, eye lids, or any other part of the surface, are cancers. Cancer is very easily cured in its early surge, consequently it is of the very greatest importance that all thus afflicted should have immediate treatment; as thousand- of very valuable lives have been lost from pure neglect, having been misguided by physicians having no knowledge of the disease, who, by calling it Scrotula, Ervsipelas, Salt Rhoum or some other non-territring disease, buil this unfortunate class Erysipelas, Sait Ricettu or some enter touckeringing about a tweeth, when, to hide such ignorance, the physician tells the period that it has finally turned to Cancer, and cannot be cored. There is no such taking as turning to Cancer. Whatever ends in Cancer, began ance, the physician consecution is a taken in as many thring to Unicer, and cannot be cured. There is no such taking as turning to Cancer. Whatever ends in Cancer, began in Cancer. Be no longer decests. If you have the slightest suspicion of trouble, seek immediate relief and thereby preserve life.

Consumption, Remedials, Catarch, Astham, Heart Disease, Dyspepsia, Liver Complaint, Firs, St. Vitus, Dance, Normalda, Sedd flord, Piles, Tane Worms, or Worms of any kind, all Diseases of the Salar Plander, Secrothal or King's Evil, Fiver Sores, Spinal Diseases, Recumatism, Goat, Dropsy, Diabetes, Kichey Diseases, Gravel, and

all Diseases, the charteness of central states of the stat deformities. Operations for Stone in the bladder, Polypus, Strangulated Hernia, Fistula, or the cure of False and Crooked Join's and all deformities of the Eye Lids, Nose, Lips, Neck &c., resulting from Barns or Wouldes, benformed upon the most scientific principles. All Diseases of the Evenuel for trented with very great success.

Especial attention given to the tre, thiefit of all diseases originating from the errors of

misguided Youth.

Patients from a distance, except in Surgical and Cancer cases, by sending a full description of their symptoms, can have medicines sent by Mail or Express, and be treated at home.

All letters promptly answered, and medicines ordered, immediately forwarded,

The Doctor is a graduate with an experience of over fourteen years in the practice of medicine, twelve of which have been spent in Rome.

-All persons troubled with Ashma should send for Dr. Kingsley's ASTHMA SPECIFIC, which will relieve any case amoust immediately.

Send for DR. KINGSLEY'S AGUE SPECIFIC, which is purely vegetable and never fails to cure.

All troubled with a Cough of any kind should be sure to send for DR. KINGSLEY'S COUGH BALSAM, which cures as by magic.

For Further Particulars, Write the Doctor.

## THE REYNOLDS

# Mover & Reaper

MANUFACTURED EXCLUSIVELY BY US, UNDERREYNOLDS' PATENTS for Tempering Steel without the aid of any liquids, received the only award at the Great National Implement Trial, held at Auburn, in 1866. They possess the following superior qualities:

They are made with a fine Cutlery Temper at the edges.
 They hold only a Spring Temper at the center and at the beel.

They are warranted perfectly uniform, every knife being exactly alike in temper.
 We warrant they can be ground from 8 to 10 times without losing their cutting

4. We warrant they can be ground from 8 to 10 times without losing their cutting edge.
5. Finally, we will warrant them to cut from 40 to 50 acres of grain or grass without

being once ground.

We are the sole Manufacturers of these Knives in the United States.

PARIS EXPOSITION 1867.

### Machines. Over

Also, the following STATE FAIRS, of 1868, have awarded this Machine the FIRST PREMIUM:—New York, Ohio, Pennsylvania, Massachusetts, Vermont, New Hampshire, Wisconsin, Indiana.

At the County Fairs of Madison, Onondaga, Oswego, Wayne, Orleans, Tompkins, Seneca, Monroe, Herkimer, Schuyler, Livingston, and a host of others, and Town Fairs too numerous to mention.

Report of the Committee on Sewing Machines, at the State Fair, held at Rochester, Fall of 1868:

"Your Committee have examined the different Sewing Machines, to which their attention was called, and would recommend as the best Family and Machine for all work,

tention was called, and would be seen a first best raining and rate of all worst. Elias Howe's Sewing Machine, and for the following reasons:—
"1st—Simplicity of construction. 2d—Regularity of tension on both upper and lower threads. 3d—Ease of management. 4th—Great range of work upon all materials. 5th—The perfect attachments to the Machine for felling, hemming, tucking, and the second statement of the second braiding, quilting, binding and cording, and the ease with which they are applied. 6th—The durability of the Machine, it being made of hardened steel, and adjustable in its bearings. We recommend a Medal."

## THE SUMMER RESORT! BY W. PERKINS.

This House has been fitted up for the accommodation of Guests, and will be open for the Season of 1863 and afterwards. It is a three story brick house, with a tront of thirty-six feet, and a depth of seventy-six feet, and will accommodate sixty boarders.

SURROUNDED BY THE MOST

DELIGHTFUL SCENERY

AND CONVENIENT TO

TRENTON FALLS!

With Avenues leading through secluded ravines and over picturesque elevations, the traveler or boarder will find here a resting place from the cares and perplexities of business life, with so many pleasing variations, that the dread enemy, ennut, will have no time to hurass or weary one.

We aim to make this a pleasant country home for people from the city, and an agreeable stopping place for fourists and wedding parties.

Davison's Thornless Raspberries.

Waterloo, N. Y., 1869.

The undersigned who is the one who first introduced the Seneca Raspberry to the pub-

lic, will now be prepared to furnish No. One First Class Plants, of Senecos and Davison's Thornless, which are to be the leading Raspberries and should go together.

The THORNLESS is early, ripens a trute earlier than the Doublitle; the SENECA ripens about two weeks later than THORNLESS, which makes the season complete in the berry line.

All wishing good, first-class plants of these two valuable berries, can rely on me for them, as I will send out no poor plants.

Send stamp and get my prices, when issued nextfall.

My soil enables me to grow plants equal to any grown in the country, and they are pronounced No. One, by reliable dealers. Yours Truly.

#### WARREN WIGHT.

Waterloo, Seneca Co., N. Y.

P. S .- Write your name very plain, that there may be no mistake, and send early.

#### RETAIL RATES.

SENECAS—\$75 per 1000. \$10 per 100. \$2 per doz. DAVISON'S THORNLESS—15 " 100. 3 " doz.

Cash with Order or C. O. D.

#### AND

### DAILY GAZETTE.

NINE DOLLARS A YEAR IN ADVANCE, contains more reading matter than any other daily published in Central New York, including the fullest and latest

### TELEGRAPHIC REPORTS, CORRESPONDENCE

From the State and National Capitals, and elsewhere, while especial attention is bestowed on

## LOCAL AND GENERAL NEWS.

AGRICULTURAL DEPARTMENT.

is especially designed for the DAIRYMEN AND FARMERS of the Central and Northern Counties.

The UTICA HERALD has by far the largest circulation in the City, and its

### AGGREGATE CIRCULATION IS OVER 12,000.

FAMILY PAPER FOR 1869.

ONLY TWO DOLLARS A YEAR!

### UTICA WEEKLY HERALD.

The UTICA HERALD is carefully and conscientiously edited. Its

### EDITORIAL ARTICLES

discuss all current topics fairly and boldly. In its Weekly as well as its Morning edition, it is pre-eminently

### NEWSPAPER.

By thorough classification and elaborate condensation it presents the gist of all the news in the briefest space, and the person who reads no other journal, will not be ignorant of the current of events, and the movement of men and of principles.

#### AS AN AGRICULTURAL PAPER.

the position of the UTICA WEEKLY HERALD is established. The large dairying interests of this and other States, regard it as an authority.

### THE CORRESPONDENCE

weekly published in our columns, from Washington, New York, Albany and elsewhere, is not inferior in literary or political interest to that of any other journal in the country.

### THE LITERARY DEPARTMENT

will receive during the coming year, increased attention, and we trust will deserve in even a higher degree than heretofore the encominums which have been bestowed upon it.

THE TERMS.—The UTICA WEEKLY HERALD will be published at the low price of \$2.00 a year. Payment is required in advance. Taking into account the size and character of the paper,—its political, news, literary and agricultural merits,—it is believed that this is the Cheapest Paper Published. Now is the time to form Clubs. Let the circulation be doubled during the current year. Address:

### PUBLISHER'S NOTICES.

C. C. Shaver, Manufacturer of Solid Silver Ware and dealer in Plated Ware of Silver Ware and dealer in Plated Ware of all kinds, No. 9 Brond street, Utica, N. Y., advertises on colored page 134. Mr. Shaver keeps a splendid assortment of first class goods which he sells at prices which cannot fail to satisfy. Cash paid for old silver. Call and see his splendid Tea Sets, and other elegant goods.

Claesgens House, is located opposite Barg's Horel, Utica. N. Y. It has recently been repaired and travelers will find comfortable quarters and reasonable terms. P. Claesgens, the proprietor, will spare no pains to make his gnests feel at home.—See card, page 150.

R. A. Barton, Carriage Maker, Rome, N. Y., gets up some of the best Top Burgles and carriages to be found in these parts. Great pains are taken in the selection of the materials, and the style is made to suit the purchaser. A general assortment of Carriago materials constantly on hand. His card appears on page 150.

Wood Brothers, proprietors of the Camden Foundry and Machine Snop, are prepared to do all sorts of machinery jobbing. They manufacture Turbine Water Wheels, Grist and Saw mills and Circular mills which will be delivered to order at short notice. See card, page 154.

F. Orlel, at No. 34 Dominick street, Rome, N. Y., keeps one of the best assortments of Furs, Robes, Hats, Caps, Gloves, &c., to be found in Central New York. Ladies or gentlemen can hardly fail to find something to sail their tasic and their purse by calling on Oriel, the Hatter. See card on colored leaf, opposite page 117.

Henry S. Miller, Real Estate Agent, corner of Genesee and Columbia streets, Utica, N. Y., buys and sells Real Estate, collects rents and attends to all business intrusted to his care with promptices.—Persons wishing information upon that subject will do well to give him a call. See card on colored leaf, opposite page 117.

Henry W. Pell, Wholesale and Retail dealer in Hardware, Iron, Steel, Nails, &c., Rome, N. Y., advertises on colored page 133. Mr. Pell keeps a very large assortment of everything kept in a first class Hardware Store, a good idea of which may be had from reading his advertisement.—He is agent for W. A. Wood's Prize Mower and Self Rake Reaper, and manufacturer of Pell's Patent Draught Attachment, which is far superior to anything of the kind before introduced to the public. Give him a call at the corner of James and Dominick streets.

J. F. Forgham, proprietor of Florence Lumber and Shingle Mills, West Camden, is prepared to sapply all orders at short notice and on reasonable terms. The best always on hand. See card, page 150.

Miss Nettie M. Filler, manufacturer of Hair Jewelry and Ornamental Hair Work, No. 130 Genesse Street, Utica, N. Y., publishes a card on page 150. Miss Miller is prepared to execute all work intrusted to her care in the best style of the art; she will also give instruction when desired.

M. C. West, M. D., Physician and Surgeon, No. 60 Dominick Street, Rome, N. Y., will attend to all professional calls by day or night. Those who require the services of a physician will do well to patronize Dr. West. His residence is 45 George Street. See card, page 194.

William York, agent for Weed Sewing Machine, Canden, N. Y., advertises on page 146. This Machine, with the latest improvements, is one of the best in use. It has received several First Premiums at State and County Fairs, as well as at the Paris Exposition. Mr. York keeps the Wheeler & Wilson and other first-class Machines on hand. Call and select for yourselves.

Frank Bickley, proprietor of the Rome Clothing Emporium, No. 77 James Street, keeps an excellent assortment of everything for men's and boys' wear, made up especially for his own trade. Persons purchasing goods at this Emporium may rely on getting good work. A general assortment of furnishing goods always on hand. See eard, page 146.

George B. Cady, manufacturer of Woolen Cloths, at Lenox Furnace, sets forth the advantages of trading with him in a neat circular on colored page 186. Mr. Cady has gained an excellent reputation as a manufacturer, and his Cloths are universally conceded to be very serviceable by those who have worn them. His milis are extensive, are supplied with the best modern machinery, and are equaled by but few in the State. Farmers, as well as business men and mechanics, will find it greatly to their advantage by purchasing their goods at the factory, as Mr. Cady will self them only such goods as he can warrant to be darable and well made. He makes no other.

Hoyt & Butler, General Insurance Agents, No. 90 Genesee street, Utica, N. Y., advertise on colored le fi opposite page 116. They represent some of the best companies in existence, and will attend to insurance of all kinds on as favorable terms as is consistent with safety. The aggregate assets of the companies which they represent amount to about \$40,000,000.—The assets of the North British & Mercantile amount to \$13,000,000, and that of the Mutual Benefit Life to \$14,000,000. The writer of this notice has held a policy in the last named company for eighteen years, and has just taken out another, believing it to be one of the best companies in the United States. Persons wishing any kind of insurance will do well to call on Messrs. Hoyt & Butler.

BAKER, WILLIAM, (W. & R. C. Baker.)

#### PUBLISHER'S NOTICES.

The Rome Sentinel, published by Beers & Kessinger, No. 58 James Street, is the oldest paper in Rome, has a large circulation and is a good advertising medium. The Job department is previded with a Hoe press and steam power for large work, and improved power pre-ses for small work. The office was never in better condition than under the management of the patronage it receives. Messrs, Beers & Kessinger are young men, and will spare no pains to make their paper, worthy of public patronage, and their job work first class. See card, page 142.

The Reynold's Steel Tempering Works, Reynolds, Barber & Co., Proprietors, at Auburn, are largely engaged in the manufacture of Reaper and Mower Knives, Plane Irons, Chisels, &c. The process by which they temper steel is a peculiar one, and as patented by Mr. Rey-nolds, is the result of over forty years labor. This gentleman always worked on the plan that tempering steel was simply changing it from a fibrous to a granular state. He certainly has succeeded in producing a finer granulation (temper) than has ever before been produced. Messrs. Reynolds, Barber & Co., control the parents for these processes, and are applying them successfully in all their manufactures.— Their establishment is capable of turning out an immense amount of work, yet their orders are now, and have been for some months, accumulating far in advance of their present ability to supply; a circumstance which they will not long allow to be the case. We predict that the time is not far distant when all Mower and Reaper Factories and farmers will use their improved sections. See their advertisement on page 270, fronting the Introduction.

Russ & Tibbits, No. 56 James Street, Rome, N. Y., represent a New York Branch Wholesale and Retail Paper lianging and Paint Warehouse. Paints of all kines are prepared in quantities to suit purc. assers. Orders for work or for materials are promptly attended to. Those who wish a fresh coat of paint upon their houses or new paper upon their walls will find it for their advantage to call on Russ & Tibbits. See card, page 176.

I. Pryor Tapping, No. 3½ Columbia Street, Utica, N. Y., keeps a general Variety Store, at which may be found a great assortment of useful and fancy articles, which are constantly offered at low prices, and their places filled by the latest novelties out. See card, page 138.

Aldridge & Carroll, No. 23 James St., Rome, N. Y., are prepared to furnish the lovers of the weed with the choicest varieties, either for smoking, chewing or snuffing. Call at the sign of the Turk, all ye lovers of a choice Havana or of the delicons fine cut, and decide for yourselves upon their meetrs. See card, page 180.

Dodge & Lord, manufacturers of Melodeons and Reed Organs, at Thaca, N. Y., were formerly connected with Syracuse manufactories. They have since moved their business where lumber is cheap, and expenses less than in the larger cities, like New York, Boston, Albany or Syracuse. The styles of their organs are particularly their own, possessing all modern improvements, and some unknown to other manufacturers. They have found market for their instruments in every county of the State, and in Northern Pennsylvania and New Jersey, and have an increasing trade with the West, in all of which places they are brought into successful conjugation, with the first Eastern manufacturers. They are both practical men, and lave secured workmen of long experience and tried abilities. Sinated midway between the Eric and N. Y. C. railroads, they can ship conveniently to all parts of the country. See card, page 33.

Howe's Never-Failing Ague Cure and Tonic Bitters, and Howe's Concentrated Syrup, are prepared under the personal supervision of Dr. C. B. Howe, the proprietor, at Seneca Falls, N Y., for agne and fever, and all periodic diseases, rheumatism, paralysis, etc. The "Ague Cure" has produced wonderful cures. The "Syrup," for the blood, liver, skin, digestive and uterine organs, has cured many cases of scroula, cancer, tumors, goiter, salt rheum, scaldhead, and many other diseases too numerous to mention in this place. See card, page 218.

Warren Wight, Propagator and dealer in the celebrated Seneca Black Cap and Davison's Thornless Raspberries, Grape Vines, Strawberries, and other small fruits, at Waterloo, Seneca Co., publishes a card on page 302. His experience in the business is large, and his soil is excellent, probably no better can be found in the State for the purpose he uses it. We advise our friends to peruse his advertisement and purchase their supplies of him. He uses great care in packing for shipment, and sends out none but first-class plants. It would do no harm to address him for a circular, and might be the means of affording you an abundance of his delicious fruits.

John D. Ely, dealer in Stoves, Kitchen Furniture, &c., 47 Dominick Street, Rome, publishes a card on page 176. Mr. Ely keeps a general assortment of Tinware, Gutters, Conductors, &c., needed by every family. He is also agent for the celebrated Stewart Stove.

C. & T. Waterman, manufacturers and dealers in Lumber and Shingles, Taberg, Oueida Co., are prepared to furnish at short notice anything in the line of lumber to be found in this region. A great variety of Hardwood, Basswood, Spruce and Hemlock lumber on hand. Their card appears on page 176.

## PUBLISHER'S NOTICES.

Siegrist's Hotel, No. 4 Pearl Street, corner of Genesee, opposite the Ciry Hall, Utica, N. Y., is centrally situated and convenient for the accommodation of travelers and business men. Those who want a good wholesome meal at a moderate price will do well to call at Siegrist's. See card, page 166.

Chas. Tremain & Co., manufacturers of Rag, Book, News, Tea and Wraping Paper, at Manifus, publish a card on page 302. Publishers and paper dealers will find them fair and honorable men to purchase from. In the manufacture of book and news, they use only demestic stock, which is conceded to be superior to imported rags. They employ experienced paper makers only, and baving improved machinery, they can insure a superior article in all cases. We are their paper in the publication of our directories.

J. M. Orton & Sons, Manufacturers and dealers in Furniture, Looking Glasses, &c., No. 28 Dominick Street, Rome, N. Y., advertise on page 138. Those in want of good, substantial furniture, will find it for their advantage to call at this establishment. Undertaking in all its branches attended to. Their assortment of Caskets, Coffins and Trimmings is not surpassed.

C. B. Whiffen & Co., at the Fulton Market, deal extensively in Beef, Pork, Mutton, Veal and all kinds of meats of the best quality offered in the market. Call and see, at No. 29 Genesee Street, Utica, N. Y. See card, page 106.

John II. Goult, House, Sign and Ornamental Painter, No. 112 South Street, corner of Brinkerhoof Avenue, Utica, N. Y., is prepared to do all kinds of work in his line in a manner satisfactory to his customers. Painters' materials constantly on hand. See eard, page 218.

J. A. Williams & Co., Importers and Manufacturers of Shawls, Closks, Silks and Ladies' Furnishing and Milliners Goods, No. 57 Franklin Square, Urica, N. Y., have one of the richest and rarest selections of goods to be found in the city. Milliners, Dress and Cloak Makers will find everything that they desire at this place, and prices to correspond. At 52 South Salina St., Syrachse, these gentlemen have another store of the same kind which will supply all demands made upon it. See advertisement, page 246.

Mundy & Willams, proprietors of the Photographic Studio, No. 12 Tibbitt's Block, Utica, N. Y., advertise on page 292. Pictures in every style and of every size, and the most life-like in appearance, can always be obtained at this establishment. The best of artists employed in every department, and photographs in Colors, India Ink or Oil, executed in the best style and at moderate prices. Call and see.

Fones & Howarth, manufacturers of Drain, Sewer and Culvert Pipe, corner of Howard Avenue and Eagle street, Urica, N. Y. This pipe is made of hydraulic cement and gravel, and for cheapness and durability is not surpassed. It is made of various sizes from three inches to two feet in diameter, and its smoothness renders it especially adapted to drainage. See card, page 154.

Camden Woolen Mills, at Camden, Oucida Co., N. Y., manufacture heavy goods for farmers' and mechanics' weer. No shoddy is used, but all cloth is made of tool. Wool manufactured on shares or taken in exchange for cloth. See card, page 176, P. W. Hart, agent.

Billenbeck & Nisbet, proprietors of the People's Boot and Shoe Store. No. 70 Dominick Street. Rome, N. Y., keep one of the best assortments of boots, snoes and rubbers to be tound in Rome. Good workmen are employed, and custom work of the first quality turnished to order. For further particulars see advertisement on page 162, and give them a call.

Andrew C. Petch, dealer in Cabinet ware and Undertaker, Hampton, N. Y., keeps on hand a large assortment of all goods in his line, which he will sell at prices that defy competition. Let the incredulous call and test the truth of this statement. His card appears on page 355.

S. C. Hubbard, Manufacturer and dealer in all kinds of Furniture and Cabinet Ware, No. 28 Main Street, Poonville, N. Y., advertises on page 172. Mr. H. has removed to his new quarters where his rooms are furnished with an extensive variety of all kinds of furniture, which he is determined to sell at prices to suit customers. His stock of Undertakers' goods is the largest to be found in this region, and none can fail to be suited. Give him a call before purchasing elsewhere.

L. Dean, manufacturer of Iron Railing, Fence and other Ornamental Iron Work, No. 182 Whitesboro Street, Utica, N. Y., advertises on page 378. We have seen specimens of Mr. Dean's work and can cheerfully bear testimony to its excellence in quality and beauty in style. A great variety is made and purchasers can select according to their taste. Call and see his specimens.

Charles R. Tuft, of the Hoop Skirt Manufactory and Corect Emporium, No. 182 Genesee Street, Utica, N. Y., publishes an advertisement on page 266. Mr. Tuft uses the best of materials and will make 10 order any size required. Those who pucchase at the manufactory will save the profits of the retail dealer. An extensive assortment of Corests always on hand, Worsted Goods in great variety and at low prices to be had in large or small quantities, Give him a call.

#### PUBLISHER'S NOTICES.

Sanford V. Mall, Patentee and manufacturer of the Gein Washing Machine, McGrawville, N. Y., publishes a card advertisement on page 12. This machine is considered play nearly the best washing machine ever invented, and the price is so low that it will valuable fertilizers are kept by Messers, pay for itself in a short time. Agents will Hollingworth & Brother, and sold its plantage in this a valuable article for sale.

George W. Cranwell & Esrothers, corner of Eagle and Chatham streets. Utica, N. Y., are prepared to take contracts for building, and all kinds of Mason, y, and execute them in the best manner and with dispatch. Persons in the city or county will find Messrs, Cranwell prompt and reliable men. See card, page 212.

Charles Tuttle, dealer in Pianos. American Organs and all kinds of Musical merchandise, 83 James street, Rome, N. Y., keeps the latest Sheet Music. Music Books. Stationery, Wall Paper and a large stock of Fancy Goods of all descriptions. Agent for the Florence Sewing Machine. His card appears on page 218.

John Emdin, Practical Optician and Oculist, Exchange Buildings, Utica, N. Y., publishes a card on page 232. We take pleasure in calling the attention of the public to Mr. Emdin, as he is a practical optician, and so thoroughly understands his business that he can fit the eye to a great nicety on mere examination. Let all whose sight is impaired in any respect give him a call.

Philo S. Curris, Machinist and Founder, No. 190 Whitesboro street, corner Vulcan, Utica, N. Y., is engaged in the manufacture of Steam Engines and Beiters, Iron Planers, Engines and Hand Lathes, and everything manufactured at a first class machine shop. Mr. Curtis gives special attention to repairing machinery and Jobbing of all kinds. Give him a call. Ilis card appears on page 282.

Singleton & Sons, General Undertakers and Furniture dealers, Utica street. Clinton, N. Y., keep a fine assortment of Caskets, Coffins and other Undertakers' goods. Furniture of all kinds manufactured and kept on sale. For particulars see eard, page 212.

The Roman Citizen, published by Sandford & Carr, is advertised on page 236. This paper has been published about thirty years and is too well known to need commendation. During that long series of years it has been a welcome visitor to many homes that would not willingly dispense with its weekly advent. Book and Job Printing in the best style of the art is executed at this office, at reasonable rates.

David Marble, manufacturer and dealer in fine and common Furniture, Camden, N.Y., is prepared to fill all orders at short notice. Mr. Marble guarantees all goods as represented. His stock is new and his styles are up with the times. Undertaking in all its branches attended to at short notice. See eard, page vis.

G. T. Molling worth & Brother, agents for the Economy Rake, publish an advertisement on page 188. This lives appears to be one of the most valuable inventions in use by farmers. All the most valuable fertilizers are kept by Messrs, Hollingworth & Brother, and sold inspacatities to suit purchasers. They are agent also for an excellent article of Wooden Water Pipe and the cedebrated Anti-Freezing Stone-Ware Barrel Pump, which for cheapness and durability is unsurpassed. This pamp is very simple in construction and easily put in working order. Call at all Cuthavine, or East corner Albany Streets, Utica, N. Y.

A. M. Munson, Water Lime, Calcined Plaster, &c.-The Water LIME sold by him is the genuine Ononcinga Cement, where the best Lime Quarries in the country are found. He also has the "Rosenbale Cement," specially adapted for Water Works, Cisterns and the strongest It is necessary in purch sing musoury. these articles, to be particular in selecting the brands, as there are several kinds of an inferior quality. Having made arrangements with the best manufactories to receive these articles fresh daily from their works, he is enabled to effect shipments direct from them, or from his own e-tablishment, at the lowest market prices. He is also daily receiving the choicest brands of Finishing Lime, viz: "Bald Mountain," Glens' Falls and "Rockland Finishing." Masons, Bleachers, Sugar Refiners and Chemists will do well to call and examine for themselves, as he is confident of giving entire satisfaction. He is pre-pared to furnish CALCINED PLASTER of extra quality for Stucco and Ornamental work; also brands for Casting and for DENTISTS' use. MARBLE DUST for extra finish, and the BEACH SAND for ordinary use, need no commendation. See advertisement on page 224.

James L. O'Reilly, of the City Tea Store, No. 27 Bleecker Street, Utica, N. Y., keeps one of the best assortments of Teas, Coffees and Spices to be found anywhere in the city. He makes a specialty of Teas, which he purchases in large quantities and is prepared to sell at wholesale or retail. Farmers who have produce to dispose of will do well to give him a call, as he pays the highest price in cash for all farm produce. His cord appears on page 266.

Miller & Mc Master, panufacturers and dealers in Pumps and Pump Lors, Floyd, N. Y., publish a card on page 286. They are prepared to furnish pumps and water pipe of the best material, and warrater all work as represented. All orders by mail or otherwise promptly attended to.

#### PUBLISHER'S NOTICES.

The Utica Morning Herald, familiar as "household words," throughout the greater portion of Central and Northern New York, has for many years been the leading journal of this section of the State. Since it came under the management of Hon. Ellis II. Roberts, it has improved wonderfully in all its departments. The business has grown to be one of such magnitude, that the proprietor can afford to, and does employ, able minds to write up the various subjects treated in his As a chronicler of events transpiring daily in this and foreign countries, it is not equaled out-ide the great cities. is just the paper for the politician, the farmer, or the general reader, and its immense circulation makes it an advertising medium of care value. The job depart-ment and book binding of the Herald, are managed by experienced superintendents. Mr. R. W. Roberts, of the Job Department, is one of the oldest printers in the State, and looks with careful eye after the interests of the office by turning out superior work in the line of job printing. For further particulars in regard to the HERALD, Daily or Weekly, we refer the reader to advertisements on pages 346 and 354.

Hayden & Thomas, Wholesale and Retail Dealers in Groceries. Provisions, cc., No. 71 New Block, James Street, Rome, N. Y., publish a card on page 194. Messrs, H. & T. keep a good stock on hand and purchase country produce for which the bi-thest price in cash will be paid. Give them a call.

George Du Bois, at 181 Genesee St., Utica, deals in Crockery, China, Glass Ware, Lamps, Cuttery, Silver Plated Ware, &c., &c. Purchasers of Crockery and China, whether dealers or persons buying for their own use, will do well to remember that Mr. Du Bois makes direct importations of those goods from Europe several times a year. He is thus enabled to offer the newest patterns, in endless variety, and at bottom prices. Remember this when you visit Utica. See his card on map of the county.

Benj. B. W. Brabazon, General Insurance Agent, Florence Post Office. Residence, Oscoola, Lewis Co., N. Y., publishes a card on page 194. Mr. Brabazon represents good substantial companies, and those wishing to effect an insurance on their lives or property will do well to give him a call.

Greene's Anti-Billous or Tonic Bitters, are an invaluable remedy for all Billous Diseases. These Bitters are prepared on scientific principles and especially adapted to the many forms of disease resulting from a diseased liver. Persons suffering from debility, languor, and other complaints incident to the spring of the year, will be greatly relieved by these Bitters. C. F. Greene, No. 38 Dominick St., Rome, N. Y., is the manufacturer. His advertisement appears on page 20.

W. H. Duval, manufacturer of Saddles, Harness and Trunks, at No. 35 Genesee street, Urica, is far and near noted as being a first-class manufacturer. His goods on exhibition at the State Fairs have uniformly been awarded first premiums. For elegance in style and finish of Double or Single Harness, Mr. Duval stands unrivaled. In the Trunk Dipartment, he employs several experienced workmen, and we venture to say that nowhere can better goods be found for the same money. We would recommend citizens of Oneida Co. to call on Mr. Duval for anything they may need in either department of his trade, See advertisement on map of county.

A.B. Southwick, M.D., Homceopathic Physician, No. 35 Dominick Street, Rome, N. Y., publishes a card on page 258. Dr. Southwick is prepared to treat in an intelligent and scientific manner, all patients who may favor him with a call. Let the afflicted take notice.

Mrs. A. E. Moore, dealer in Fancy Goods, Hoop Skirts, Worsteds, &c., No. 89 Genesee Street, Utica, N. Y., publishes a card on page 258. Mrs. Moore exhibits great taste in the selection of goods, and that lady must indeed be very fastidious who cannot find something to suit her in this large stock. We condially commend her to the patronage of the public.

H. L. Rose & Co., dealers in Flour, Feed and Grain, Rome, N. Y., are supplying the wants of the community at wholesale and retail. All may rely upon getting the article just as it is represented to them. Messrs. R. & Co. believe that honorable dealing is the sure road to success. See card, page 338.

P. A. Hart & Co., dealers in Ready Made Clothing and Gents' Franishing Goods, Clinton, N. X., piblish a card on page 208. Their stock embraces the best styles of the various qualifies of goods and are offered at prices which cannot fail to suit customers. Call at the Clinton Clothing Store, Platt & Osborn's Block, College St., and purchase a new sait.

James B. Sykes, of the Clinton Photograph Gallery, is furnishing the public with some of the best pictures in the county at prices to suit the means of all. Picture Frames of all kinds on hand. Secure the shadow while the substance remains. See card page 208.

B. F. & T. M. Davies, Jewelers and Watch makers, corner Genesce and Whitesboro Sts., Utica, publish a card on the map of the county, fronting title page. This firm are extensive deslers in fing goods, from the most celebrated manufactories in this and foreign countries. The house was established in 1818, and has always borne an envisible reputation for fair dealing. We cheerfully recommend them to the favorable notice of those under whose eye these pages may come.

EDITORS AND PROPRIETORS.

# A TWENTY-EIGHT COLUMN PAPER.

Devoted to the Diffusion of General Intelligence and Matters of Home Interest.

Terms:---\$1.50 in Advance; \$2.00 at end of the Year.

N. C. Newell & Son, dealers in Paone of the oldest houses, if not the oldest. in Utica, it having been established on the ground where it now stands more than rifty vears ago, and is undoubtedly the oldest in this line of business in Central New York. This firm do a large wholesaling business. and we cordially recommend dealers throughout Central New York, as well as private individuals, to select their stock of Paper Hangings, Paints, Oils, Varnishes, &c., at this house. See cut of store and advertisement on colored page 322.

McQuade & Carney, manufacturers and dealers in Hats, Caps and Furs, at No. 66 Genesee St., Utica, are new candidates for public favor in their line of trade, and "a new broom always sweeps clean, we bespeak for them a lucrative and increasing business. They bring into the business, tact and energy, and a determination to excel. Call at the new store when in Utica. See card on page 219.

Erastus Lee, dealer in Agricultural Implements and Hardware, No. 39 Bleecker Street, Utica, N.Y., publishes an advertisement on colored page 304. Mr. Lee keeps Patent Mower and Reaper, with four Rakes, so constructed as to reel in the grain and rake it off in any size gavel required. This is pronounced by good judges the best Self-Raker in use. Parties interested will consult their own interest by calling on Mr. Lee.

Wallace & Loomis, Homeopathic Physicians, at Oneida, Madison Co., have, by their uniform attention to patients and general success in treatment, won the esteem and confidence of the public in their vicinity. These who are unfortunate enough to require medical treatment will do well to call on them.

Dr. Kingsley, of Rome, justly celebrated for the many cures he has effected of that most distressing disease, Cancer, publishes a notice on page 220. He is prepared to treat all scrofulous diseases, and others of long standing, and assures his patients that they will not be charged a heavy bill and dismissed without receiving any benefit. Persons who cannot conveniently call upon him in person, can address him by letter, and will receive prompt attention. Dr. K. is a graduate, with an experience of over fourteen years in the practice of medicine. Let the afflicted give him a call.

H. J. Hilliard, dealer in the celebrated American Button-Hole, Over-Seaming and Sewing Machine, and also Lamb's Family Knitting Machines, publishes a card on page 406. For particulars as to the merits of these machines, see card. We would merely say in the way of adding our testimony, that they are among the most perfect machines we have seen. Miss Hilperfect machines we have seen. Miss Hilliard may be found at 195 Genesee Street, Utica, in the new Butterfield House.

"The Buckeye,"-J. M. Childs per Hangings, Paints, Oils, &c., may be & Co., Proprietors. Office 121 Geneses found at their Mammoth and Palatial Street, Utica. It is hardly worth while to Store, No. 111 Genesee St., Utica. This is discuss the merits of this celebrated Mowdiscuss the merits of this celebrated Mowing and Reaping Machine at this late day. So perfect and complete was the machine as originally invented, that its principles have never been changed. Improvement in parts, it is true, have been made, as experience showed them to be requisite. When it is understood that notwithstanding the great number of Machines thrown upon the market for public favor, more than 100,000 of the "Buckeye's" have been have been sold,-it will be universally conceded that the majority are in favor of this as a labor saving implement. We will not attempt to detail its merits, but prefer to recommend the reader to peruse the advertisements-pages 219 and 388.

Simmons & Day, Marble workers and wholesale dealers in Marble, Limestone, Free-stone and Granite, at Nos. 21 and 23. Bleecker street, Utica, are without doubt the largest dealers in their line of goods in Central New York. Being agents, they have peculiar advantages for obtaining the best Scotch Granite, direct from the granite beds of "bonnie Scotland," and can supply dealers at a discount from New York city prices. In a brief notice like this, it would be impossible to detail the many advantages to be derived by purchasing either finished work or the raw mateing ettner annead work of the dealer we would suggest that as Messrs. Simmons & Day are the most extensive buyers in this section of the State, they underly the most extensive buyers in this section of the State, they underly the most extensive buyers. donbtedly buy cheaper than others, and consequently can afford their goods at the lowest market rates. To those who desire to erect a monument or tomb stone to the memory of some dear friend, we would remind them that here they can find a large number of monuments, stones, &c., cut from the various grades of Marble, Freestone and Granite, comprising various styles, and of size and price to suit the taste of all customers. They employ a taste of all customers. They employ a large force of experienced workmen, and keep constantly on hand an immense stock of finished work. They are also very extensive dealers in Lime-stone, and have filled many orders for cut stones for banks. stores, churches and private residences in many places in and outside the limits of Oneida County. See advertisement colored page 321.

C. W. Randall, General Agent of the Mutual Protection Life Assurance Socarl on the Map. This Society possesses all the most valuable features of the best Insurance Companies in the country, and Mr. Randall will attend promptly to all business connected with his office. The importance of Life Insurance is too well known by all who have given attention to the subject, to require any argument in its favor. The only question with most men lator. The only question with most men is in what company shall I insure? For particulars see eard. Mr. R.'s office is at No. 4 Observer Building.

# A THE PARTY

Devoted to News, Agriculture, Literature, and in Politics we will "Hew to the Line, let the Chips fall where they may."

Terms:---\$1.50 per Annum in Advance: if not paid in Three Months, \$2.00 will be charged.

Globe Mutual Life Insurance Company.—It is with the greatest pleasure that we call attention to the advertisemeut, inside the first cover. The institution there represented is, we are satisfied from personal inspection, possessed of every substantial advantage which is preseated by any company, and particularly of one which is not universally possessed, that of the most judicious and economical management. This, after all is perhaps the most important merit which a company can possess and this we conceive the Globe to be most certainly assured of, from the character of its organic structure, and of the well and widely known men who constitute the board of management, and the features in its charter to which we allude, is calculated to secure a continuance of the same careful and skillful control which has so rapidly pushed it forward into the foremost rank of life companies in America.

We take it for grauted that the reader aproves of life insurance, and if not already insured, designs at some time to effect an insurance upon his life. If rich he will do so for an investment; for men of wealth have learned that it pays, and that while it pays, it nicely protects against those reverses and misfortunes from which even they are not exempt. The poor and those of moderate means, will insure hecause it is the only way in which they can secure a fortune or a support to their loved dependent families, if death comes before they have had time to accumulate one.

We cheerfully commend the Globe to the insuring community. It has for its president one of the fathers of life insurance in America, the founder of the company first chartered in the State of New York, and the author of the most beneficent feature of insurance—the non-forieiture system. The Globe was the first company to apply this most just condition to all its policies. Into the hands of such men, it would be judged, we might safely trust our interests, and experience has demonstrated that it is

The Globe presents an universal variety of plans for insurance, all at the most reasonable rates. Read the advertisement.

Lord & Co., Manufacturers and Wholesels and Retail Dealers in Furniture, advertise on the map. No one can visit this establishment, at Nos. 31, 35 and 37 Genesee Street, and No. 6 John Street, Utica, N. # American Button-Hole, Over-Seaming

# Sewing Machine.

The cheapest, as well as the best, since it is really two machines combined in one, making either the Lock Stitch or Button-Hole Stitch as occasion may require. Simple in construction, comparatively noiseless, easily understood, and, in a word, it combines with those advantages exclusively its own, the most desirable qualities of all others, doing every variety of sewing in a SUPERIOR MANNER; and in addition, works a most perfect Button-Hole, and Over-Seams splendidly. Office, 195 Genesee Street, (Butterfield House,) II. J. HILLIARD, Ag't.

## Lamb's Family Knitting Machine.

Knits Hosiery of all sizes; Knits the Heel; Narrows off the Toe, and knits a pair of Socks in 30 minutes. The only Knitting Machine in the world that can set up its own work, knit all sizes, and shape a stocking the same as can be done when knit by hand. By operating the two rows of needles

snape a stocking the same as can be done when this by hand. By operating the two rows of needles separately, alternately, or at the same time, it will make four distinct webs, thus enabling it to do a great variety of Fancy work. The Lamb Machine has taken Highest Premiums, Gold and Silver Medals, at all Agricultural and Mechanical Exhibitions, including the "Paris Exposition" of 1867. All letters of inquiry may be addressed to

Prepared and Sold, Wholesale and Retail, by B. CLINE, No. 16 ELIZABETH STREET, UTICA, N. Y.

And by Druggists and Store Keepers generally. None genuine without the written signature of "B. CLINE."

Important Knowledge.—As many Mrs. M. Servey, manufacturer of sic is now an indepensable necessity in all kinds of Ornamental Hair Work, No. 2 every household, any reliable information Broad Street, Utica, N. Y., advertises on is valuable as to the best place to buy minimum colored leaf op. page 85. Mrs. Servey has compete with them successfully, as their facilities are unequaled. In addition to the immense capital at their course, they have special or fracts with several leading first-class manufacturers, whereby they buy chapper than any other dealers in the Uni-tel States anywhere. Their immense trade requires only a small profit on each one of their many transactions to ensure them a handsome income. Their terms are most highly liberal. And another important consideration is that their treatment of their customers is perfectly honorable, a very important matter in the purchase of such a complicated affair as a musical in-strument. Their recommendation of instruments can be depended on implicitly.-This we know from an extensive acquaintance among handreds to whom they have sold instruments. We savise our readers sold instruments. to give them a call, or certainly to write to them before deciding on the purchase of a Piano Forte. Organ or Melodeon, or any musical merchandise. See the Addenda to this volume, which contains a portion of their catalogue. Also see card on Co. Map.

are as low as the same quality of goods can be purchased elsewhere. Call and see.

John G. Hoerlein, Merchant Tailor, No. 2 Catharine Street, Utica, N. Y., keeps a good stock of goods and makes them up to suit his customers, at prices which cannot fail to satisfy the most exacting. His card appears on page 16.

Central City Savings Bank, located at 121 Genesee St., Utica. The bene-icent results from the establishment of savings banks in our county cannot be over-estimated. Without them it would be impossible for the thousands who now avail themselves of the opportunities they offer to so advantageously lay the foundations for future wealth and opulence, or even independence. A majority of the deposits are usually made in sums so small that they could not be invested as safely in any other way, with the privilege of drawing a liberal interest; while the Savings Bank presents to those who can spare but a few cents or a few dollars each week, or as often as possible of their gains, a safe depository where their little gains will be surely accumulating, until like the rolling op of a snow ball, it becomes of colossal proportions. Let each young man who now spends ten or twenty cents daily for tobacco or cigars, or for his "sherry coblers." seriously reflect on the results that might accrue if instead of thus spending his perhaps hard-earned funds, he would deposit the same amount in a Savings Bank! Let him make the deposits regularly and without fail,-counting them as lost to him forever,-just as it would be if spent as before. Semi-annually, or oftener, the finterest would be compounded with the principal. Not many years would elapse before he would have at his command a handsome capital for whatever enterprise he chose to enter upon, and he would also reasonable terms. See advertisement on Andreas, Erwin Kane, No. 52 Wainat, or John R. Pourroy, No. 51 Locust Street, Lockport, N. Y. positor than the Central City Savings Bank. For a more lucid statement of its advantages we refer the reader to the advertisement on county map, facing the title page of this book.

Mrs. L. J. Shaw, Fashionable Milliner and Dress Maker, No. 7 Columbia Street, Utica, N. Y., is prepared to do all work in that line in the best manner and most fa-hionable style. She also keeps a good assortment of Ladies' Furnishing Goods, which will be sold at reasonable rates. Another feature of her establishment is an Employment Office where good servants can always be had. See card, page 338.

Graceries and Provisions, No. 213 Genesee They keep a large stock of Dentists' Goods street, Utica, N. Y., publishes a card on which they offer at manufacturers prices.

## EBBATA.

#### ADDITIONS AND CORRECTIONS.

Postal Rates and Regulations.—The new Postal Convention with the United Kingdom, which went into operation on January 1, 1839, establishes the follow-

ing rates of international postage :

1. Letters twelve couts per single rate of fifteen grammes, one-half ounce, in the United States, and six ponce (twelve cents) in the United Kingdom; pre-payment optional. A fine of twe cents in the United States, and two pence (tour cents) in the United Kingdom, is, however, to be levied and collected, in addition to the deficient postage, on each unpaid or insufficiently pre-paid letter received by one country from the other.

2. Newspapers, two cents each in the United States, and one penny each in the

United Kingdom, if not exceeding four ounces in weight.

3. Book packets, including printed papers of all kinds, and patterns or samples of merchandise, including seeds and grain, when not exceeding one onnce in weight, two cents in the United States, and one penny in the United Kingdom; when exceeding one onnes, and not exceeding two onness in weight, four cents in the United States, and two pence in the United Kingdom; when exceeding two ounces, and not exceeding four ounces in weight, six cents in the United States, and three pence in the United Kingdom; and when exceeding tour ounces in weight, an additional rate of six cents in the United States, and three pence in the United Kingdom, will be charged for every additional four onness or fraction thereof. The postage chargeable as above upon all articles of printed matter, including patterns or samples of merchandise, must be fully prepaid at the malling office in either country, and is in full to destination, the receiving country delivering the same in all cases without any charge whatever.

After the 1st of January 1869, the registry fee for letters in the United States will be

15 cents, instead of 20 cents as heretofore.

#### GAZETTEER.

County.—In the history of the Press, on page 70, last paragraph, for John H. Osborn read Galen H. Osborn.

On page 71, the notice of the American Baptist should have stated that Geo. G. Ritchie was the first editor, who was succeeded by Wareham Walker, the present editor,

On page 74, the two last paragraphs of the history of the Press were accidently transpo-ed in making up the page. The notice of the General Advertiser should follow that of the Civil and Religious Intelligencer.

The following items are from the Report to the Board of Supervisors for 1868:

The average number of paupers at the Poor House during the year ending Nov. 1, 1868. was 250, and the average cost per week for the support of each was \$1.35. The products of the term for the same year were as follows: 85 tons of hay, 12 tons corn fooder, 1200 bushels potatoes. we bushels corn. 32 bushels beans, 65 bushels onions, 150 bushels beets, 125 bushels corrots, 220 bushels turnips, 50 bushels pursnips, 2,500 heads of cabbage, 3,185 pounds of pork and 2,746 pounds of beef.

The stock upon the farm consists of 3 horses, 11 cows, 2 yoke of oxen, 4 young cattle

and 29 swine.

The whole number of children supported at the Utica Orphan Asylum during the last rear was 126, at a weekly expense of \$1.98 each. Pifty-five of these were supported by the Connty.

At the St. John's Orphan Asylum, 147 were supported, 85 by the County.

At the St. John's Orbital Asylum, 38 were supported, at a weekly expense of \$1.75 each, fity-nine of whom were supported at the expense of the County, Annsville.—There are nineteen school districts in this town, employing 31 teach-

The whole number of pupils is 1649; the average attendance 398, and the amount

expended for school purposes during the year ending Sept. 30, 1868, was \$3.550.75.
William Henry Carswell was executed at Rome. January 8th, 1869, for the murder of Abbey Elizabeth sanders. A large crowd was assembled curside the jail yard, and a few were stimitted inside to witness the execution. The prisoner confessed his crime, declared that he had repented and trusted in Christ for salvation, hoped his punishment would prove a warning to others to shun his evil course and awful end. A prayer was offered by Rev. S. C. Vischer, his spiritual adviser. After the rope was adjusted about his neck, chloroform was administered until he appeared insensible. The cap was then drawn over his face, the drop feel, and in thirteen minutes he was pronounced dead. After the corpse was placed in a coffin it was viewed by the assembled crowd and then delivered to the relatives of the deceased, who conveyed it to Camden for burial. See page 87 of this work.

Ava. -There are nine school districts in this town, employing fifteen teachers. The number of papils is 254; the average attendance 133, and the amount expended for

school purposes during the year ending Sept. 20, 1868, was \$1.674.05.

One of the most heartless, cool and deliberate murders, recorded in the annals of crime. was perpetrated in the town of Ava, Oneida County, in 1857. The circumstance revealed by the evidence, exhibited the most wanton depravity of the murderess in administering a slow and subtle poison to her husband and father of her five young he'sless children. Clorinda Yourden was tried at Rome, in October, 1858, for the murder of James Yourden. Hon. William J. Bacon, presiding; L. S. Davis and B. F. Cody, self-Judges; J. H. Munger, District Attorney, and Hon, Rufus Peckham for the People; Ward Hunt, Samuel Beardsley and D. O. Ponroy, for the prisoner. The mardeness had been on terms of intimacy with another, and wished to rid herself of her husband. that herself and paramour might enjoy the property of her husband. By the assistance of her sister she procured a quantity of arsenic, under the pretense of poisoning rate She put the poison into the conce he drank for dinner; he came back from work about the middle of the afternoon, vomiting, with burning thirst. She prepared peppermint tea, but in more poison, and gave him to drink. She continued in like manner to administer the deadly draught for about three days, when he died in great agony. She refused to send for a physician, stating to the neighbors, that he was subject to such spells and would get over it. At the tuneral, suspicion arese that all was not right, and an examination by the coroner revealed the fact that he had been poisoned, whereupon Mrs. Yourden was arrested and held to bail. The trial was delayed in consequence of the condition of the p isoner, who gave birth to a child some months after Yeurden's death. During the trial she manifested the most stoical indifference, sitting with er infant in her arms. There were about fifty witnesses sworn. On the evening of the 8th day of the trial, the jury returned a verdict of guilty of murder, on hearing which the prisoner shed tears. The following shows how slight a circumstance changed her destiny from death to imprisonment for life: L. S. Davis, one of the side Judges, (with consent of Judge Bacon.) left the Court long, enough to walk to the depot and accompany Mrs. Davis to the house of L. I. Lewis, in the village, then returned to Court. One or two jarors were sworn in Davis's absence; the trial was set aside as irregular. The prisoner plead guilty of man-laughter and was sentenced to the State Prison for life, and is now suffering the penalty of the law .- COMMUNICATED.

Augusta.-For Knox Corners (p. v.) read Knox Corners, (Knoxboro p. o.)

Boonville.—There are twenty-three school districts in the town, employing forter teachers. The number of pupils is 1.401; the average attendance 516, and the amount expended for school purposes during the year ending Sept. 30, 1868, was \$5.407.62.

Lee .- Stokes is a post office. New Hartford. - In notice of New Hartford village for bolting factory read batting

factory

Paris .- Paris Hill. (Paris p. o.) is a post vihage.

The Congregational Charch of Paris Hill was organized in 1791. January 8, 1910, the Union Society was organized at Sanquoit. Mr. M. M. Gray has in his possession an ancient record, dated July 6, 1795, signed by Joseph Howard, Clerk, stating that a meeting was held on that day in Dr. Perkins's store when and where a society was formed by the name of the "Hancock Religious Society." The following officers were chosen, viz: Joseph Howard, Clerk; Jonathan Davis, Wm. Babbit, David Seymour, Asa Shepard, Matthew Nichols, Jonathan Davis, Jr., Jesse Pior and Aeron Davis, Trustices of the compiling of the comp tees. A committee of three was then appointed to appraise the land for a site for a house of worship. Henry Crane, Jonathan Davis and John Clay were that committee. The records of a second meeting held September 7, 1795, show that provision was made for the purchase of a lot for a burying ground, and received the report of the committee on selecting site for a church, and voted to "agree to the report of said committee."—
They then "voted to dissolve the meeting." This is all the record that we have of the society.

Prof. Asa Gray, of Harvard University, one of the most distinguished Botanists of the country is a native of Paris. He was born November 18, 1810; graduated at the Fair-field Medical College, with the degree of M. D., in 1831. Preferring the study of Botany to the practice of his profession, he was in 1834 appointed Botanist of the U.S. Exploring Expedition, but as the Expedition did not sail for some time, he resigned, and was subsequently appointed Professor of Botany in Harvard University. Professor Gray is the author of several works on Botiny, which have been extensively circulated and are regarded as the best of authority upon the subjects upon which they treat.

Clayville was named in honor of Hon. Henry Clay, and

Cassville in honor of Hon. Lewis Cass, when they were candidates for the Presidency.

In the eastern part of Paris are some remarkable fissures in the rocks, from eight to ten feet wide and 12 to 15 in length, with a depth unknown, though some claim to all descended so feet. A stone thrown into one of these holes is heard as it strikes a zair the sides in its downward passage, but no sound as its strikes the bottom. Cattle sor times fall into these holes in places where they are covered to a moderate depth with soil.

Rome.—Among the many large mercantile houses of this village, perhaps none are more worthy of notice than that of the large Hardware store of H. W. Pell. As a retail dealer, he is known throughout Oneida County, and as a wholesale dealer his trade extends beyond the limits of the State.

Ridge Mills is a post office.

Westmoreland.—The Halleck Mineral Springs, in Westmoreland, on a farm now occupied by A. G. Williams, east of the village of Hampton, were discovered in 1837, while boring for coal. The slate formation of the earth's surface indicated the presence of coal. At the depth of 80 feet a sulphur spring was discovered, and at the depth of 106 feet a mineral or soda spring was found, the gas of which forced the water to a considerable height above the surface of the earth. An analysis of this water was made at the time by Prof. Noves, of Hamilton College, as follows:

"One gallon of Halleck Mineral water contains Muriate of Soda
Muriate of Lime .....624 grains. .....104 Sulphate of Lime ... Muriate of Magnesia

It is highly charged with carburetted hydrogen gas, and contains a minute quantity of carbonic acid gas.

June, 1837.

JOSIAH NOYES."

This water is a highly pleasant beverage; is a tonic, and many persons have been much benefited by its use. Scrofula and all cutaneous diseases are cured by it. A large building suitable to accommodate about fifty boarders was erected on the premises at the time.

Whitestown.-For Waterville (p. o.) read Walesville (p. o.)

Mr. L. C. Pavne has a farm near Oriskany, wholly devoted to fruit raising. The soil is peculiarly adapted to all small fruits, and all kinds adapted to this climate flourish here. This is probably the only farm in the County devoted wholly to fruit.

W. S. Taylor & Co's Jewelry Palace is beated at No. 16 Genesee St., Utica. For many years it has been the leading establishment of the kind in Central New York. It would be superflous for us to go into lengthy details of the merits of this house; the reader will gain a very correct idea of its magnitude by perusing their advertisement. In addition to the Jewelry business, they are agents for the celebrated Grover & Baker Sewing Machine. The Depositories of the American Sunday School and the Tract Societies are also located here. See card page 4.5.

The Warrior Mower Company of Little Falls, successors to Brancer & Pierce, of Fabius, advertise on colored Pierce, of Fabius, advertise on colored pare 437. #### REASONS FOR BUYING ALL

# MUSICAL

At the Wholesale Music Store of

#### REDINGTON & HOWE.

No. 2 Wieting Block, Salina St., Syracuse, N. Y.

1st.—Purchasers find in our store much the largest stock of Piano Fortes, Organs, Melodeons and musical merchandise to be met with any where in the State outside of New York City. We offer another advantage: New York City Houses keep only one maker's instruments or their own. Here you see eighteen.

2d.—You may see the instrument you wish to buy, and know exactly its tone. Persons at their homes are often in doubt whether to buy a Piano, Organ or Melodeon. There are always great varieties in tone and finish.

3d.—You can compare each instrument with those of several other makers,

thereby judging what will suit you best.
4th—You will find first class instruments. We are no experimental manufacturers. We select our entire stock from good reliable makers who are not ashamed to own their work, and will not allow the name of a dealer to be placed on their name boards as the manufacturer. We have no interest in any factory and no reason to recommend any instrument except for its reliability.

5th.—We have experts in each department to test thoroughly all goods we self. The purchases we make are only of instruments selected expressly for our trade. 6th.—We warrant perfect satisfaction to every purchaser. We have always done this through a successful business experience of twelve years before coming to Syracuse.

7th.—As we buy much more largely than any other house in the State, we buy cheaper. We give our customers the benefit of this. You save money.

Sth.—We have the best wholesale facilities, so that we supply all classes of dealers at the lowest New York and Boston prices. We have the only Wholesale Agency for the Steinway Piano Forte in Central or Western New York. We can of course retail at the lowest prices.

9th.-We employ only the best tuners, who will see to the reliability of instruments after they leave our Ware Rooms. Our traveling agents will also assist in

careing for instruments.

10th .- If you want low priced instruments, you will find them here cheaper than elsewhere. We can sell you at a profit and charge you only what the retail

dealers pay for their goods.

11th.—Our buying facilities enable us to purchase a lower grade of instruments of large Eastern Factories, (which manufacture from two to four hundred instruments per month,) at a less price than the actual first cost of constructing the same, at any factory (Piano, Organ or Meledeon) in Central New York.

12th.—Our speciality is first class goods. On no other can we maintain permanently our large business. We shall tell you therefore, candidly, the

grade of instruments, if we offer you any other than first quality.

13th-We can furnish you unequaled opportunities for exchanging instruments; new for old, or old for new.

nents; new for old, or old for new.

14th.—The commercial standing of our house, furnishes you the strongest security for the reliability of the instruments, we, or our agents, sell you; and for the value of our warrant, (which we give you in addition to the war-

rant of the manufacturers.)
15th.—You are cordially invited to call at any time and examine and hear the instruments, (players always in attendance,) whether desiring to buy or not. Come and see for yourselves what are the best instruments. Or write to

> REDINGTON & HOWE, No. 2 Wieting Block. Opposite Main Entrance to Syracuse House.

#### NOTICES OF THE PRESS.

(From The Syracuse Daily Standard.)

## The Mammoth Musical Emporium of Redington & Howe.

For some time we have designed an account of this immense establishment, that our readers might be posted in regard to one of the leading business establishments of our city, and which has been brought so rapidly to magnitude by the well directed tact and indomitable energy of its proprietors.

The store No. 2 Wieting Block, is one of the largest and most elegant on the main thoroughfare, and right in the very centre of the business part of the town. As we pass along the street, and more especially on entering the store, the eye is attracted by the elaborate and tastefully arranged exhibit in the show window of all the smaller class of musical instruments, &c., that make as an attractive a display as any window on South Salina Street. As we enter, glancing to the right, the eye quickly runs over a large array of Guitars, Violins, and all varieties of musical instruments and wares, on shelves, hanging up, and in cases. Upon the counter of this department is a Burdett Reed Organ, in a most elaborately carved case, worth \$1,500. It is Next, upon the same side, we come to a long counter, behind which the shelves are loaded with Sheet Music. Prof. T. H. Hinton super-Aises tois department; the best guarantee that the assortment is not only well selected but complete. The opposite side of the store is crowded with Steinway and Dunham Pianos, the sides being lined with the unequaled Vox Humana Organs: with a large variety of Piano and Melodeon covers, and stools added above.

Passing by the center arch we come to rows and rows more of Pianos, Or gans and Melodeons, of all varieties and styles. On the right is the depart ment-for Music Books.—a branch to which this house gives the most prompt attention. Drawers the entire length of the store (140 feet) are devoted to the storage of Violin and Guitar strings, Accordeons, Harmonicas, Piano Polish, and multitude of the different wares to be found in a complete music store, for the wholesale as well as retail trade. And still above, we find more Piano and Melodeon stools, cords of Violins, Guitars, Banjos, Drums, &c., &c. Goods are also stored in the basement—the whole size of the main store—finished and lighted for the purpose.

In glancing through this great establishment one particularly notices the large stock and variety of Piano Fortes. Organs and Melodeons, numbering more than fifty different kinds. The speciality of the proprietors is first-class instruments—on which the public can rely implicitly as being worthy in every way of confidence. This is an important matter for purchasers. Many dealers do not hesitate to tell buyers that second grade instruments are first class. Sometimes small dealers are really ignorant of what is a first class instrument. Others are themselves manufacturers of second quality instruments, and of course are bound to call their own as good as any mado. Sometimes, also, they sell second and third rate goods as first grade for outrageous profits, calculating on only a brief business career in each place they visit. We say then, be careful to buy first class goods, and at a house where they are sure to have such.

Messrs. Redington & Howe, in a twelve years business history, have earned an unblemished reputation for giving perfect satisfaction to their customers. This they accomplish by knowing that everything sent out by them is exactly what it is represented to be. Besides, they are independent of any particu-

lar factory, and therefore the better fitted to judge between different makers. While R. & H. make a speciality of first class goods, they are enabled through their great advantages in buying, to sell second and third grade instruments at cheaper rates than any house in Central or Western New York. They buy at the large factories east, at a price actually less than the small makers can manufacture. The proof of the matter is in the trying. We say, go to Redington & Howe's and see what their facilities are. Their establishment is well worth a visit, even if one does not wish to buy anything. All will be made welcome.

#### (From the Syracuse Daily Courier and Union.)

THE IMMENSE MUSICAL ESTABLISHMENT OF REDINGTON & Howe.—The enterprising wholesale Music Dealers of our city, Messrs. Redington & Howe. have just closed a most successful business year. Their sales have been im mease-something entirely unparalleled in the history of the Music trade in Central New York. They have deserved their increasing success. Their store is the most magnificent emporium between New York and Chicago. Their stock would supply a dozen ordinary city music stores. Theirs is the only strictly wholesale Music House in the State outside of New York City. They have even some advantages over the Metropolitan houses. Our Syracuse wholesale store keeps constantly on hand, the Pianos; Organs and Melodeces, of several different makers, (a total of eighteen, with over fifty different varieties.) while New York houses keep only one maker's instruments. Besides, business expenses are much less in Syracuse than in New York; consequently Redington & Howe are diverting much wholesale trade from New York, and building up for themselves a mammoth business in supplying dealers. The question is sometimes asked, whether other dealers cannot buy in New York, as cheaply as Redington & Howe. The dealers have thoroughly satisfied themselves that they cannot, for there is not a house in Central New York that will agree to take the great quantities of Musical Goods that Redington & Howe buy. Consequently, others have to buy on a higher tariff, It is on the same principle that Stewart of New York forced a neighboring house to withdraw. He could sell at a profit, cheaper than his competitor could buy. Mesers. Redington & Howe, have similar purchasing facilities, Indeed, they can justly be called the "Stewarts" of the Music trade in Central New York.

We are glad, also, to notice that Redington & Howe do a first class business in the Pianos, Organs and Melodeons they furnish. Their principal stock is composed of first grade instruments. These they advertise and recommend because they know their reliability. This house can furnish second class instruments cheaper than any other establishment in Central New York, (for the reason of buying cheaper.) so that if purchasers want a low-priced instrument. Redington & Howe's is the place to procure it. We advise our readers not to buy any instrument without first seeing or writing to Redington & Howe. They will also tell honestly the quality of the goods.

Another point: this house is financially responsible for all they recommend. Besides having the largest capital in the Music business in Central New York, they are backed up by as much more as they choose to call upon.

For everything in the musical line, go to Redington & Howe, No. 2 Wieting Block.

#### (From The Rochester Daily Union.)

"The House of Redington & Howe is attracting the attention of the trade everywhere, on account of their superior facilities for wholesaling the axnowledged first-class Pianos. Organs and Melodeons, as well as every variety of Musical Merchandise.

#### From the Syracuse Daily Journal.

They have a musical emporium second to none west of New York city. In saying this we do but simple justice to Messrs, Redington & Howe, who occupy one of the largest stores in Central New York, fitted up wito an especial view to the accommodation of their rapidly increasing business. The various departments of the musical business have each received proper attention, and each is conducted with a view to meet the demands and cater to the tastes of a most fastidious public. First and foremost, Messrs. Redington & Howe have in their Piano Department a full line of the various makes of Pianos, thus restricting purchasers to no particular make of Piano, but affording them unusual facilities for the comparing of the various instruments. They have in their Organ and Melodeon Department all of the most approved instruments manufactured, and offer inducements superior to any establishment, to persons desirous of purchasing this kind of instruments. In this, as in the Piano trade, Messrs Redington & Howe have the exclusive State agency for the sale of certain makes of Pianos. Organs and Meloileons. and all business connected with such instruments passes through their hands. thus giving them a chance to furnish at lower rates than any other establishment outside of the manufacturers.

This statement is established beyond a doubt, from the fact that the manufacturers of the best grades of instruments refuse to furnish smaller dealers with instruments as low as they do those dealers whom they designate as their wholesale agents. The fact is well known and conceded by all persons that any article can be manufactured at less cost where the manufacturers are turning out hundreds of such articles monthly than they can be made by manufacturers who make on a smaller scale. This would lead to the conclusion that this line of goods can be sold by Messrs. R. & H. at the lowest

possible figures.

In the smaller instrument department their stock embraces the most complete and varied assortment ever opened in Central New York, with instruments from the various leading manufactories of this and other States. The sheet music department of this firm is one of the especial features of their trade, and to enable them to be first and foremost in the introduction of all new and popular sheet music, they have secured the services of our well known townsman. Professor T. H. Hinton, who superintends this department. His well known capability, is the surest guarantee of the manner in which this branch of their trade is conducted. In this department at all times may be found all the latest vocal and instrumental gems issued in New York, Philadelphia and Boston which will be received so as to enable Messrs Redington & Howe to offer them to the public simultaneous with their appearance in the Eastern cities. The department of general musical merchandise has been supplied with everything pertaining in any wise to music, and which assortment they keep fully supplied.

The immense musical emporium of Messrs. R. & H. is open at all times to musicians and the public generally as a place where they can call at all hours of the day and examine for themselves the various features of a well conducted and stocked musical establishment. The acknowledged leadership in the musical business has secured for them the ticket-selling of all opensions.

ras, concerts and other first class entertainments given in our city.

#### From the Daily Journal Oct., 24th, 1868.

Something New and Beautiful.—Messrs Redington & Howehave just received a newly patented Burdett organ, with what we should call a Fairy Bell accompaniment. By means of a stop the effect of a beautiful music box or Mandoline is added. The organ is a perfect gem—worthy of a special visit to their store.

This house is always foremost in introducing to the public in Central New York the various really valuable improvements that appear in musical

instruments. They are just as careful to reject the humbugs, and have actually declined the agency of several pianos and organs which less informed dealers here have since adopted and are trying to sell.

The immense business acquaintance of Redington & Howe, together with their high reputation in New York, Boston and Chicago, as the strongest and most energetic house in New York State (outside of the city), secures to them the first choice in regard to the agency of any manufacturers of musical instruments in the United States.

Their Mammoth trade enables them to buy cheaper than any other Central New York House, as they buy so much more largely. While their principal trade is in first-class articles, they are able to furnish second or third grade instruments, cheaper than the first cost of manufacture in this city. They buy of large eastern factories, which, on account of operating on a larger basis, can manufacture much cheaper than small concerns. And R. & H. buy very closely, because buying so much. On this account they can and do sell cheaper—qualities of the goods being considered, than any other house. For this reason parties in Albany, Troy, Utica, Rochester and Buffalo are sending to Redington & Howe for instruments.

We advise our readers to call there—No. 2 Wieting block—by all means, before buying any musical instrument or merchandise.

#### (From The Northern Christian Advocate, Auburn.)

"This is an old House, and has the best kind of a record for prompt business ability and for reliable and honorable dealing. They secure perfect satisfaction to all customers, whether wholesale or retail. Their facilities are the best of any establishment in Central or Western New York, and their prices correspondingly liberal. Pastors, Churches, Sabbath Schools and families will do well to correspond with or visit this House. Redington & Howe are known to us and we can recommend them as reliable dealers."

#### (From The Auburn Daily Advertiser.)

"A prompt, honorable House, who have the best facilities in Western New York for the Music Business, and who secure satisfaction to all customers."

#### (From The Oswego Daily Palladium.)

"They are thorough, honorable business men, with a larger capital and better facilities than any House in the State, outside of New York City. They keep the best instruments manufactured, and are fully responsible for the warrant they give of perfect satisfaction. We are certain that our citizens will do well to visit or correspond with this House."

#### From the Syracuse Daily Journal, Nov., 14th, 1868.

Much Music.—We had no adequate idea of the magnitude of Redington & Howe's transactions in musical instruments until permitted the other day to see their order book. We were surprised at the number of instruments making their way over the country. We noticed especially a single order recently sent, which surpasses the entire yearly business of many retail establishments. The order was for one hundred and seven Burdett organs and melodeons, having an aggregate value of over \$20,000. We now see why Redington & Howe pay the only wholesale dealer's license in the music line, assessed by "Uncle Sam" in Central New York. They sell such large quantities because they can sell cheaper than any other dealers, (as low, if neccessary, as their competitors buy or manufacture their goods.) They are also well known to be entirely reliable and honorable in their transactions.

## TO THE PUBLIC.

The great combination of improvements attained in the Dunham Piano-Forte in regard to tone, touch, power, equality, durability and workmanship, has built for it a reputation which, to-day, stands unrivalled in every section of the country, and has also elicited from the most eminent professors, critics, connoisseurs, and the most energetic of our competitors, the unanimous opinion that the Dunham Piano can not be excelled.

Being confident that the production of a good article is the best and surest road to success, we have always aimed for perfection in our manufactures, regardless of cost. The patronage which such a course of business has gained for us, without the meretricious aid of Medzia or Foreign Decorations, has proven satisfactory to us beyond our most sanguing expectations, and placed us in the highest position of the

Piano-Forte trade.

While claiming as we do, without the fear of contradiction, for our house, the honor of first introducing to the American public this last great era of Piano-Forte improvement, which has given to American Pianos the Highest honors, and whose perfections have astonished the world, we would state that the First Grand Square Piano made by us some fifteen years since, served as the model for the great improvement in American Piano Fortes.

We also own the patent, now expired, for the cross or Over-Strings, which is now in general use—so popular has it become, and so pecuniarily satisfactory has it proved to us, that we freely gave it to the

world.

The Agrafie arrangement we have used in Pianos for a period of thirty years.

## MERITS OF THE DUNHAM PIANO-FORTE.

Its Durability has become a proverb.

Thousands of them can be found in use, which have required no repairs, other than tuning, during a period of thirty years.

In Workmanship, It cannot be surpassed if equaled.

The best materials and the most accomplished workmen, only are employed in its construction.

In Power, Solidity, Purity, and Equality of Tone, it has no compeer.

It is pronounced by the elite of the musical profession, and the dilettanti the most perfect Piano made.

As a Safe Investment, it is the best.

Dealers throughout the country, who have sold thousands of them during our business career, have never had one returned for being defective; nor have they, during a period of nearly twenty years, been called on to pay five dollars for repairs on the whole number sold.

It can be sold after years of use, for nearly, if not quite, its original cost.

We have orders for any quantity of them, at an advance of 33% per cent over any other make of half its age.

It is warranted in the most satisfactory manner.

The commercial standing of our house is sufficient guarantee that any claim will meet with instant liquidation.

The Juries of the Universal Exposition of Paris, admit that American Pianos are the best, therefore Americans must be the best judges. Convinced that such is the fact, we have always striven to meet their critical requirements, and their approbation and patronage has been our reward; and we shall continue to manufacture such Instruments as will command the HIGHEST POSITION IN THE ART. regardless of Foreign Medals or Royal Decorations.

DUNHAM & SONS.

## THE DUNHAM PIANO-FORTE.

In asking attention to the preceding circular of the manufacturers, we add a few

#### REASONS FOR BUYING A DUNHAM PIANO.

This establishment is the oldest in the country and possessed of the most valuable experience, taking the lead in important improvements. were the inventors of the Overstrung Bass and own the Patent.)

They have the largest capital of any establishment, without exception.

Their workmanship is the most perfect and durable possible.

Their scales are the most perfect.

Note-We ask attention to the following criticism from Watson's Art

Journal.

"Their new square is one of the most beautiful instruments we ever heard. In depth, purity, and grandeur of tone, it can hardly be equaled; its touch is exquisitely consitive; the registers are perfectly equalized; it sings with a wonderful purity of vibration, and the quality of its sound is refined, limpid and melodious, and at the same time, great in sonority and briliance.

It is truly a perfect Piano.

The house of Dunham has also been among the intellectual leaders of Piano improvers, and this new Piano is another step in advance, which will still further enhance its reputation."

The Action of the Dunham is perfect.

These Pianos have a peculiar timbre of tone, clear and melodeous, preferred by the majority of musicians to that of any other Piano whatever.

The price is more reasonable than that of any other first-class maker.

Finally the house is of the most honorable character and ensure beyond the possibility of doubt the most perfect satisfaction to every owner of one of the Dunham Pianos.

A most important improvement has just been introduced by Messrs. Dunham

& Sons' in the construction of the Upright or Boudoir Piano.

The large size of the Full ScaleS quare Piano has always been an objection from the amount of standing room required for the instrument. The Upright form has always been preferred and is the popular style in Europe and among the older musical nations.

While possessing a quality of tone so peculiarly its own and generally preferred to the other grades of Pianos, an objection has always been raised to its general use on account of its complicated action. Messrs. Dunham & Sons

have removed this great objection in the new

### Dunham Upright Grand.

This Piano has all the merits of the compactness and beauty of form of the Upright pattern and employs at the same time the simple action of the Square

The arrangement of the Scale in the Dunham Upright is diagonal instead of perpendicular, thereby giving an immense advantage in power and beauty of tone, as well as in the arrangement of the action. In full, round, rich power

#### IT EQUALS A FULL SIZED CONCERT GRAND!

with an indescribable sweetness that the Grand does not possess.

Another most important feature is the wonderful cheapness in price as compared with the same qualtity and quantity of tone in any other form.

We are the Manufacturer's Special Agents for the State of New York and portions of some other States, and supply dealers of all grades, as well as retail customers, at the Factory Prices.

REDINGTON & HOWE.

MUSIC PUBLISHERS AND DEALERS.

## THE STEINWAY PIANOS.

As these wonderful instruments are so well known, we do not take the space to re-produce their price list, (ranging from \$650, to \$1800.) These Piano-Fortes have twice taken the first prize over all the Pianos of the World, and are universally acknowledged to be the best

that are made.

We sell them at wholesale and retail at lowest factory prices, being the manufacturers exclusive agents in this vicinity.

REDINGTON & HOWE.

## THE CHICKERING PIANO

has long stood at the Head. We are dealers in these magnificent instruments. Prices from \$550, upward.

## The Hallet, Davis & Co., Piano.

This standard instrument maintains its well established superiority. The Compeer and only Boston rival of the Chickering, (having several times taken the first prize over its world renowned neighbor,) it is furnished by the manufacturers at a very small margin of profit. It is sold wonderfully low for such a complete first-class Piano Forte, affording customers a large saving of money. When we consider its extremely reasonable price, in connection with its unsurpassed quality and durability, and the unexcelled perfection and beauty of its scales, this Piano is unrivalled.

Prices from \$450, upward. We supply the Trade.

## THE BRADBURY PIANO,

is well known to be of superior merit. We have them at Wholesale and Retail. Prices from \$575, to \$1,000.

## THE CENTRAL PIANO-FORTE COMPANY'S PIANO,

Manufactured by an association of workmen from Steinway's factory, so closely resembles the Steinway, as to be called the Steinway's Compeer. We sell these to the Trade on very favorable terms. Retail Prices \$545, and upwards.

#### HINTS ON THE PRESERVATION OF THE PIANO.

It is evident that if the Piano is to remain in good order for many years, good care must be taken of it. The instrument should be closed when not in use, in order to prevent the collection of dust, pins, etc., on the sound-board; however, it must not be closed for a period of several months or longer, but be opened occasionally, and the daylight allowed to strike the keys, or else the ivory may turn yellow.

Any hard substance, no matter how small, dropped inside the Piano, will

cause a rattling, jarring noise.

It is in every case desirable that an india-rubber or cloth should protect

the instrument from bruises and scratches, as well as dampness.

The Piano should not be placed in a damp room, or left open in a draught of air—dampness is its most dangerous enemy, causing the strings and turning pins to rust, the cloth used in the construction of the keys of action, to swell, whereby the mechanism will move sluggishly, or often stick altogether. This occurs chiefly in the summer season, and the best Pianos, made of the most thoroughly seasoned material, are necessarily the most affected by dampness, the absorption being more rapid. Extreme heat is scarcely less injurious. The Piano should not be placed very near to an open fire or a heated stove, nor over close to the hot air from furnaces now in general use.

Moths are very destructive to the cloth and felt used in the Piano, and may be kept out of it by placing a lump of camphor, wrapped in soft paper, in

the inside corner, care being taken to renew it from time to time.

Many persons are unaware of the great importance of having their Pianos kept in order, and only tuned by a competent tuner. A new Piano should be tuned at least every three or four months, during the first year, and at longer intervals afterward.

### How to Unpack a Piano.

Take out the screws holding the lid of the box, remove the lid, take out the Piano legs and lyre, remove the board across the inside box. Place two benches or strong wide chairs, which should be covered with a quilt or other soft substance, alongside the box where the back of the Piano is, slide the Piano toward the end where the legs were—about six inches, have the Piano lifted out by four persons, one at each corner, and set it on the two benches or chairs on its back.

Unscrew the cross-boards on each end of the bottom, and put the lyre and legs on, which are numbered 1, 2, 3, 4, for their respective places. Have the four persons lift the Piano off the benches and set it down so that the four legs will touch the floor at the same time. Unlock the instrument (the key will be found tied to the lyre.) and wipe off the dust lightly with a soft silk

handkerchief, or piece of buck-skin.

### Purchasing Musical Instruments.

There is, probably, no article of household equipment, the construction of which the majority of purchasers know so little of as pianos. There are few articles that are used so continuously, and for the length of time that pianos are, hence the importance of durability. The finest case may cover a fifth rate interior: a fine tone piano when new may subsequently prove to be made of cheap material that fails after a few years use.

Cheap Pianos with which the country is flooded, are invariably the most expensive in the end, i. e. if we estimate loss of tone and constant annoyance by the instrument being out of repair, of any account. It is wisest therefore, for purchasers to get their instruments of dealers, if they are to be found, who are known as practical men, both musically and mechanically, as well

as honorable. Ogdensburg Daily Journal.

## THE BURDETT ORGANS.

#### REDINGTON & HOWE.

Are happy to announce that they have secured the State Agency for the above Organa. Our own opinion agrees with the acknowledgement of all leading Musionans as to the great superiority of the Burdett Organ, with its present patented improvements.

A careful examination of these Instruments will convince any lover of the beautiful in music, that these organs contain more purity of tone-more variety

of expression-more power, than any other Organ known.

We would call especial attention to their last great improvements, the Combi-NATION ORGAN of Mr. Burdett, and the wonderful Vox Criests Stop; the Cam-PANELLA ATTACHMENT of Mr. R. M. Carpenter, together with his Improved Vox Humana Tremoto. Also, the improved Harmonic Attachment, (doubling the power;) the Patent Manual Sub-Bass, (giving a wonderful depth and volume of tone;) the Obchestral Swell; the Double Blow Pedals, and others.

#### THE COMBINATION ORGAN

Has one and a half Banks of Keys, with four Sets of Reeds, tuned in a manner to give the greatest variety possible in a Reed instrument.

We have only space to mention one peculiar and beautiful stop in the Combination Organ, the effect of which heretofore has never been heard in a Reed Organ.

#### THE VIOLINCELLO STOP.

used for solos alone, is most entrancing when used with the Vox Humana. It seems almost to speak words-certainly it speaks to the heart of every listener. No one should fail to make inquiry about this Organ.

#### THE VOX CELESTE STOP

Is a new and most valuable improvement, which brings into use an extra set of reeds, which, by their peculiar arrangement and method of tuning, produce a wonderfully beautiful string quality of tone, with a most astonishing power, surpassing all the previous efforts of the inventor. This admirable improvement, which has created such a sensation among Organ makers, as well as with the musical Public, is found only in the Burdett Organ.

#### THE CAMPANELLA ATTACHMENT.

The latest and best of all mr. Carpenters inventions, now for the first time placed before the public, will, when listened to, tell its own sweet story. The Campanella is a stop resembling the tinkling of Fairy Bells, or the rippling waters of a fountain, making music so sweet and harmonious, that it passes Edian-like over the senses—as passes the music of a Harp at night touched by Fairy fingers. This enchanting stop should certainly be heard by all lovers of music. The patent has been applied for by Mr. Capenter, the inventor.

#### THE VOX HUMANA TREMOLO

of Mr. R. M. Carpenter, so much admired by musicians every where, needs only a word. It has already become a Household Glory, and no Organ is complete without the beauty it imparts to the tone. This step should not be confounded with Mr. Carpenter's former invention. It is an improved Vox Humans-has no third pedal—is perfectly noiseless in its operation—has no clock work to get out of order—is entirely simple in construction—is found only in the Burdett Organ and when once heard, delights and fascinates the listener.

We invite the most rigid scrutiny of these Organs by Dealers, the Profession and the Musical Public, to prove the justice of the title acknowledged to them as THE BEST ORGAN IN THE WORLD.

We have constantly on hand a large stock of these Excelsior Instruments. We supply all classes of dealers, as well as retail customers, at the lowest Factory rates. Agents will soon be found at all principal points. Satisfaction warranted in all transactions. Send for Illustrated Catalogue.

REDINGTON & HOWE, General Agents, No. 2, Weiting Block, Syracuse, N. Y.

## THE ESTEY ORGANS.

This Veteran House (established in 1846) holds its rank at the head, and are now finishing every month hundreds of Organs and Melodeons, which are a just credit to American skill and enterprise.

The vast amount of patronage received, has been secured more by the actual merits of the instrument, than by extensive advertising and the pretentious parade of their wares before the public. They have employed and retained, from the first, some of the finest mechanics and inventors of the age, and have adoptted, and patented more valuable improvements, than any other establishment in the land. As the result, their instruments stand unrivalled by anything found in this country or in Europe, as is admitted by all impartial judges. The most eminent Pipe-Organ builders and performers—the last to discover excellence in reed tones—pronounce them much superior to others.

They possess the following improvements:

THE PATENT HARMONIC ATTACHMENT is an octave coupler used on a single manual, and doubles the power of the instrument without increasing its size or number of reeds. Thus, by the use of this improvement, an Organ containing two sets of reeds is instantly made equivalent to one of four; and a trired equals an instrument of its size yet known in this country.

THE PATENT MANUAL SUB-BASS brings into use an independent set of large and powerful sub-bass beeds, which are played with the ordinary keys and controlled by a stop. The manner in which this set of reeds is placed upon the air chamber increases the volume of tone at least one-third. This new and valuable invention requires no extra room, and has all the effect of pedal bass, and can be used by any ordinary performer.

THE PATENT KNEE-SWELL, whereby the player has complete control over the instrument, obtaining a perfect Crescendo or Diminuendo, more beautiful than the Automatic Swell, or any other ever before used.

THE PATENT ORGAN BELLOWS greatly enhances the power and quality of the tone without increasing the size of the case.

THE PATENT REED BOARD, whereby the tone is greatly improved, rendering it more like a Pipe Organ than is found in any other instrument. This important improvement is covered by two patents.

#### THE PATENT VOX HUMANA TREMOLO.

In attempting to describe the effect of this stop, we are at a loss for language; its beauties cannot be written, but must be heard to be appreciated. By this stop an ordinary performer can produce an effect which requires a lifetime of practice for an artist upon the Violin.

It changes entirely the reed-tone, giving the sympathetic sweetness of the Human Voice, making it so melodious and pure that it never fails to enchant the appreciative listener.

The Tremolo is produced by means of a revolving fan placed just back of the swell, which imparts to the tone a charming wave-like effect hitherto unknown in instrumental music.

#### THE VOX JUBILANTE

Is a new and beautiful stop, peculiar to the Ester Organs. The character of the tone is marked and wonderfully effective, giving a style of music hitherto unattained in instruments of this class. This is accomplished by an extra set of reeds, ingeniously arranged, and adjusted to meet this special, and hitherto unsupplied want. It is considered by competent judges a great success.

Send for Illustrated Catalogue, giving accurate pictures of the styles.

REDINGTON & HOWE,

Wholesale Agents.

## Popularity of the Dunham Piano.

We are sometimes asked why the Dunham Piano Forte has not been more prominently before the public for the last eight years. We give the reason. At the commencement of the late war, the Dunham, senior, concluded to decrease the very large manufacturing done by himself, so long as public attention should be so completely absorbed in the stirring events then transpiring, consequently he diminished his force employed and sent during the war the greater portion of his pianos to the Canadian Provinces, (Where the demand for the Dunham Pianos call for more than five hundred instruments every year).

At the conclusion of the war, he associated with him two sons as partners, built a new factory, and the firm of John B. Dunham & Sons are now manu-

facturing very largely.

The high opinion of their pianos entertained by Piano Dealers is evinced by the great desire of the principal houses to secure the Dunham agency.

## Leiter Brother's Jewelry House.

These gentlemen occupy a portion of the shelf and counter room in our store with a very fine stock of well assorted Jewelry and Silver Ware. Their connections with a New York Importing House enable them to sell at wholesale and retail cheaper than any House west of New York City.

#### Situations for Music Teachers.

We keep a registry of Music Teachers in Central New York. Also a list

of those desiring locations.

We can, therefore, always put parties in any town or village in correspondence with good reliable music teachers, who can be secured at reasonable rates. We charge nothing either to the teachers or the public. We act cheerfully without pay, as we desire to extend our acquaintance.

Teachers should send us their name, terms, i.c., when desiring a new field of employment. Individuals wishing teachers are invited to write us freely

at any time.

## Wieting Hall.

The largest, best, most central and most popular Hall in the city, can be leased for Concerts, Lectures and all varieties of first class entertainments.

Particulars can be learned in our office.

## Correspondence Invited.

It is impossible in our present limits to give full particulars of our trade and varieties of musical goods we sell. We invite therefore, inquiries by mail, or otherwise in regard to any department of the music business, We can send to any address, circulars with fuller details than our catalogue admits of, or forward written information. We do so with pleasure.

REMEMBER that it costs no more to write one thousand miles to us than

five miles to some smaller House.

REMEMBER that we save you much more than cost of freight on what you

buy of us. We guarantee to do it.

REMEMBER that unless you are satisfied with our treatment to you, you have nothing to pay.

# YOUNG WARRIOR MOVER,

MANUFACTURED BY THE

# Wardor Mower Co.,

LIT'TLE FALLS, N. Y., SUCCESSORS TO BRAMER & PIERCE, FABIUS, N. Y.

This popular Mower has been in use for the past five seasons, and is, therefore, no new antried machine, but one that has been practically tested and perfected, and is a perfectly reliable first-class Mower, as hundreds who have them in use will testify. We claim for this Mower superiority over most others in the following points:

It is the lightest draft of any machine made, average draft in heavy grass being only 175 lbs.; it is simple, compact, near and durable. No bearing down on horses' needs; no side draft. Has an easy scat to ride on, and is the easiest and most convenient machine to manage, manufactured. From frame, two driving wheels, planetary gearing entirely enclosed from grass, dirt, &c., flexible folding cutting apparatus, closely guarded, made of the best material, in a good workmanlike manner, and fully warranted.

ASTOCK COMPANY has been corporated at LITTLE FALLS, N. Y., known as above, for the manufacture of the Young Warrior Mower, in which the former proprietors, Messes, BRAMER & PIERCE have a large interest, and who will give their personal attention to their manufacture, and the public can vest assured that the reputation of the Mower as to finish and excellence of mechanical construction, will be finity sustained, and, if possible, increased. Hoping that the patrons of the old company may be counted as petrons for the new, and promising to do our utmost to make a first-class desirable Mower, we remain, yours respectfully.

### WARRIOR MOWERS COMPANY.
